ASTRALPOOL

FLUIDRA

THE PERFECT POOL EXPERIENCE

We are a leader in the global pool industry. Our portfolio includes some of the most trusted brands, including Jandy®, AstralPool®, Polaris®, Cepex®, Zodiac®, CTX Professional® and Gre®. We offer our customers an expansive array of products across both the residential and commercial pool and wellness markets, and we have a strong geographical footprint with operations in over 45 countries.

We have some 5,500 employees and the necessary resources to accelerate innovation in critical areas like energy-efficiency, robotics and the Internet of Things.

We are guided by clear values and come to work every day with a simple and direct mission: **To create the perfect pool and wellness experience**.

By staying focused on this mission, we create value for all our stakeholders: customers, pool owners, investors, employees, suppliers and society.

INTEGRATED BUSINESS MODEL

R+D+i

Excellence in innovation with +200 engineers and some 1,200 patents

Production

34 flexible multi-technology plants in key countries

Logistics

Logistics operators to ensure fast and reliable deliveries

Distribution

+140 points of sale, giving support and training to the professional clients in over 45 countries

Engineering

Design and engineering of water projects

HOW TO ENJOY

1 MAINTAIN WATER PARAMETERS

Step one:
MEASURE pH / Chlorine

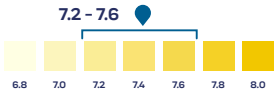

2 times a week

- Test strips
- DPD1 Tablets
- Blue Connect
- Automatic equipment

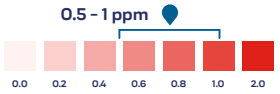

Step two:
ADJUST

pH

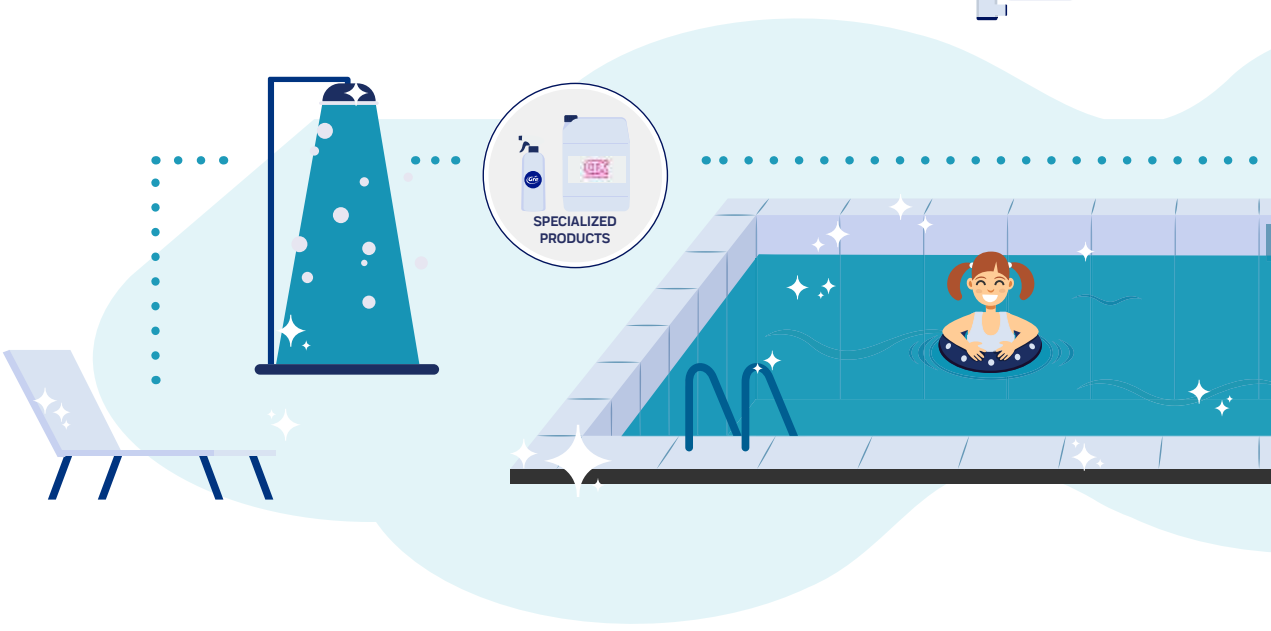

pH Minus or pH Plus

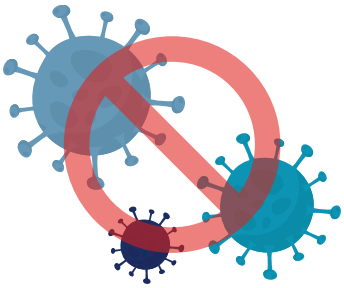

Free chlorine

- Chlorine tablets or liquid chlorine
- Automatic dosing
- Salt electrolysis

A SAFE POOL

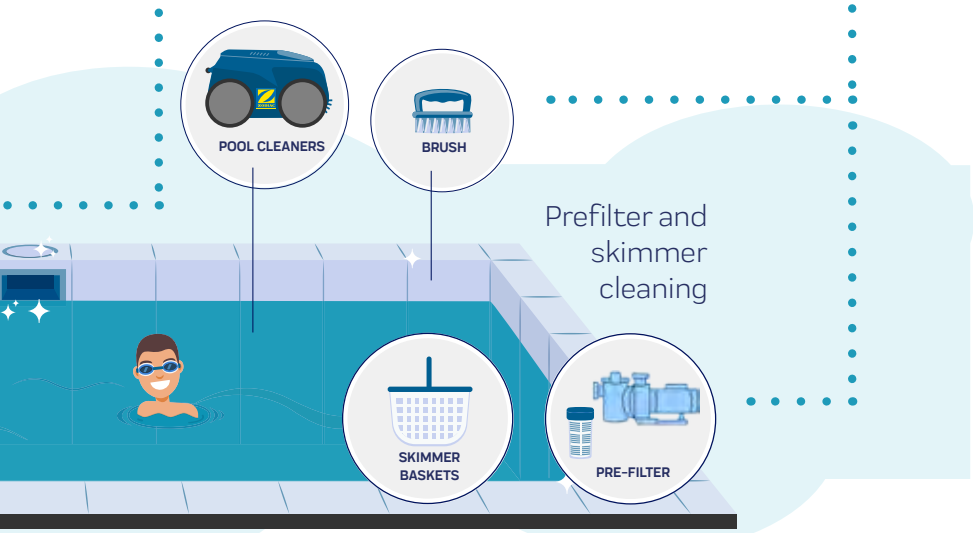

2 KEEP POOL AND EQUIPMENT CLEAN

3 DISINFECT THE POOL ENVIRONMENT

TOOLS
OF THE ASTRALPOOL WEBSITE

Fluidra configurators

Heat Pump: AstralPool configurator helps to choose the most adapted model based on your expectations and your environment. With its wide range of heat pumps, you will achieve perfect comfort.

Dehumidifier: AstralPool configurator helps you to select the dehumidifier that adapts better to the conditions of your pool.

LumiPlus Flexi: Lumiplus Flexi is the new projector from AstraPool and it is characterized by its great adaptability. With this solution you can choose:
- The color of the light (white, warm white and RGB)
- The mounting system (niche, wall , nozzle)
- The faceplate color that best matches your pool (beige, light grey, anthracite and stainless steel)

Using this configurator, you will be able to choose the LED Projector that best suits your requirements in just 6 steps.

Find all these calculation tools at:
https://www.astralpool.com/en/calculation-tools/
and in the ToolBox Fluidra Application (see below)

Fluidra calculators

Victoria Plus Silent VS: The following AstralPool calculator makes it possible to calculate the annual savings made by installing a Victoria Plus Silent Variable Speed pump in comparison with conventional single speed pumps found on the market.

Kivu: The filtration pump Kivu stands out for its high efficiency. With its AstralPool calculator, you can not only select the most suitable model for your pool but also calculate the savings obtained.

Find all these calculation tools at:
https://www.astralpool.com/en/calculation-tools/
and in the ToolBox Fluidra Application (see below)

Fluidra TOOLBOX

Fluidra toolbox is a single application where pool professionals can download our product catalogs and leaflets as well as access directly on mobile or tablets to all Fluidra's configuration and calculator tools.

ANDROID APP ON Google play

Available on the iPhone App Store

PISCINE LAGHETTO®
by ASTRALPOOL

your water mirror

Dolce Vita

Elegant in design, this system has revolutionized the world of pools. The unbeatable quality rattan and sound technology ensure a long service life.

PLAYA

An extremely elegant mini-pool that is perfectly suited for terraces and gardens.
Hot water, an air massage and bubble feature, and a space for sunbathing.
Available in Laghetto's colours: white, grey and coffee.

pop!

The classic above-ground pool has been revamped to bring colour into your garden.
Pop! can be turquoise, white, sand, green or lilac.
Design adapted to new technology backed by 40 years of experience.

Internet of Pools

Your assistant for the installation, control, and maintenance of your swimming pools

Peace of Mind

Users and professionals are able to access in real-time from any place and remotely to all the elements of the pool, in order to check their proper functioning.

Comfort

Pool professionals will be able to carry out the remote management of every swimming pool (filtration, water treatment, heating, etc...) and outdoor equipment (lighting, irrigation, etc...).

Sustainability

The automation technology allows an efficient and eco-friendly pool equipment control for a perfect pool experience.

Pool Experience

Connected devices or connected pools allow to share easily pool information, improving the user experience and its maintenance.

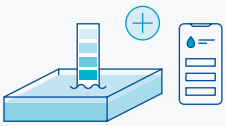

A Fluidra connected solution for each type of pool

Fluidra's Smart Pools Solutions works on all type of pools thanks to a wide range of products.

TEST STRIPS

Blue Check + Blueriiot Pool & Spa Assistant app

Basic solution

- Measure the quality of the water using the test strips.
- Follow the App-guide with personalized tips for treating your pool water.
- Access the status of your pool water

CONNECTED SENSORS

Blue Connect Go + Blueriiot Pool & Spa Assistant app

Semi-professional solution

- Smart pool water analyzer that measures water quality.
- Follow the App-guide with personalized tips for treating your pool water.
- Access the status of your pool water.

Blue Connect Plus + Blueriiot Pool & Spa Assistant app

Semi-professional solution

- Smart pool water analyzer with total monitoring of water parameters.
- When action is needed, a notification is sent and personalized advices help to optimize the use of chemicals.
- Pool Professional Web access to monitor all pools remotely.

CONNECTED DEVICES

Elite Connect / Control Connect + Pool Station APP

Professional solution

- Smart control of water quality.
- Easy access for users and professionals through the APP as well as the web portal.
- Possibility of controlling other external elements such as filtration, waterfalls, lighting, irrigation...

CONNECTED POOLS

Fluidra Connect & Go + Fluidra Connect APP

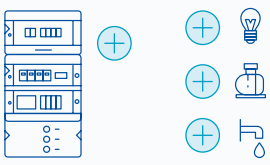

Complete professional solution

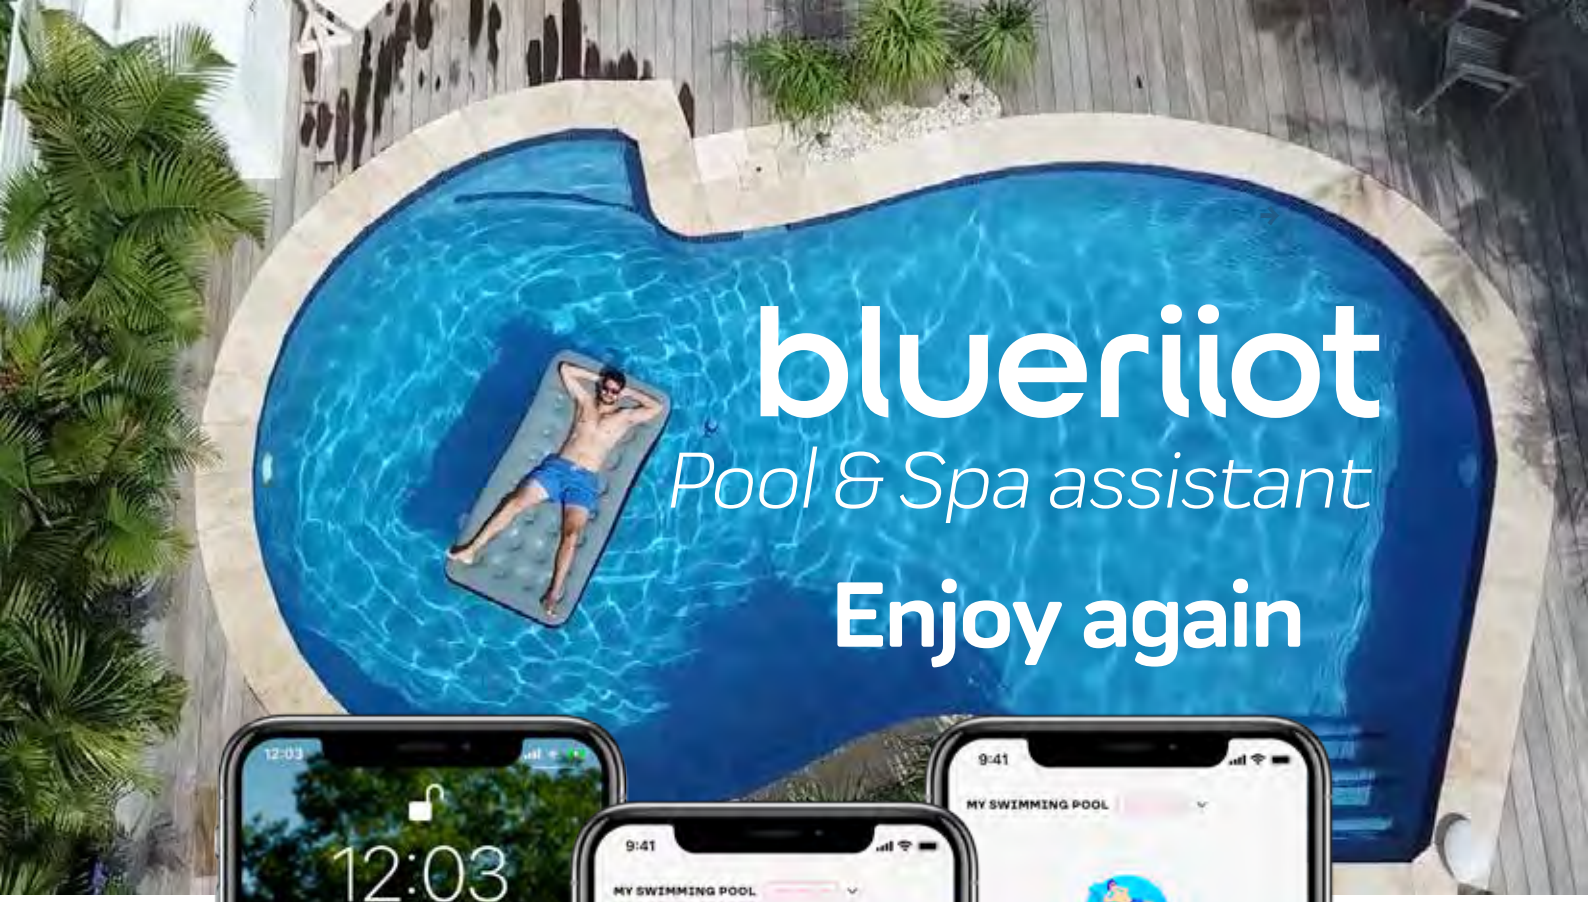

- Remote management of the pool (filtration, treatment and extras).
- More efficient use of energy consumption (sustainability).
- Installation pre configured through products kit. Reduces installation time by 80%.

Fluidra Connect & Go + NN compatible products + Fluidra Connect APP

Tailor-made professional solution

- Allows control, diagnosis and management of the pool remotely.
- Control multiple external elements such as filtration, waterfalls, lighting, irrigation...
- Maintenance management of several pools from a single portal.

Blueriiot Pool & Spa Assistant digitalises swimming pools and spas

Blueriiot Pool & Spa Assistant is an application that helps the user to maintain and enjoy his swimming pool or his spa, thanks to the integration of connected products and smart home services.
Blueriiot Pool & Spa Assistant gives the user the chance to enjoy his pool with peace of mind.

In one single App, the user benefits from several features :

- Access to pool data, water quality, and weather at the pool in real time.
- Easy configuration and maintenance of Blueriiot connected products.
- Tailor-made recommandations to obtain a crystal clear water. The right dosis of the right product, at the right time.
- Smart pool integration for infinite possibilities.

Blueriiot Pool & Spa Assistant compatibility & features

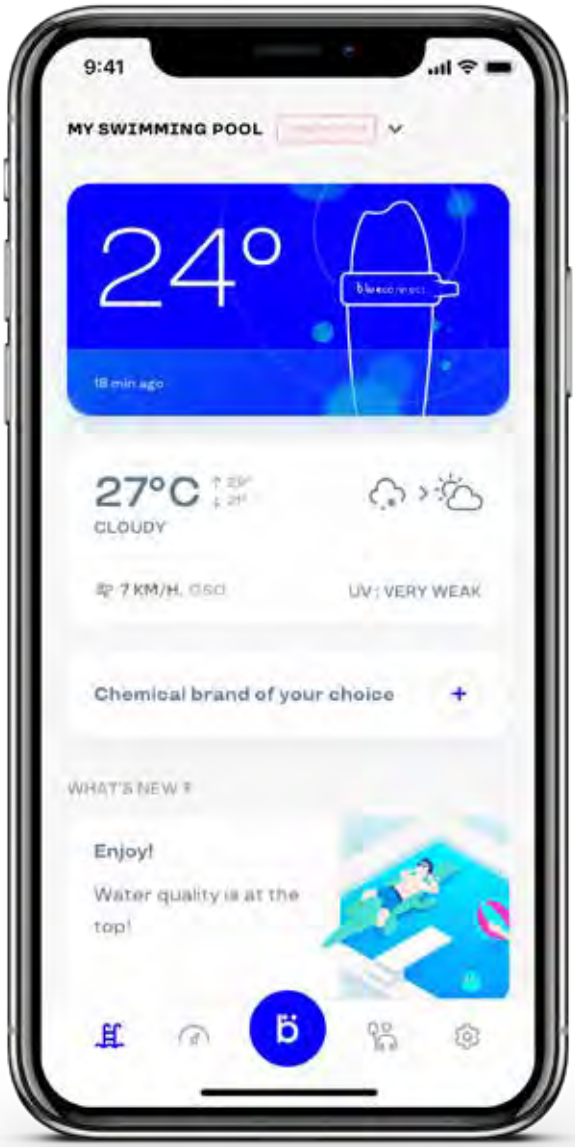

Blue Connect

All types of pools

Cl/Br/Salt

Water quality

Notification when an action is required

Blue Check

Chemical advices

CTX Professional

ASTRALPOOL

Weather data & forecasts

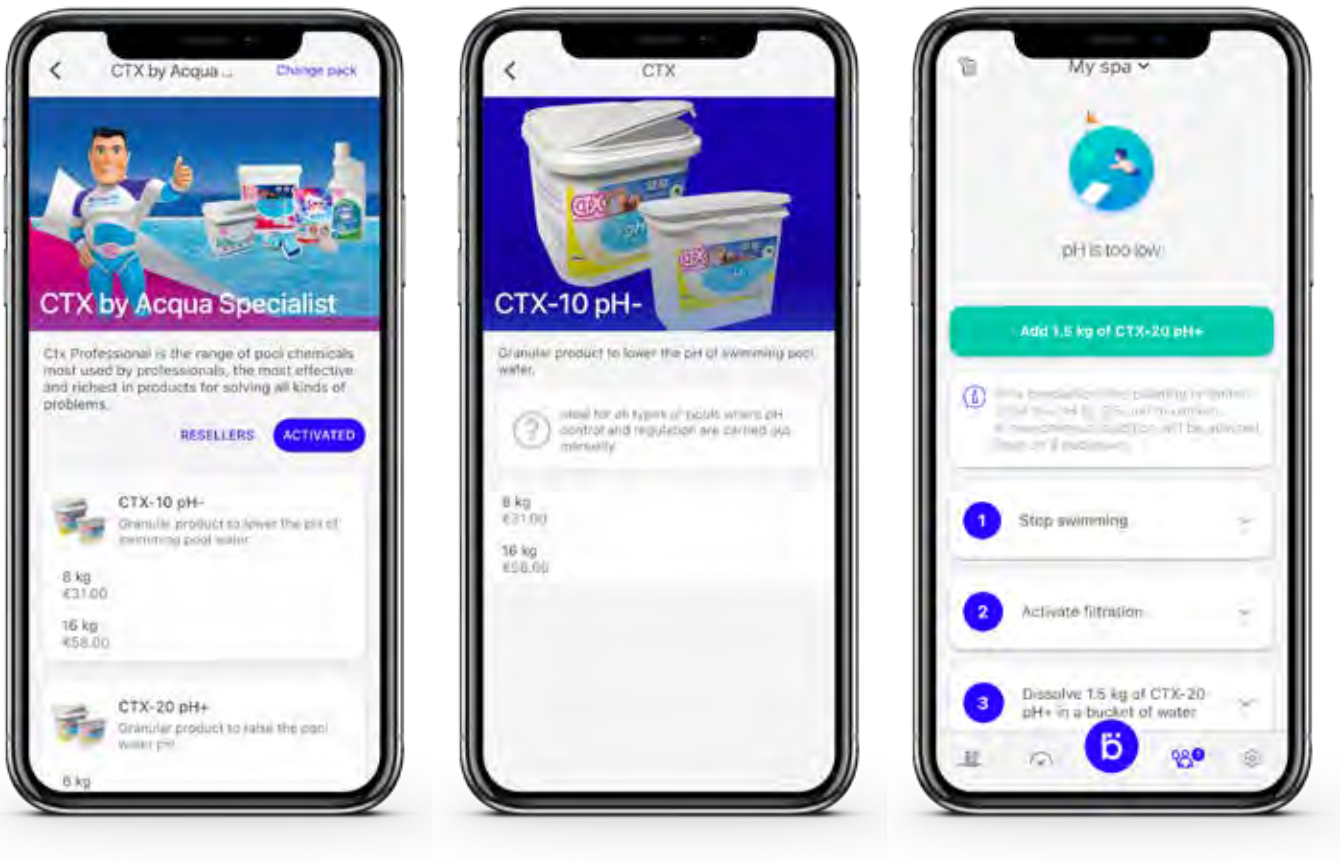

Promote your shop in the app

Voice assistant integration

amazon alexa Google Assistant

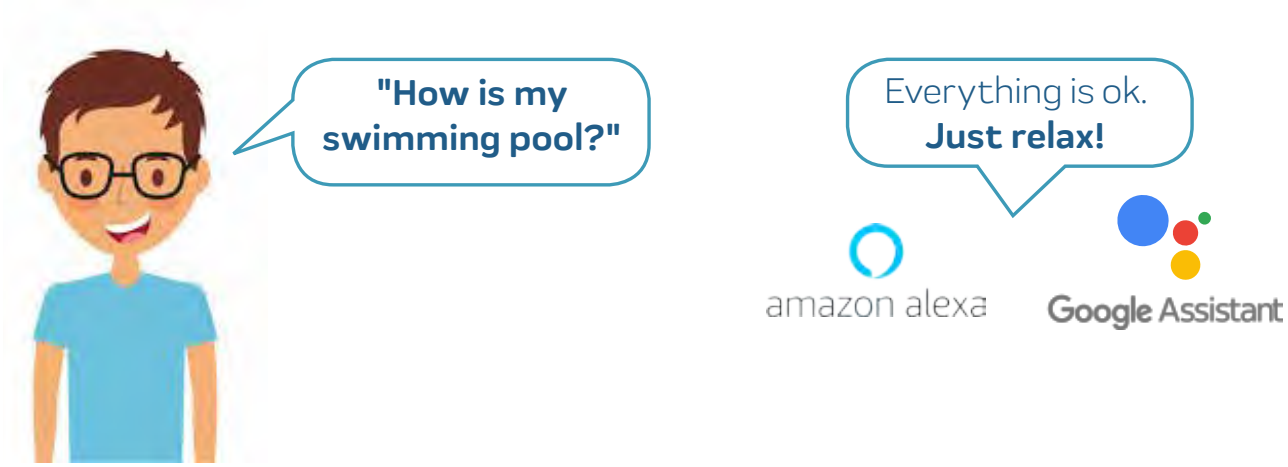

Chemicals compatibility

The users can choose to use Blueriiot Pool & Spa Assistant with a specific product line.
He will benefit from precise and adapted advices to this range of products.

Voice assistant compatibility

Blueriiot Pool & Spa Assistant is compatible with the Amazon Alexa and Google Assistant voice assistants.

Blue Connect, the smart pool analyser

Blue Connect is a smart device that analyses the quality of the water automatically. Combines with the free app Blueriiot Pool & Spa Assistant, it informs the user how to balance out the pool in easy, straight forward steps!

The device is equipped with an innovative sensor that measures the main parameters to keep a crystal clear water: pH, water temperature, ORP (disinfectant level) and conductivity.

Always connected

Blue Connect is always connected thanks to different technologies:

Sigfox

Blue Connect continuously sends the data to the cloud via a network dedicated to connected devices.

Bluetooth

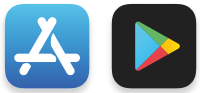

Blue Connect user can take an instant measure directly with Bluetooth.

Wi-Fi

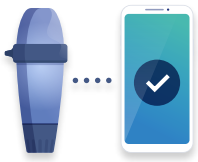

Blue Connect works with the Wi-Fi network thanks to Extender

Plug & Play

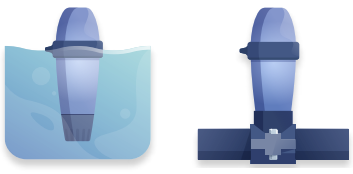

Blue Connect works with **all types of pools** and its installation takes only 3 minutes

1. Download the App Blueriiot

2. Activate Blue Connect

3. Install in the water OR in the technical room (***Blue Fit***)

4. Enjoy

Blue Check, the "smart" test strip

Blue Check is a set of 50 test strips to use with the free application *Blueriiot Pool & Spa Assistant* that analyses the quality of the water by taking measurements manually. The app gives customised advices to maintain the pool. A simple solution to keep the water clean with peace of mind.

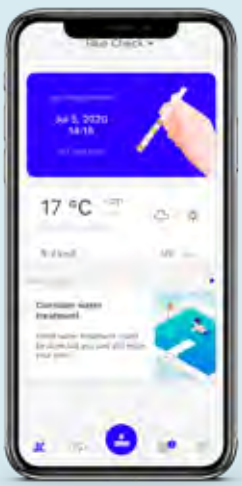

Blue Check is a complementary solution of Blue Connect, the smart pool analyser (see p. 204). Thanks to Blue Check, you can ensure that the pool water is in balance by verifying other parameters such as the alkalinity, the hardness and the cyanuric acid. More info p. 204.

EASY TO USE

1
Make the test and enter the strip's values in the app *Blueriiot Pool & Spa Assistant*

2
Access the pool status

3
Receive custom recipe on which chemicals to use in which quantity

Viirtual Pool Care platform

Web platform dedicated to pool & spa professionals

www.virtualpoolcare.io is a web platform designed specifically for the pool and spa industry. It offers you the tools you need to organize your business, promote your products, services & shops towards Blueriiot users. Viirtual Pool Care is available for computers, tablets or phones.

Pools

Monitor your pool & spa park remotely on the platform *Viirtual Pool Care*

- All your connected pools at first glance.
- Follow live the analyses of your clients' Blue Connect.
- Perform accurate and professional diagnosis.
- Avoid unnecessary travels.
- Anticipate and advise your clients on possible preventive actions.

Easy to use

1. Create a totally free account on www.virtualpoolcare.io
2. Send a sharing request to your customer using the key of the Blue Connect to ask his permission to share the Blue Connect's data
3. As soon as he accepts, you have access to his pool's data.
   You can monitor as many as pools or spas as you want.

Chemical Pack

Blueriiot Pool & Spa Assistant promotes Fluidra and partners chemical brands

- Increase customers loyalty to the products you sale.
- Increase customers confidence with tailor made chemical recommendations.
- Support customers retention.

Vendor Locator

List your shop(s)* in the app *Blueriiot Pool & Spa Assistant*

- Promote your shop very easily to a very targeted audience.
- Generate new leads geographically.
- Your shop listed as the favorite shop and first in the list.

* Ask you Fluidra's sales representative for more information

FLUIDRA CONNECT
CONNECT & GO

Available on the iPhone App Store
ANDROID APP ON Google play

The most flexible solution for a smart connected pool

- **1 power center cabinet including the Connect Box** where all pool equipment is wired (available in different versions to suit most pools)
- **2 dedicated Pool Pro remote access portals:**
  - -NN PRO smartphone APP dedicated to easy configuration and remote monitoring of installed pools
  - -Fluidraconnect.com dedicated Web portal to manage all pools at a glance
- **1 dedicated NN enduser app** to manage pool at anytime from anywhere.

Fluidra Connect & Go power center cabinet

The brain of the pool including all electrical safeties and control switches. Also includes Connect Box linked to the cloud using either Wi-Fi or Enthernet cable.

Fluidra products NN compatible*

Smart control & exchange to allow a perfect pool experience. Plug & Play installation. More than 100 compatible Fluidra products.

Standard products

On/Off & scheduling control of any standard pool equipment on the market.

Modbus products**

Ability to control Modbus products for tailor-made use.

Connect & Go solution

Pre-wired power centers for an easy installation adapted to most pools.

See page 34

* See page 39 for the full list of NN compatible products.

** Upon special request.

FLUIDRA CONNECT®

CONNECT & GO

Fluidra Connect: Pool Professional benefits

Differenciation with Connected Pools.

Better offer and service for the End User.

Fast & Easy installation.

Drastically reduces the installation time thanks to pre-wired power center cabinets (Connect & Go). Easy on-site configuration using NN PRO app.

Savings.

Cut back cost on better time and resource managment. Can save unnecessary trips, petrol costs, toll fees, etc.

Remote maintenance.

Piece of mind for Maintenance Professionals. Preventing and solving problems remotely using Fluidra Connect professional dashboards to see all pools at a glance.

NN PRO professional APP

www.fluidraconnect.com
web portal

Fluidra Connect: Consumer benefits

Peace of mind.

Dedicated user app for a pool always ready to use in the top conditions. Healthy water for you and your family.

Savings.

A connected pool helps to save water, energy and use less chemical products.

Easy control.

Access and control your pool 24/7 from anywhere, at any time.

NN consumer APP

FLUIDRA CONNECT®
CONNECT & GO

Available on the iPhone App Store
ANDROID APP ON Google play

Convenience and easy installation: The smartest connected pool solution

1. 1 professional APP for easy configuration
2. Pre-wired power center cabinets for easy installation
3. Control any pool equipment
4. Advanced management of NN compatible products

NN PRO
Professional APP

- convenient on-site configuration
- pool sites monitoring at a glance

Pre-wired power center cabinets for fast and easy installation

- Plug & Play
- Available in different versions to suit most pools
- Ready to use with all NN compatible products
- Built-in Wi-Fi and Ethernet connectivity

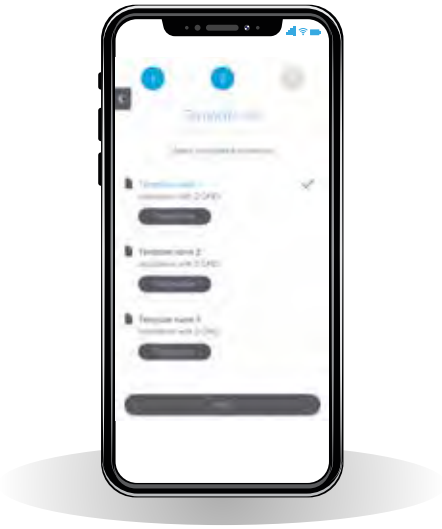

FLUIDRA CONNECT®

CONNECT & GO

Convenience and easy installation: The quickest installation solution for new pools

Once Connect & Go power center cabinet is installed and pool equipment wired to it, simply follow 4 easy steps:

1. Download the NN PRO app and create your professional user account.
2. Scan Connect Box QR code to register the Connect & Go power center cabinet.
3. Scan power center cabinet barcode to get the predefined pool configuration template.
4. Launch NN compatible products auto detection using the app to get the pool dashboard.

- Configuration is complete whitin a very short time
- Pool owner will also be able to access his pol using the NN consumer app

CONNECT & GO PRODUCTS

THE FUTURE IS HERE

Convenience & easy installation

A range of Connect & Go power center cabinets is offered to suit most residential pools configurations.

Connect & Go power center cabinets contain all electrical protections and switches to manage pool equipment. Everything is pre-wired to ease installation process so it is the perfect solution for new pools, while also being adapted to retrofit situation (simply replace the whole cabinet with Connect & Go).

Once installed, simply follow 4 easy steps:

1. Download the NN PRO app and create your professional user account.

2. Scan Connect Box QR code to register the Connect & Go power center cabinet.

3. Scan power center cabinet barcode to get the predefined pool configuration template.

4. Launch NN compatible products auto detection using the app to get the pool dashboard.

Type	Intensity range	Power Range 1-phase 230V
C	4A - 6.3A	¾ HP - 1 HP
D	6A - 10A	1.5 HP

Basic

Control and power devices for a single-phase pump and control devices for lighting.

- IP-65 protection rating. Two transparent lids with lock and key.
- Products compatible with 220/240 V single-phase (P+N+T) 50 Hz/60Hz input.
- Internet connection required.
- Manual (selector) or automatic lighting control and pump.
- Includes Connect Box and 1 GPIO wiring.
- Enables optional temperature sensor connection (code 69682) with no need for accessories.
- Possibility of connecting a levels box.
- External transformer needed for lighting.
- Expansion modules can be connected for white, RGB and GPIO lighting.

FLUIDRA CONNECT ACCESSORIES

THE FUTURE IS HERE

While providing a convenient and easy to install solution with Connect & Go pre-wired power center cabinets, it is possible to create tailor-made Fluidra Connect automation for custom applications.

It can be either Fluidra Connect main components to create a custom installation or expansion modules to add features to a Connect & Go power center cabinet.

• Custom installation

The following components are needed as a baseline (to be integrated in a specific power center cabinet - not provided):

- Connect Box which is the "brain" of Fluidra Connect automation.

- One or several GPIO control device(s) that will manage pool equipment.

• Expansion modules

6 expansion modules are offered to bring additional features to Connect & Go power center cabinets:

- 3 modules to add 2 filter pumps control (available for 1, 2 & 3 HP pumps).

- 2 modules to add lighting management (available in white or RGB color with 100 VA transformer).

- 1 module to get an additional GPIO for pool equipmeent management.

Connect Box

Connect Box is the brains behind a Fluidra Connect pool installation. Fluidra Connect does not work without Connect Box, which must have a cable or Wi-Fi Internet connection (from a home router, 3G network, etc.).

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Connect Box	**66671**	1	0.42	0.0010

In cases that the products to be controlled are not compatible with Fluidra Connect, they can be run using a device called a GPIO.

GPIO

Control device with 4 digital inputs and 4 digital outputs.

Using the GPIO, incompatible products, such as a white spotlight or filtration pump, can be switched on or off and their timers set.

It also displays the status of some devices, such as a pool cover.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
GPIO	**62368**	1	0.18	0.0003

Up to 247 GPIOs can be connected to a single Connect Box.

FLUIDRA PRODUCTS NN COMPATIBLE

All product platforms below are NN compatible to allow a smart control & exchange with Fluidra Connect and associated smartphone apps and website.

User(s) can see more operating data and be able to access to more settings compared to standard products.

NN is the acronym used to name the Fluidra Connect apps that are available on both iOS (Apple®) and aOS (Android™) platforms and describe smart compatible products.

"NN" icon indicates the Consumer app.

"NN PRO" icon indicates the Professional app.

"NN thing" icon is used to highlight our "NN compatible" products that can be controlled with Fluidra Connect automation, bringing advanced features to user.

With fixing plates (including gaskets, screws and wall plugs).	**00056**	1	2.09	0.01

Equipotential anchor

New

The aim of this accessory for ladders is to solve the problem of not having the possibility to connect ground earth cable to ladders that do not have an anchoring on the pool beach like: Elegance and split ladders - items 45782, 45783, 01456, 01457, 01458, 01459, 08090, 08091 and 08092.

It is mandatory by norms to connect metallic ladders to ground earth in order to have proper electrical connections. Moreover, it is highly recommended to avoid corrosion.

Equipotential anchor for ladders, manufactured in AISI-304L stainless steel and commercialized for concrete and liner pools. The anchors are composed of a recessed base on the ground, washer, screws and the equipotential bonding.

Each ladder needs to 2 units.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Concrete pools	**73318**	1	0.45	0.002
Liner pools	**73319**	1	0.50	0.002

DIVING BOARDS AND TRAMPOLINES

Dynamic flexible springboard

Wide springboard made of polyester resin and fibreglass. Resistant to UV exposure and adverse weather conditions. Non-slip surface covering the entire board. Supplied with anchoring fixtures.

Niagara touchless shower

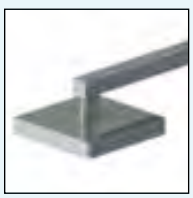

New

The Niagara touchless shower incorporates a proximity sensor that works with battery for turning on the shower without contact. Its minimalist design and the high quality of its materials provide you with an elegant and modern image.

TECHNICAL FEATURES:

- Made of AISI-304L polished stainless steel
- Water inlet connection 1/2" BSP INT
- Ground anchoring with screws
- Touchless system with sensor detection angle 15 degrees (conical)
- 6V DC Power supply (4xAA 1.5V). Batteries not included.
- Sensor protection class IP67
- Life test 500.000 cycles
- Working pressure 1-4 bar
- Max. temperature water 75ºC

SHOWERS - SHOWER TRAYS

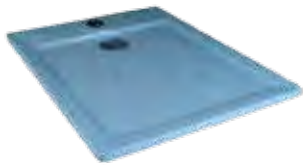

Relax model shower tray

Dimensions 80 cm x 90 cm. Large stainless steel shower tray positioned away from the standing area. Non-slip surface. Made of polyester + fibreglass. Gelcoat Finish.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
With Ø 43 mm anchoring fixture for Angel showers 52717 and 52718 (page 60).	**20066**	1	9.0	0.16

Also available with D.63 anchoring (20067) and without anchoring (20073).

Classic model shower tray

Dimensions 100 cm x 80 cm. Large stainless steel shower tray. Non-slip surface. Made of polyester + fibreglass. Gelcoat Finish.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
With Ø 43 mm anchoring fixture for Angel showers 52717 and 52718 (page 60)	**19723**	1	10.0	0.16

Also available with D.63 anchoring (19724) and without anchoring (19725).

Shower tray

Dimensions 80 cm x 80 cm, with adjustable main drain. Ø 130 mm grille, Ø 50 mm connection. Made of polyester + fibreglass.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
With Ø 43 mm anchoring fixture for Angel showers 52717 and 52718 (page 60).	**00103**	1	11.0	0.16

Available with D.63 anchoring (code 00104).

ASTRALPOOL BIKE

AstralPool Bike

Aquabike made of square and rectangular polished AISI-316L stainless steel pipe. Ideal for gyms, wellness centres, spas, medical facilities, hotels and private pools.

- Adjustable height of saddle and handlebar.
- For use in public and residential pools from 1 to 1.5 metres in depth.
- Ergonomic.
- Pedals made of PUR.
- Easy to move about.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
AstralPool Bike	**67333**	1	20	0.12

ORNAMENTAL WATER FEATURES - CANNONS AND WATERFALLS

Pluvium water features and ornaments

The water features in the AstralPool Signature range add a touch of elegance and design to any pool, not to mention their main purpose: increasing swimmers' feeling of wellbeing. We are proud to present the PLUVIUM cannon and waterfall. They combine wood and satin finish AISI 316L stainless steel. These products match others AstralPool Signature Pluvium shower range. 3-year warranty.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Pluvium cannon, 7 m^3/h, 5 mca.	**45868**	1	11	0.089
Pluvium waterfall, 12 m^3/h, 2 mca.	**45869**	1	31	0.284

The following fastening systems are recommended:

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Pluvium cannon anchoring	**45872**	1	2	0.005
Pluvium waterfall anchoring	**45873**	1	3.5	0.015

NOTE: The water features do NOT include anchoring, a pump, control panel or suction system.

RECOMMENDED
Pluvium shower See p.56

A-350 and A-500 residential water curtains

- Range of ornamental fountains to enhance pool design.
- Made of AISI-304L and AISI-316L stainless steel.
- Polished finish.
- Fastened to the ground with screws and anchor studs.
- 1½" ext. R. connection.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
A-350 AISI-316L residential water curtain	**65104**	1	10	-
A-500 AISI-316L residential water curtain	**65105**	1	13	-
A-350 AISI-304L residential water curtain	**65106**	1	10	-
A-500 AISI-304L residential water curtain	**65107**	1	13	-

NOTE: The water features do not include a pump, control box or suction pipes.

NOTE: The water features do not include a pump, control box or suction pipes.

ORNAMENTAL WATER FEATURES - CANNONS AND WATERFALLS

Range of cascades for residential pools made of AISI-316L stainless steel. The range is made up of three cascades in an outstanding modern design. Polished + matt finish.
All models come with anchoring. A ½ HP pump is recommended.

Classic water curtain

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³

GRILLES FOR OVERFLOW

GENERAL NOTE FOR ALL MODELS

Made of PP stabilized against UV rays. The whole range comes in white. Ask your dealer about other colours.

Made up of tiles in modules for straight and curved sections (outer radius of 1 or 2 m), they click into place (male-female fitting), which gives certain leeway in assembling them, as well as absorbing their potential expansion due to the temperature changes to which they are exposed.

For all models of grating, a channel 5 mm wider than the grating must be built so that it easily fits into place and any potential expansion is prevented.

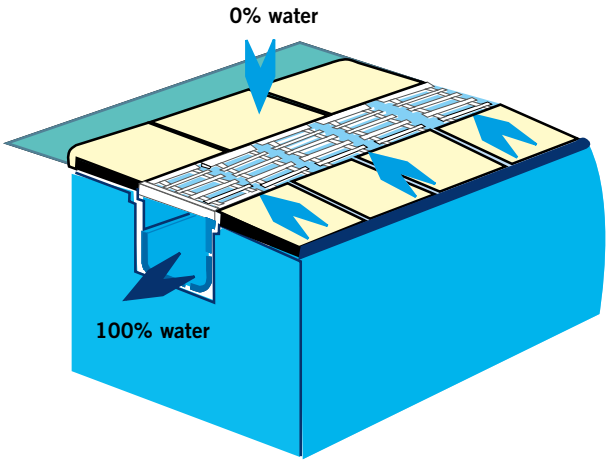

Channel width	Grating width
200	195
250	245
300	295
350	345

The height (h) of the grating varies depending on the model.

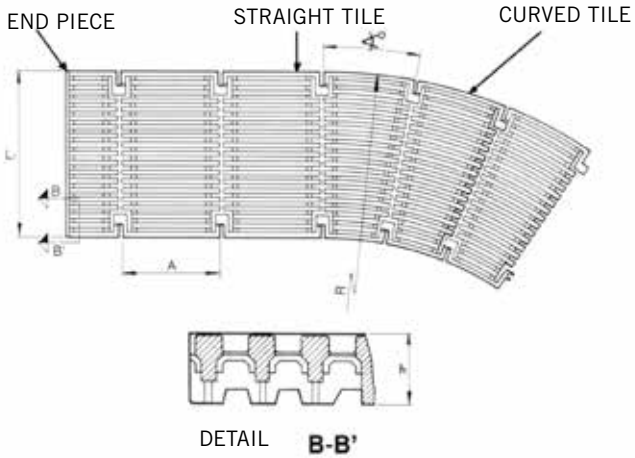

– Longitudinal model h = 24 mm

– Transversal model h = 22 mm and h = 35 mm

LONGITUDINAL MODEL

The longitudinal design of this model ensures that any excess water from the pool is not allowed to overflow onto the pool deck, thus maintaining it practically dry.

	Model	L	L1	h	A	∢°r.1m.	∢°r.2m.

in different colors for a perfect finish
in your prefabricated pool.

ASTRALPOOL

FILTERING SKIMMER

THE EASY TO INSTALL 2-IN-1 SOLUTION

Easy and fast installation : The installation of this integrated solution (skimmer + cartridge) means that the installer will save a lot of time when building a pool and it significantly reduces labor costs.

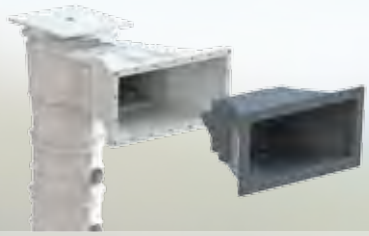

Two-in-one skimmer and filter solution :

1. The skimmer drains the water and retains any debris.

2. The water is then filtered by the integrated cartridge of 15 microns that delivers unbeatable filtration quality. Once the water is clean, it is sucked by the pump and sent back to the pool. See our pump recommendations at the bottom of this page.

SKIMMER & CARTRIDGE

1. EASYCOLOR SHEATH

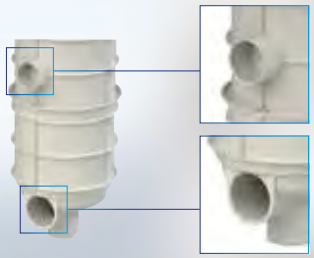

→ The color change is proposed with an inlet sheath, both the embellisher and the floater. This sheath could be installed without changing the skimmer mouth what is very practical to renew or upgrade pools.

2. OPTIMUM FILTRATION & EASY TO REPLACE

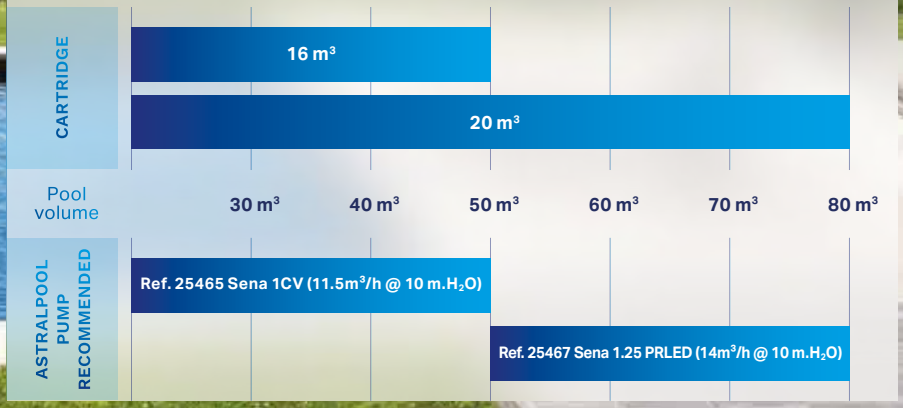

→ **Optimum filtration quality : 15 microns.**
In addition, the skimmer's cartridges are easy to change.

3. SAFE AND INTEGRATED

→ Possibility to have side suction nozzle inlets, as well as an upper mouth, in order to avoid blockages and ensure that the pump always sucks filtered water.

4. WHICH SKIMMER TO CHOOSE?

ASTRALPOOL

STAINLESS STEEL POOL FITTINGS

A FULL RANGE FOR CONSTRUCTION

Using stainless steel in AISI 316-L pools has many advantages in comparison with traditional materials.

- ✓ Better resistance to high and low temperatures, no deformation.
- ✓ Better looking quality finishes.
- ✓ Doesn't age due to exposure to sunlight.
- ✓ Easy to clean.
- ✓ Stainless steel is environmentally friendly and 100% recyclable.

This is why AstralPool, a world leader in the manufacture and supply of pool materials, is launching a line of embedding products in high quality stainless steel (AISI 316-L), ideal for the construction, refurbishment and upgrade of your pool.

Choice of cover colours for skimmers

CONCRETE POOL - 15 L SKIMMERS

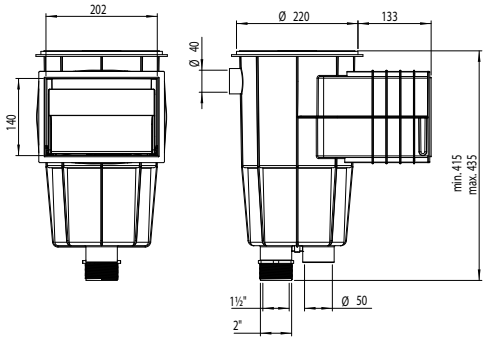

All of the components that are exposed in this range of skimmers come with a UV treatment. Made of ABS, they come with a weir flap and a flow regulator check valve. Bottom suction nozzle connection: 1½" inner thread, 2" outer thread. Simultaneous connection to the main drain: Ø 50 mm inner wall. Overflow connection: Ø 40 mm. Leaf trap. Recommended flow rate: 5 m³/h. It is recommended that one skimmer be installed for every 25 m² of water surface area.

CONCRETE POOL - 17.5 L SKIMMERS

All of the components that are exposed in this range of skimmers come with a UV treatment. Made of ABS, they come with a weir flap and a flow regulator check valve. Bottom suction nozzle connection: 1½" inner thread. Simultaneous connection to the main drain: 2" inner thread. Overflow connection: Ø 32 mm. Round cover with spring clip fastening system. The height of the cover can be adjusted and turned through an extended throat, so that it sits perfectly flush with the coping stone.
Leaf trap secured to base by means of a bayonet mount. In-built weir flap housing.
Recommended flow rate: 7.5 m³/h. It is recommended that one skimmer be installed for every 25 m² of water surface area.

SLIM: High water level skimmer

New

High water level skimmer allows high water level in the pool (+/- 4 cm) giving an infinite pool effect. The water line is located very close to the top of the pool. Entirely made of AISI-316L. All models are equipped with Ø50 mm overflow and have a housing to mount a water level regulator - item 73453 - not included. Also compatible with the most standard water levels of the market. With connection for equipotential connection. It also includes flanges for prefabricated pools. Recommended flow 7.5 m³/h. Basket capacity 1.2 L.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Mouth width 500 mm	**73501**	1	14.80	0.136
Mouth width 650 mm	**73502**	1	15.20	0.169

CONCRETE POOL - STAINLESS STEEL 17.5 L SKIMMERS

SLIM: Skimmer inox A-500 Large mouth

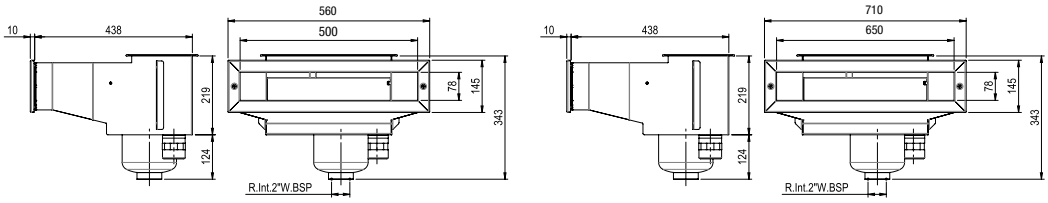

In AISI-316L stainless steel. With Ø50mm overflow, basket and lid in stainless steel, both included. It has accommodation to mount the level regulator valve 73453 (see page 88). With connection for equipotential connection. Flow recommended 7.5 m³ / h. Items 56313 and 56316 includes flanges for prefabricated pools. Also exist with 6º inclination: items 72744 and 72743 see page 112. Water level +/- 8 cm. Basket capacity 1.2L.

POOL MAIN DRAINS INFORMATION

How affects EN 16713-02 : 2016 main drains in residential pools

	NEW POOL		POOL RENOVATION	
	Suction rate: insure a maximum of 0.5 m/s			
	ANTI-VORTEX COVER	**NON ANTI-VORTEX COVER**	**WITH MAIN DRAIN BODY CHANGE**	**UNCHANGED MAIN DRAIN BODY**
RISK OF ENTRAPMENT **How to prevent it?**	Number of main drains per pool: **1**	Number of main drains per pool: **2** balanced main drains, **distanced at minimum 1 meter.** And if any of the **2 main drain** is blocked the remaining one **should be able to absorb 100%** of the installation flow.	Applies **new pool rules**	Install an **anti-vortex grille** on pre-installed main drain
CAVITY DIMENSION	Main drain should respect a certain cavity dimensions according to a mathematical rule.			
OTHERS	Other requisites are considered to define that a main drain in compliant with EN, like design. e.g. the design of the grill to avoid human body parts or hair entrapment.			

Only with the fulfillment of all requisites of the standard, a Compliance Certification can be delivered!

*Anti-vortex plate is a special component installed in the suction line to control the turbulence in a flowing fluid. These plates allows to control the velocity of the fluid thus preventing cavitation in the fluid.

CONCRETE POOL - MAIN DRAIN ACCESSORIES

Hydrostatic valve

To alleviate the pressure that can build up under the pool shell due to groundwater, it is recommended that a hydrostatic valve and a drainage pipe be fitted to the main drain. Hydrostatic valve to be fitted to the 2" bottom outlet on main drains. Made of white ABS, with stainless steel screw and spring. 1½" male thread.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
00277	50	2.63	0.01

Drainage pipe

Drainage pipe with 1½" BSP thread connection for main drains with code numbers 01466, 27837 and 27839. Made of ABS.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
21581	24	3.54	0.021

CONCRETE POOL - MAIN DRAIN GRILLES

Flush-fit antivortex cover

Special flush-fit design that enables pool cleaners to go over it without blocking it up. Smooth slopes.

The 415 mm x 415 mm cover (25344) can be fitted to the following main drains:

With stainless steel grille:	With plastic grille:
-20282	-22359
-20283	-22360
-20284	-22361
	-22362

The 570 mm x 570 mm cover (28556) can be fitted to the following main drains:

With stainless steel grille:	With plastic grille:
-20285	-28709
-20286	-28710
-20287	-28711
-20288	-28712

Choice of cover colours for skimmers

LINER AND PREFABRICATED POOL - 15 L SKIMMERS

All of the components that are exposed in this range of skimmers come with a UV treatment. Made of ABS, they come with a weir flap and a flow regulator check valve. Bottom suction nozzle connection: 1½" inner thread, 2" outer thread. Simultaneous connection to the main drain: Ø 50 mm inner wall. Overflow connection: Ø 40 mm. Leaf trap. Recommended flow rate: 7.5 m³/h. It is recommended that one skimmer be installed for every 25 m² of water surface area. All skimmers come in two different models: the model with inserts and the PARKER model, which is supplied with self-tapping screws.

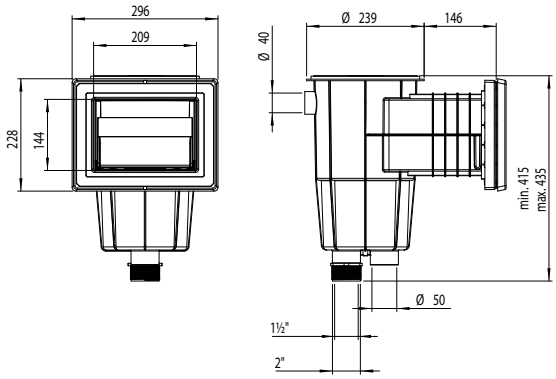

Skimmer with standard mouth opening

Complies with Standards
EN 16582-1

Skimmer SPS 250

PANELS 250

Range of 17L skimmers suitable for installation in residential pools. The short length of 250 mm makes them ideal for installation in pools made from expanded polystyrene blocks. Their configuration also takes the water level up to the edge of the coping stone. Manufactured in ABS with UV protection, the SPS 250 comes with a weir flap, flow regulator and basket. Recommended flow rate of 7.5 m³/h. Install one skimmer every 25 m² of water line surface area. Connections under Ø 63mm and 2", water overflow connection of Ø 32 mm.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³

POOL MAIN DRAINS INFORMATION

How affects EN 16713-02 : 2016 main drains in residential pools

	NEW POOL		POOL RENOVATION	
	Suction rate: insure a maximum of 0.5 m/s			
	ANTI-VORTEX COVER	**NON ANTI-VORTEX COVER**	**WITH MAIN DRAIN BODY CHANGE**	**UNCHANGED MAIN DRAIN BODY**
RISK OF ENTRAPMENT How to prevent it?	Number of main drains per pool: **1**	Number of main drains per pool: **2** balanced main drains, **distanced at minimum 1 meter.** And if any of the **2 main drain** is blocked the remaining one **should be able to absorb 100%** of the installation flow.	Applies **new pool rules**	Install an **anti-vortex grille** on pre-installed main drain
CAVITY DIMENSION	Main drain should respect a certain cavity dimensions according to a mathematical rule.			
OTHERS	Other requisites are considered to define that a main drain in compliant with EN, like design. e.g. the design of the grill to avoid human body parts or hair entrapment.			

Only with the fulfillment of all requisites of the standard, a Compliance Certification can be delivered!

*Anti-vortex plate is a special component installed in the suction line to control the turbulence in a flowing fluid. These plates allows to control the velocity of the fluid thus preventing cavitation in the fluid.

LINER AND PREFABRICATED POOL - MAIN DRAINS

All main drains in the range are supplied with UV protection.
To prevent the risk of suction, install the main drains according to local regulations.
Recommended use:
- Maximum suction rate of 0.5 m/s.

Mini main drain

Side outlet drain assembly with 2" inner thread. Made of white ABS with grille fixed to flange. Suction velocity at grille of 0.5 m/s and flow rate of 11 m³/h. The slots in the grille are no larger than 8 mm, in compliance with regulations. M5 screws and brass inserts for fastening the flange and grille. Can be used in concrete spas and side suction inlets.

LINER AND PREFABRICATED POOL - ABS INLETS

Ø 90 mm wall conduit

PVC wall conduit. Cutting area of 120 mm for fitting it to the pool wall or floor. Ø 63 or Ø 75 connection, as required.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Ø 90/Ø 63–Ø 75 mm wall conduit	**43590**	9	7.3	0.033

For inlets:
Net'N'Clean: 43584 - 43585
BCN 03: 43586 - 43587 - 43588 - 43589
Return inlet/suction nozzle for high flow rates: 41518 - 41519 - 41520 - 41521

3" adjustable pool floor return inlet

Made of white ABS. Suction. Comes with gaskets, flanges and screws. Flow rate adjusted by turning the grille. Suction surface area: 0.015 m². Flow rate at 0.4 m/s: 20 m³/h. Max. recommended flow rate: 26 m³/h. (0.5 m/s.).

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Grille in AISI-304 stainless steel	**08316**	2	2.65	0.047
Grille in white ABS	**11795**	2	2.65	0.047

Complies with Standards
EN 16582-1
EN 16713-2

Suction nozzle for liner pools

Outer 2" thread, internal Ø 50 mm. Made of white ABS. Comes with plug, gaskets and screws. Recommended for installation with wall conduit 15663.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Standard return inlet - White	**00332**	12	4.22	0.020

Complies with Standards
EN 16582-1
EN 16713-2

Suction nozzle for panel pools

For installation in panel pools between 10 and 15 cm thick. Comes with gaskets. Connections: To be glued to Ø 50 mm piping and 1½" BSP thread.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
	33092	8	3.35	0.021

Complies with Standards
EN 16582-1
EN 16713-2

Return nozzle for liner pools

Made of ABS. Comes with gaskets, flanges and screws. Connections: outer 2" thread and Ø 50 mm inner.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
White	**17382**	20	6.0	0.020

Double gasket kit

Kit made up of a double gasket and the screws necessary for the installation of nozzles in panel pools. Made of TPE, the kit enables the installation of various accessories in pool shells and protects the panelling from coming into contact with water. Easy to install. Prevents corrosion of the panelling in the area that has been die cut. We recommend to place this Kit on panel pools of metal sheet in nozzles 00330; 00332; 17382; 17383 and 56499

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Inserts for nozzles	**43455-0500**	80	-	0.035

Return inlet/suction nozzle for high flow rates

Return inlet for large flow rates that can also be used as a suction nozzle. Maximum suction flow rate of 30m³/h for a maximum flow rate speed of 4 m/s. Maximum suction flow rate of 5 m³/h for a maximum flow rate speed of 0.5 m/s. PVC body. Connection for Ø 75 or Ø 90 mm pipe. Inlets can be installed into bushing 43590 (see page 123). Grille can be adjusted in any direction.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³

LINER AND PREFABRICATED POOL - STAINLESS STEEL INLETS

Complies with Standards
EN 16582-1
EN 16713-2

Return inlet for liner pool with Ø 20mm ball

1½" external thread. Manufactured in AISI-316L stainless steel. Ø 20 mm ball. Comes with gaskets and screws. Maximum recommended flow of 4.5 m³/hour according to EN 16582-1 and EN16713-2 standards if installed at a maximum of 500 mm below pool water level.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³

Stainless Steel embellisher for return inlet

New

Embellisher and stainless steel ball for ABS inlets. Includes flange, screws and gaskets.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
ABS return inlet items 00330 and 56499	**69171**	1	0.31	0.001
ABS suction inlet item 00332	**69172**	1	0.41	0.001

LINER AND PREFABRICATED POOL - WALL BUSHINGS

Range of 300 mm long conduits for Ø 2" inlets and Multiflow that can be cut to different lengths, depending on the thickness of the pool wall. Made of ABS. The ribs of the end plates have holes for fitting the wall conduit to the pool structure, which makes assembly straightforward. The inlet's end plate ensures that it fits flush to the pool wall so that the liner remains flat against the wall and does not swell. This system is aesthetically pleasing as only the face plate can be seen.

Wall conduit with 2" rear male thread and Ø 50 mm smooth inner wall

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
2" front female thread for nozzles with 2" male thread	**15663**	12	4.0	0.040

SWIMMING POOL SHELL MATERIAL PACKS

Interchangeable basin equipment

Bushing, return inlet, suction nozzle, flange assembly to be installed in concrete, prefabricated and liner pools
The measurements of each item make it possible to interchange them with the stainless steel sets.
The inlets can be installed in any bushing with a 1½" BSP thread. There is a flange set to install the inlets in pools with a liner.

All items mainly made in plastic (ABS), except screws and gaskets.

Each item can be assembled with the stainless steel sets. Interchangeable stainless steel/plastic codes.

FILTER SELECTION GUIDE

HOW DO YOU SELECT THE FILTER THAT YOU NEED?

A key factor in cleaning pool water is its passage through the filter. This process works in a fully closed circuit. The quality and type of filter are therefore two decisive aspects so that when the water circulates through the system it comes out completely clear.

A filter should be selected based on the following criteria:

1. **Type of filter medium.** This is a basic decision for setting the level of water clarity, characteristics of use and maintenance.
2. **Tank manufacture technology.** This directly affects its resistance, durability and quality of finish.
3. **Flow rate** (m^3/h). Set according to the volume and recirculation time of each pool. Ensure that this matches the recommended flow rate when selecting the pump.
4. **Features and added extras.**

Remember to always check the space available in your facility to both access and run the filter once selected.

Cantabric Filter

THERE ARE 3 MAIN TYPES OF FILTER

DIATOMACEOUS EARTH FILTERS

Filtration method that delivers maximum filtration fineness. However, this system requires more time for maintenance.

- Excellent filtration quality
- Compact solution
- Expert installation and maintenance

CARTRIDGE FILTERS

One or more cartridges are used to deliver a high level of filtration fineness. This is also the ideal solution when there are restrictions on space, water consumption and water for filter backwashing.

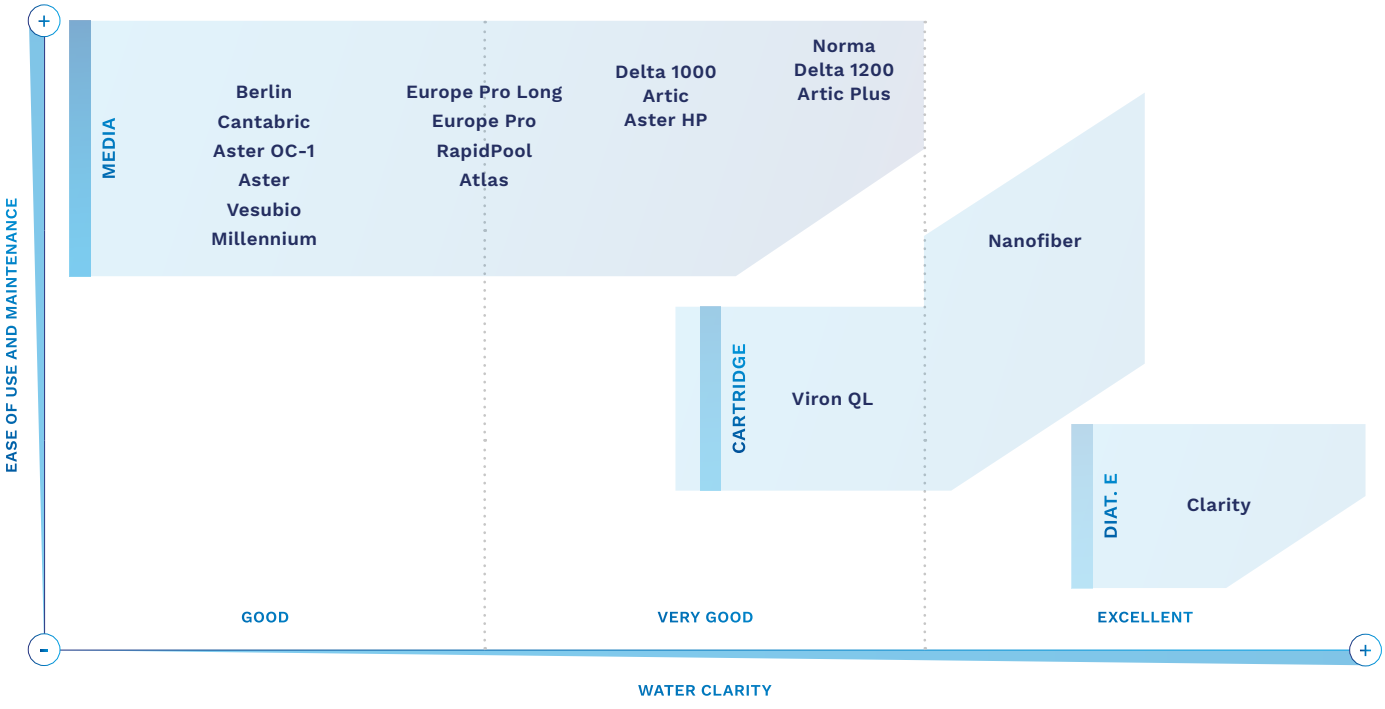

- Very good filtration quality
- Low water consumption
- Compact solution

MEDIA FILTERS

Commonly called **sand filters**, as this is the most widely used filter medium in this type of filter. Other media can be used, such as glass and anthracite, which optimize their performance.

To obtain maximum filtration quality and performance, use filters with the highest filter bed, several layers of filter media and a low filtration speed.

- Robust technology with a great capacity for recovering unkempt water
- Easy to use and maintain
- Value for money

FILTER FEATURES AND SELECTION

FILTER		TANK	PRODUCT FEATURES						
			Material and technology	Rob. & durab.*	Flow m³/h	Diameter	Filtration quality	Connections	Warranty (t/c)**	Other
DIAT. E		Clarity	Polyester + FG Laminated	5	11-27	610	5	1"1/2-2" Lateral	2/2	Excellent filtration quality. Durability and reliability of body and components.
CARTRIDGE		Nanofiber	Injection-molded thermoplastic	3	10-18	402	5	2" Lateral	5/2	Single nanofiber cartridge filter and excellent filtration quality. Manual and automatic backwash using the multiport valve.
		Viron QL	Injection-molded thermoplastic	3	< 30	690	4	D50	5/2	Multi-cartridge filter. Long period between each cleaning of cartridges.
BED OF MEDIA		Cantabric	Injection-molded thermoplastic	4	6-30	400-900	2	1"1/2-2"1/2 Lateral/ Top	10/2	A flagship in filtration for residential pools. High quality and design for good performance over time.
		Berlin	Polyester + FG Bobbin-wound	5	9-56	500-1,200	2	1"1/2-D90 Lateral	2/2	Extraordinary reliability and durability due to its dual-layer body. Large cover in diameter to facilitate access.
		Norma	Polyester + FG Laminated	4	10-34	650-1,200	4	D75-D140 Lateral	2/2	High performance in residential pools. Filter bed height of 1.2 m. Wide range of added extras and accessories.
		Delta 1200	Polyester + FG Laminated	4	13-45	650-1,200	4	1"1/2-D90 Lateral	2/2	High performance in residential pools. Filter bed height of 1.2 m. Wide range of added extras and accessories.
		Artic Plus	Polyester + FG Laminated	4	16-56	650-1,200	4	1"1/2-4" Lateral	2/2	High performance in residential pools. Filter bed height of 1.2 m. Wide range of added extras and accessories.
		Delta 1000	Polyester + FG Laminated	4	8-45	500-1,200	4	1"1/2-D90 Lateral	2/2	High performance in residential pools. Filter bed height of 1.0m. Wide range of added extras and accessories.
		Artic	Polyester + FG Laminated	4	9-56	500-1,200	4	1"1/2-4" Lateral	2/2	High performance in residential pools. Filter bed height of 1.0m. Wide range of added extras and accessories.
		Aster HP	Polyester + FG Laminated	4	9-31	500-900	4	1"1/2-2"1/2 Lateral	2/2	Filter bed height of 0.8 m in all models with collector arms. Filter bed height of 0.6m in all models with nozzle plates.
		Atlas	Polyester + FG Laminated	4	9-30	500-900	3	1"1/2-2"1/2 Lateral	10/2	Top quality and features in its category. Filter designed for the most exacting professionals.
		Europe Pro Long	Polyester + FG Laminated	4	9-30	500-900	3	1"1/2-2"1/2 Lateral	2/2	Easy to access thanks to its large cover in diameter. Transparent or polyester cover as options.
		Europe Pro	Polyester + FG Laminated	4	9-30	500-900	3	1"1/2-2"1/2 Lateral	2/2	Easy to access thanks to its large cover in diameter. Transparent or polyester cover as options.
		RapidPool	Polyester + FG Laminated	3	6-24	400-800	3	1"1/2-2" Lateral	2/2	Rapid access cover. No need for tools to access inside.
		Aster	Polyester + FG Laminated	3	5-31	350-900	2	1"1/2-2"1/2 Lateral/ Top	2/2	A classic in AstralPool's filtration with the widest range of choices. Robustness, user friendliness and reliability all in one.
		Aster OC-1	Polyester + FG Laminated	3	8-32	450-900	2	1"1/2-2"1/2 Lateral	2/2	Filter specially designed for the cutting-edge medium, OC-1. Saves energy, water and time spent on maintenance.
		Vesubio	Polyester + FG Laminated	3	8-32	450-900	2	1"1/2-2"1/2 Lateral/ Top	2/2	Excellent value for money in its category. A laminated filter suitable for any size of pool.
		Millennium	**Blow-molded thermoplastic**	2	6-17	380-660	2	1"1/2 Lateral/ Top	2/2	Magnificent finish and resistance in the category of blow-molded filters. Cover all your filtration requirements with the Millennium monobloc.

· All media filters in this table can work equally with sand or glass, except for the Aster OC-1 range.

· Performance based on internal tests and comparisons.

* Robustness and durability

** Warranty for tank / components

NANOFIBER FILTER

Nanofiber filter

Filter for residential pools up to 90m³ characterised by its high-quality filtration: 5-8 microns, self-cleaning function, small size. The NanoFiber filter uses an innovative material that delivers better quality filtration due to its network of nanofibers.

- Easy to use
- Reliable
- Lower water consumption
- Higher water filtration quality
- Compact
- Easy to clean
- Dirt slow to build up without limescale
- Compatible with current filter systems on the market
- Replacement filtration media

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³

CARTRIDGE FILTERS

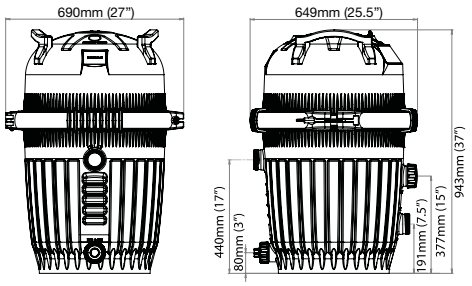

Viron cartridge filter

Manufactured in injection-moulded plastic and suitable for high-pressure applications. Easy-access closing system, filtration surfaces of 39m² or 50m² enabling prolonged intervals between each cleaning operation or cartridge replacement Includes water purge, oil pressure gauge and connection accessories. 5-year guarantee on the tank.Complies with filtration requirements as per standard EN 16713-1.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³

HYDROSPIN PRE-FILTER

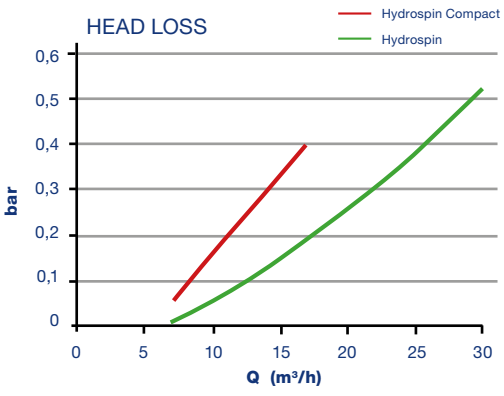

Hydrospin & Hydrospin Compact

Hydrocyclone pre-filters can be fitted to filtration systems in both new and old installations. Hydrospin is able to treat flows up to 30 m²/h with a maximum working pressure of 2.5 bars. It is fitted between the pump and the filter and separates out solids of up to 40 micra, thus reducing by half the amount of water consumed for cleaning the filtration system. HydroSpin has a device for collecting solids with three separate areas (settling, clarifying and clouding). It can be cleaned using just five litres of water without having to stop the pump.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³

INJECTION MOULDED SAND FILTERS

Optional:
Standard American sizes

Injection-moulded filter in technical plastics. Ivory. Thermal-welded joining of top and bottom filter parts. Fitted with a pressure gauge and manual water and air purge valves. Selector valve included. Maximum filtration speed ($m^3/h/m^2$) Maximum working pressure: 2.5 kg/cm^2. Sand and glass compatible (see page 166). Complies with filtration requirements as per standard EN 16713-1.

Cantabric top filters

Top mounted multiport valve. Threaded filter locking ring in ABS.

* 8 hours turnover rate.

BLOW-MOULDED SAND FILTERS

Complies with Standard
EN 16713-01

Blow-moulded in a single seamless piece of plastic. Fitted with a pressure gauge and integrated air purge and manual water drain. Selector valve included. Maximum working pressure: 2.5 kg/cm² for filter Ø 380 mm, Ø 430 mm and Ø 480 mm, and 2 kg/cm² for filter Ø 560 mm and Ø 660 mm Sand- and glass-compatible (see page 166). Complies with filtration requirements as per standard EN 16713-1.

Optional:
Standard American sizes

LAMINATED SAND FILTERS

Filters manufactured in fibreglass and polyester resin. With a gelcoat external finish. As a result, the body is highly resistant, durable and has an excellent finish. Internal components and accessories in high quality engineering plastics. Compatible with sand and glass, among others (see page 166). They comply with filtration requirements as per standard EN 16713-1.

Complies with Standard
EN 16713-01

Atlas filter

Sand and glass filters, among others, made from reinforced polyester. Complies with filtration requirements as per standard EN 16713-1.

Technical features:

- Made of polyester resin and fibreglass.
- Excellent finish with gel-coat colour RAL 8029.
- The filter has been designed with higher coefficient of security, to guarantee a perfect operation.
- The union of the two bodies of the filter is carried out through a seal specially reinforced with fibreglass and polyester resin.
- Transparent plastic cover highly resistant to chemicals.
- High reliability screw-in cover.
- Fitted with 1" collector arms and diffuser made from unplasticized PVC.
- Interior pipe with tubes of PN-16.
- 2½" sand discharge outlet.
- Fitted with pressure gauge, air purge and manual water drain.
- Connections to multiport valve with six positions: filter, backwash, rinse, recirculate, waste and closed.
- Innovation by AstralPool: the filter has a built-in safety valve to prevent pressure surges.
- Maximum pressure: 2.5 kg/cm^2.

Sand drain of 2 ½" and water drain of ¾" with security valve.

LAMINATED SAND FILTERS

Europe Pro - Pro Long filters

Filters manufactured in fibreglass and polyester resin Complies with filtration requirements as per standard EN 16713-1. Sand and glass compatible (see page 166).

- Filter colour (Ral5015)
- ¼" purge valve.
- 2 ½" sand discharge
- Polyester or methacrylate cover with screws.
- Diameter of top access: 285 mm.
- Maximum pressure: 2.5 bar.

LAMINATED SAND FILTERS

Vesubio filters

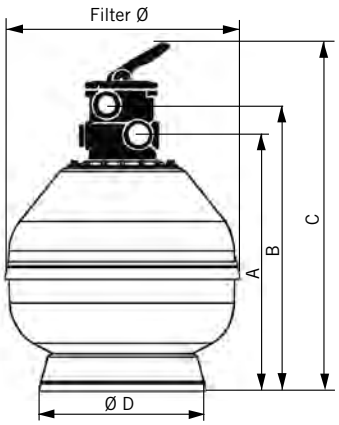

The Vesubio range has been expanded to reach both the public and private pool sectors. Filters manufactured using simultaneous projection of resin and fibreglass. Threaded lid with high-resistance screws. Ø 210mm top mouth. Ø 1050mm and Ø 1200mm models also available with a top mouth of Ø 400mm. Maximum pressure 2.5 bar. Sand and glass compatible (see page 166).

HIGH-PERFORMANCE LAMINATED SAND FILTERS

Filtration bed 1.2 m

Laminated filters with higher filter bed for enhanced performance and filtration quality, both for single-layer and multi-layer filters. There are various options to help choose the model that best suits usage and maintenance requirements. Compatible with sand, glass and anthracite, among others (see page 167). They comply with filtration requirements as per standard EN 16713-1.

Complies with Standard **EN 16713-01**

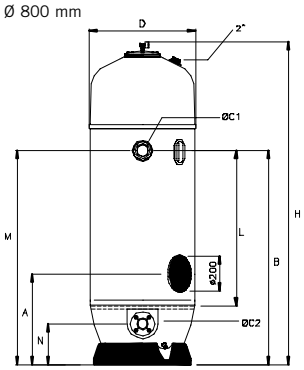

Norma filters

Filter laminated in fibreglass-reinforced polyester (FRP). For single layer or multilayer filling. Maximum pressure 2.5 bar. The Norma filter is designed according to Germany's DIN 19643/19605 standard. Available with a plate collector system (0.5 mm slot) including a manhole cover for inspection of the bottom. Fitted with a sight glass, Ø 200mm top lid for loading sand and Ø 200mm or Ø 400mm side mouth depending on model. Fitted with pressure gauge, air purge and manual water drain. Interiors in PVC and PP. A4 screws and EPDM gaskets. Standard colour: ivory. Options. Vinyl ester coating (ozone resistant, concentrations <0.4 ppm and max. temp 40ºC). Sand and glass compatible (see page 166).

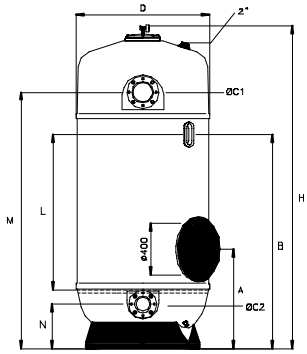

Maximum pressure: 2.5 kg/cm².

Filtration bed 1.2 m

HIGH-PERFORMANCE LAMINATED SAND FILTERS

Delta 1200 filters

Complies with Standard **EN 16713-01**

Filter laminated in polyester and fibreglass available in diameters of 650, 800, 1000 and 1200 mm. It has a 1.2-m filter bed and is available with an arm collector system and a plate collector system. Complies with filtration requirements as per standard EN 16713-1.

- DN 200 filter lid with quick-locking system for 650 and 800 models and DN 400 bolt down lid for 1000 and 1200 models.
- DN200 lateral manhole with bolt down cover.
- Filter interior left with natural resin finish.
- EASTAR sightglass as standard. Further sight glasses are available on request.
- Inner pipe and fittings in PVC, PP and ABS.
- Pressure gauge included in filter lid.
- Gaskets in EPDM and all screw fittings in stainless steel.
- Vinylester option. In this case, internal layer is manufactured from vinylester resin (and not only the top layer in contact with the water), to a maximum chemical resistance of 0.4 ppm of ozone dissolved and to a maximum temperature 50º.
- Comes in RAL 5024 blue.

Maximum pressure: 2.5 kg/cm². — **Conventional collector arms. Arm slots 0.3 mm**

HIGH-PERFORMANCE LAMINATED SAND FILTERS

Delta 1000 filters

Complies with Standard
EN 16713-01

Filter laminated in polyester and fibreglass available in diameters of 650, 800, 1000 and 1200 mm. It has a 1-m filter bed and is available with an arm collector system and a plate collector system. Complies with filtration requirements as per standard EN 16713-1.

- DN 200 filter lid with quick-locking system for 650 and 800 models and DN 400 bolt down lid for 1000 and 1200 models.
- DN200 lateral manhole with bolt down cover.
- Filter interior left with natural resin finish.
- Optional methacrylate sight glass on the Delta 10 model. More than one sight glass can be placed if desired.
- Inner pipe and fittings in PVC, PP and ABS.
- Pressure gauge included in filter lid.
- Gaskets in EPDM and all screw fittings in stainless steel.
- Vinylester option. In this case, internal layer is manufactured from vinylester resin (and not only the top layer in contact with the water), to a maximum chemical resistance of 0.4 ppm of ozone dissolved and to maximum temperature 50º.
- Comes in RAL 5024 blue.

Maximum pressure: 2.5 kg/cm².

Conventional collector arms. Arm slots 0.3 mm

HIGH-PERFORMANCE LAMINATED SAND FILTERS

Artic Plus filter

Range of high-capacity retention filters with optimal backwash performance. Manufactured in polyester with an external gel-coat finish. Body of just two parts; ivory. Maximum working temperature of 50ºC. Internal parts made from PVC plastic. Ø 400 lid to remove sand from bottom part of filter (optional) in Ø 1050 and Ø 1200 versions. Ø 650, 800, 950, 1050 and 1200 filters available with collector arms or nozzle plate. Compatible with sand and glass, among others (see page 166). Complies with filtration requirements as per standard EN 16713-1.

HIGH-PERFORMANCE LAMINATED SAND FILTERS

Complies with Standard **EN 16713-01**

Aster filter - high quality of filtration

Laminated filter made of fibreglass and polyester. Filter bed 800 mm in depth. Grey in colour, polypropylene base, fast open lid, water drainage plug, flowmeter and side multiport valve. Maximum pressure 2.5 bar. Top filtration speed of 50 $m^3/h/m^2$. The filter can be used with a single layer or a multi-layer combination of gravel with sand, glass or anthracite. Quick-release lid. Has a 2½" sand discharge out let at the bottom of the filter. Optional sand discharge outlet of 200 mm. Optional vinylester interior finish for treatment with ozone. Maximum temperature 50º.

BOBBIN-WOUND SAND FILTERS

Filters made of fiberglass and polyester resin with Internal components and accessories in high quality engineering plastics. thanks to its double coating, the resulting body is extremely resistant, durable and reliable. Compatible with sand and glass, among others (see page 166). They comply with filtration requirements as per standard EN 16713-1.

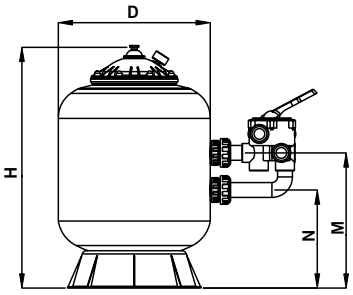

UNE-EN 16713-01
Complies with Standard
EN 16713-01

Berlin filter

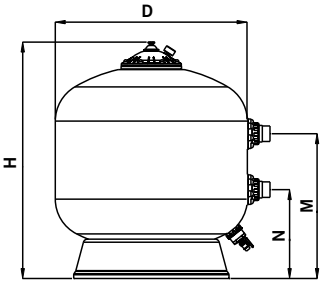

Ø 230mm screw-down lid, injection-moulded. Fitted with manual air and water bleed valves, a pressure gauge and a side mounted multiport valve. Maximum filtration speed ($m^3/h/m^2$) Complies with filtration requirements as per standard EN 16713-1. Sand and glass compatible (see page 166).

COMPACTS WITHOUT INTERIOR INSTALLATION

In-ground compact housings

Stackable to facilitate shipping and storage; streamlined interior to obtain top performance in the smallest possible space. Light cover with reinforced hinges. Prefabricated in polyester and fibreglass with a gelcoat finish. Outside of the cover in green and inside of the housing in ivory.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Supplied with openings for connections:				
For filters Ø 350 mm	**00615/1**	1	175	2.02
For filters Ø 400-450-500-600 mm	**00616/1**	1	156.5	2.54
For filters Ø 650-750-800 mm	**00618**	1	126.0	3.87

Semi in-ground compact housings

Prefabricated in polyester and fibreglass. Ivory. Fully opening cover.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
For filters Ø 450-500-600 mm	**00619/1**	1	80.0	2.7
For filters Ø 600-450-650-750 mm	**00620/1**	1	145.0	3.2

COMPACTS WITH INTERIOR INSTALLATION

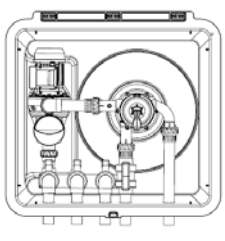

Ramses in-ground compact housing

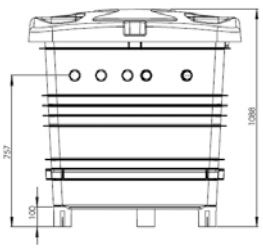

Embedded housing comprising an injection-moulded reinforced polymer body and lid. Complete and ready-assembled.
Connections: Ø50 PVC tube All pool types of up to 80m³

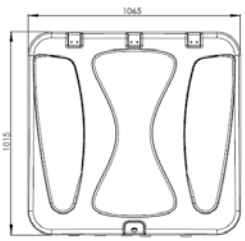

Components that include:

- 1 hp pump.
- Filter (according to model).
- 6-way top valve.
- Interior PVC connections and valves.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Ramses with Aster 550 filter	**41910**	1	76	1.18
Ramses with Millennium 560 filter	**69829**	1	68	1.18

COMPACTS WITH INTERIOR INSTALLATION

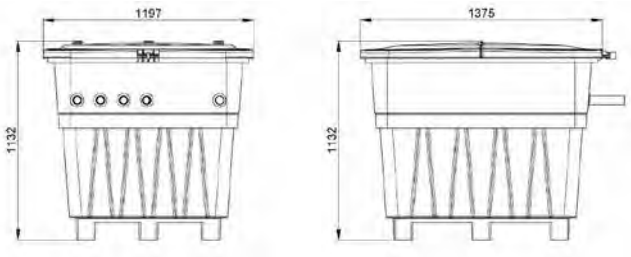

In-ground compact Keops with salt chlorinator

Embedded housing comprising an injection-moulded reinforced polymer body and lid. Complete and ready-assembled.
Connections: Ø50 PVC tube All pool types of up to 100m³

Components that include:

- Advantages of Victoria Plus Silent 1HP
- Filter (according to model).
- 6-way side valve.
- Compact 100 salt chlorinator.
- Interior PVC connections and valves.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³

MULTIPORT VALVES

A wide range of valves which offers the New Generation series, the Classic series and Flat series with 1½" and 2" valve configurations. The Magnum series with 2½" and 3" valves completes the range.

Six positions multiport valve

A six positions multiport valve able to perform several functions in a hydraulic circuit: filtration, empty, closed, backwashing and rinsing of the filter. Its extremely functional design means that it can be fitted up to any installation. All joints will be perfectly sealed and it is easy to operate.

Its minimum friction and resistance, maximum safety were decisive factors to choose the best materials of its components: ABS body, lid and handle, PPO distributor, EPDM gaskets, metal parts in stainless steel.

MULTIPORT VALVES

Magnum
Specially designed to support high working pressures and connection to large filters which require special connections. Choose from the models offered: 2 ½", 3" and 4" multiport valves.

2½" multiport valve with filter connections - Magnum

Multiport valve wih filter connections.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
2½" multiport valve - Configuration 3	**24837**	1	9.5	0.060
2½" NPT multiport valve - Configuration 3	**24840**	1	9.5	0.060

2½" multiport valve - Magnum

Filter inlet from the side and outlet from the bottom. With threaded outlets.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
2½" multiport valve - Configuration 3	**24838**	1	8.2	0.061
2½" NPT multiport valve - Configuration 3	**24839**	1	8.2	0.061

3" multiport valve - Magnum

Side mounted multiport valve for connecting to filters. Body and cover injected in ABS with fiberglass. Handle injected in ABS. Sealing system by stainless steel screws. Supplied with two plugs so that the customer can adapt the valve to the most suitable configuration.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
3" multiport valve	**28515**	1	9.8	0.064
3" NPT multiport valve	**30798**	1	9.8	0.064

MULTIPORT VALVES

Flat 1½" automatic multiport VRAC system valve

Basic automatic multiport valve model that stands out for its easy operation.
Voltage 230/115 volts. Controls filtration, backwashing, rinsing and emptying.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
TOP 1"½ mutliport valve with actuator	**43512**	1	4.1	0.02
SIDE 1"½ mutliport valve with actuator	**43513**	1	3.9	0.02

VRAC III automatic multiport valve

Improved automatic multiport valve operated via button keypad. It makes possible to control filtration, backwashing, rinsing, emptying, recirculation and closed positions.

NEW in 2021!
Better features to the automatic multiport valve replacing the pressure switch for an analog pressure sensor.

- **Easy program of the pressure set point for backwashing** - Pressing a button.
- **Avoid corrosion** - No metalic elements.
- **Friendly set up Fluidra Connect Box** - System VRAC Basic III
- **Adaptable:** For using in all devices with a media filter, and it is quick and easy to install.
- **Comfort:** With a simple programming using the keypad, you will receive a fully automated filtration for your pool.
- **Hygiene:** You will obtain an optimal water quality for swimming, optimizing the wash cycles (daily, weekly or by pressure monitoring).
- **Safety:** The automatic valve continuously monitors the filtration system and the valve, thus preventing potential breakdowns. New power surge protection. Spring coated to prevent rusting.

  LED lights for quick look of basic information.

Fluidra Connect compatible

A multiport safety valve (code 41898 or 41899) is recommended.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Basic 1$^{1}/_{2}$" side mounted, Config. 3	**72433**	1	4.27	0.023
Basic 2" side mounted, Config. 3	**72434**	1	5.75	0.033

Substituted codes
72433 in substitution of 70768 and 57186
72434 in substitution of 70769 and 57187

Hydraulic safety valve

The 1 ½" hydraulic safety valve in the drain is specially designed for installation in the drain outlet of an automatic multiport valve on a pool sand filter.

Using it prevents water loss when the valve changes its working position or when the electricity flow fails and the valve remains in a position in which it could empty the pool.

It is recommended in installations with SYSTEM VRAC multiport valves.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
With 50 mm straight double connection	**41898**	2	1.8	0.02
With 1 ½" BSP double pipe connection	**41899**	2	1.8	0.02

FILTRATION MEDIA AND ACCESSORIES

OC-1 filtration media

OC-1 filtration load: The future of pool filtration

OC refers to Open Cell and OC-1 is a mechanical filter that uses open-cell filtration technology to filter water with a high quality, increasing the water saving and energy potential. The filtration media is an extruded plastic compound comprising a base of High Density Polyethylene with Calcium Carbonate.

- Saves water: exclusive filtration method that reduces water consumption by more than 40%.
- Saves power: lets you use a smaller pump or lower the power to get the same flow you would with traditional filtration media.
- Saves time: OC-1 reduces backwash frequency to less than a third of traditional methods, meaning more leisure time for you.
- The OC-1 media has been tested in accordance with current European standard EN16713-1.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
OC-1 50L filtration media bag	**69752**	1	9.0	0.05
OC-1 20L filtration media bag	**69753**	1	3.6	0.02

Active Clear Glass

AstralPool sells Active Clear Glass filtration material.

Active Clear Glass has the following benefits:

- More efficient and ecological filtration with water and energy savings.
- Higher filtration capacity with a cleaner bed that traps bacteria.

PUMP SELECTION GUIDE

HOW DO YOU SELECT THE PUMP THAT YOU NEED?

The selection of the pump is essential for running a pool's water treatment system.

The pump is the heart of a water facility and provides the power that makes the water circulate.

Its main use is to filter the water so that it is clear and to ensure its full recirculation. The main steps for selecting a pump are:

- **→ Setting the flow rate required depending on the pool's volume and dirt load. The flow rate must always be suitable for the filter fitted. It is very important that it neither be too slow nor too fast.**
- **→ Setting the pressure required depending the hydraulic facility's features.**
- **→ Taking into account any other units that may have been installed, such as salt chlorinators and heat pumps, whenever they involve constraints on the flow rate or pressure. For example, if a minimum flow rate is required for a unit to run.**
- **→ Selecting the pump ranges that supply this flow rate and pressure.**
- **→ Choosing the pump with the features that are best suited to a pool's requirements and those of its owner.**

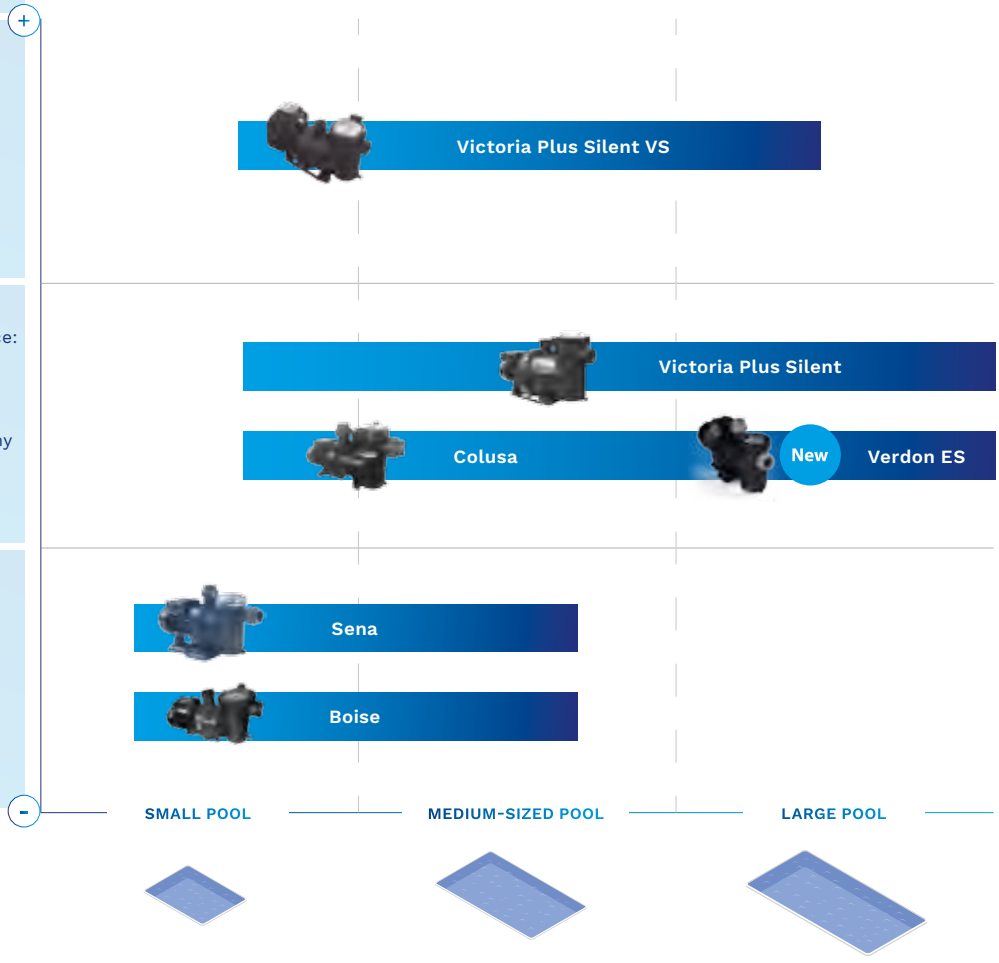

Pumps also have other uses, such as running water features and massage jets. In such cases, read the specifications for each use and select the right pump.

Variable speed technology delivers the highest levels of comfort and features. It is without a doubt the best choice for the most exacting users.

PUMP RANGES AND MAIN ADVANTAGES

To select the right pump, you can use the following table that shows the features according to pool size.

FEATURES	
COMFORT VARIABLE SPEED	1. Extra silent 2. Power savings. Low power consumption 3. High quality filtration 4. Connected and connectable 5. Low maintenance: large capacity prefilter
COMFORT SINGLE SPEED	1. Low and easy maintenance: large capacity prefilter 2. High efficiency 3. Wide range of flow rates suitable for practically any type of residential pool 4. High hydraulic performance
COMPACT SINGLE SPEED	1. Small footprint: compact prefilter 2. Intermediate hydraulic performance 3. For small- and medium-sized pools

VICTORIA PLUS SILENT VS

Shhhhh... Relax and enjoy the silence of your pool

A NEW GENERATION OF FILTRATION PUMPS

Silent
At just 45 dB, it is amongst the most silent pumps in the market

Savings
A variable speed pump that could see you save as 900€ in power consumption

Fluidra Connect connectivity
Download the app and program it from your mobile phone or tablet

User-friendly display
Easy to use and program with the added bonus that it can be installed on a wall

Easy to replace
Compatible with all earlier Victoria models by AstralPool

Reliability
Cutting-edge engineering tested for a long, problem-free service life

VARIABLE SPEED PUMPS

VICTORIAPLUS
SILENT VS

Victoria Plus Silent VS pump

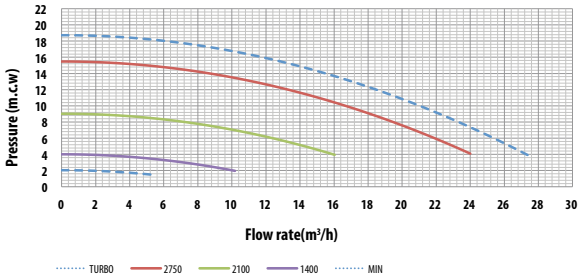

COMPATIBLE NN thing
Fluidra Connect compatible

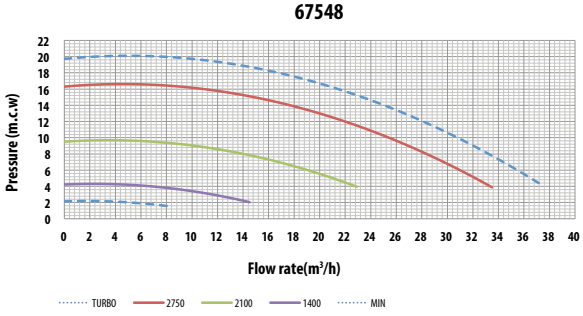

The Victoria Plus Silent pump for residential pools comes with a 1 hp or 2 hp motor, has variable speeds and can be automatically controlled.
This pump has been designed for both new-build pools and as a replacement for pumps already fitted.
Significant power savings can be made thanks to the use of variable speeds and the timer.
The pump is compatible with the Fluidra Connect platform.
It has a built-in HMI controller with the possibility of mounting it on a wall for better usability.
Bathers experience a greater feeling of well-being due to the reduced noise level.
There are digital inputs and outputs for the smooth running of all pool units, such as the salt chlorinator and heat pump. It includes a power factor correction function for reducing current flow. It does not require an external power pack for Fluidra Connect..

A great generation of filtration pumps

SELF-PRIMING PUMPS

VICTORIAPLUS SILENT

Victoria Plus Silent pump

A self-priming pump with single-phase and three-phase motors of 1/2 to 3 hp. A prefilter is mounted on the body of the pump to prevent foreign bodies from entering it that may damage its hydraulic parts. The motors supplied come with an IP-55 protection rating and have been prepared to withstand hot environments and high levels of humidity. GS marking. The main characteristics of Victoria Plus Silent are:

- Low noise level: between 61 dB and 70 dB.
- Easy to use: Prefilter cap with 2 levers included (no spanner needed).
- Compatibility: Fully compatible in pools fitted with a Victoria Plus pump.

Larger front bearing for improved axial thrust.

PVC accessories assembly included in pump.

Flow rates in l/h at 8 mcw for 0.5 hp and 10 mcw for the rest of range.

See performance curves on page 178

VERDON ES

THE RELIABLE PUMP THAT MAKES IT EASY FOR YOU

AstralPool's new Verdon ES pumps are characterized by their reliable and robust performance. Their simple build using premium quality materials and advanced technology enable to install a unique single-speed pump that can be fitted in most existing residential pools. A pump at best value for money as well as premium quality.

- Wide range that adapts to most existing residential pools.
- Compatible with pumps already installed: ESPA Silen S2.
- Couplings included.
- Compatible with the most commonly used chemical treatments, including electrolysis.

PROFESSIONAL ADVANTAGES

High performing and reliable, with exceptional value for money

Service. No need to schedule orders. Product and spare parts availability

Exclusivity: sales to professionals only

USERS ADVANTAGES

Peace of mind. Quality and reliability

Easy to use and simple maintenance

Exceptional value for money

ASTRALPOOL

See performance curves on page 178

SELF-PRIMING PUMPS

Verdon ES pump

New

Verdon ES is a wide range of self-priming pumps. Single phase motors from 1/2 hp to 3/4 hp and both single and three-phase motors from 1 hp to 3 hp.

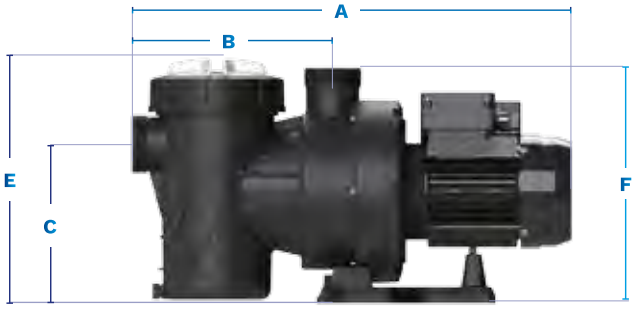

Designed and produced to serve professional performance, to be reliable and with an exceptional value for money.

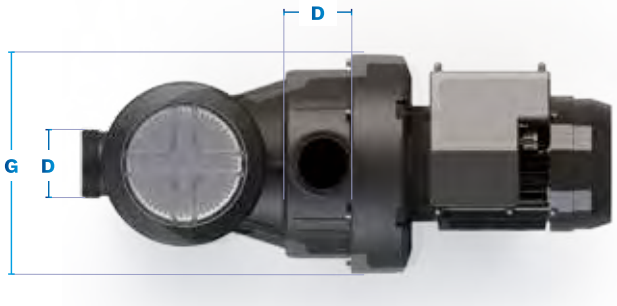

Ease of use and maintenance thanks to its large prefilter.

PVC accessories included in the pump.

Flow rate in l/h at 8 mcw for 0.5 hp and 10 mcw for the rest of range.

SELF-PRIMING PUMPS

Sena pump

A compact self-priming pump with single-phase from 1/3 hp up to 1.25 hp in and three-phase motors from ¾ hp to 1.25 hp. GS marking. IP-55 protection rating, Class F insulation and AISI-316 stainless steel for all components in direct contact with water. Glue-in pipe connection sleeve 50 mm in diameter.

Flow rates in l/h at 6 mwc for 0.33 hp, 8 mwc for 1/2 hp and 10 mwc for the rest of range. 3,000 rpm.

Colusa pump

The Colusa pump delivers highly efficient hydraulic performance. It has been designed to be silent, long-lasting and reliable.

The pumps are self-priming from ½ hp to 3 hp and are supplied with 3,000 rpm single-phase and three-phase motors. Silent, the hydraulic design has an extremely low noise level. A prefilter is mounted on the body of the pump to prevent foreign bodies from entering it that may damage its hydraulic parts. This prefilter has a wing nut and a transparent cover that makes maintenance work easier.

Flow rates in l/h at 8 mwc for 1/ 2 hp, 10 mwc for 1 and 1.5 hp, 12 mwc for 2 hp and 14 mwc for 3 hp.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3

Boise pump

The Boise pump is designed to work under a vast range of conditions. Whatever the pool type, it always delivers the required flow rate and pressure.

The Boise pump is built for ease of handling. It has a see-through lid for easy inspection and a large strainer to extend time between cleanings.

The motor materials are rustproof; the motor shaft is made from stainless steel and the sealed bearings never need lubrication. The thermoplastic housing withstands extreme heat and corrosion.

Flow rates in l/h at 6 mwc for 0.33 HP, 8 mwc for 0.5 HP, 10mwc for 0.75 HP and 12 mwc for rest of range.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3

CONTROL BOXES

Control boxes

IP-65 protection. Glass panel with lock and key. All units are compatible with:
- 220/240V 1-phase (P+N+T) 50Hz/60Hz
- 380/415V 3-phase (3P+N+T) 50Hz/60Hz
- 220/230V 3-phase (3P+T) 50Hz/60Hz

24h programming clock with hourly programming. Connection for remote control of pump (on/off,...) and for auxiliary equipment (cold detector, level control...).

All products supplied with:
- Electrical diagram
- Connection diagram
- Instructions for installation
- CE conformity certificate
- Stuffing box at every cable entrance
- Screws and plugs (4) for fixing to wall

The control box model should be selected according to the nominal voltage of the pump:

Type	Intensity range	Power Range 1-phase 230V	Power Range 3-phases 400V	Power Range 3-phases 230V
A	1.6A - 2.5A	1/4 HP	¾ HP - 1 HP	½ HP
B	2.5A - 4A	½ HP	1.5 HP - 2 HP	¾ HP - 1 HP
C	4A - 6.3A	¾ HP - 1 HP	3 HP*	1.5 HP
D	6A - 10A	1.5 HP	4 HP**	2 HP - 3 HP

* Also 3.5 hp 400V 3~ in plastic (code 08003)
** Also 4.5 and 5.5 hp 400 V 3~ in plastic (codes 08004, 08005)

Control box for pump overload protection

COUNTERCURRENT SWIMMING EQUIPMENT

Basic NL countercurrent nozzle set

Countercurrent nozzle set in polished AISI-316L stainless steel front cover, interchangeable with nozzle sets 11499 and 11014, multi-directional water-air return nozzle, and suction capacity 60 m³/h, and on-off push button. Optional hand grip (code 65535).

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Basic NL nozzle set. for both stainless steel and plastic housing.	**65489**	1	-	-

Basic ND countercurrent kit

Countercurrent kit made up of:
- Return inlet (air-water) made of AISI-316 stainless steel.
- Illuminated ON-OFF piezoelectric push button made of AISI-316 stainless steel.
- Suction grille with a capacity of 60 m³/h made of polished AISI-316 stainless steel.
- 5.5 HP pump.
- Flow rate of 60 m³/h.
- Power control cabinet.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Basic ND unit for concrete pools	**65498**	1	-	-
Basic ND unit for liner pools	**66044**	1	-	-

Advance ND countercurrent kit

Countercurrent kit made up of:
- Return inlet (air-water) made of polished AISI-316 stainless steel.
- Illuminated ON-OFF and +/- piezoelectric push button made of AISI-316 stainless steel.
- Suction grille with a capacity of 60 m³/h made of polished AISI-316 stainless steel.
- 5.5 HP pump.
- Flow rate adjustable from 23 m³/h to 60 m³/h thanks to a variable-speed drive.
- Power control cabinet.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Advance ND unit for concrete pools	**65497**	1	-	-
Advance ND unit for liner pools	**66043**	1	-	-

COUNTERCURRENT SWIMMING EQUIPMENT

Nozzle assemblies with rectangular front plate in white plastic and built-in hand grip

Made up of: Front plate, nozzle assembly, on-off and air regulation remote control.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
For plastic housing	**11013**	1	4.2	0.039

Front suction countercurrent unit hand grip

Handrail made of AISI-316 stainless steel for assembly with Basic NL nozzle set (code 65489).

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
65535	1	-	-

Rectangular hand grips in painted AISI-316L Stainless Steel

Specially designed for 11015 & 11501 nozzles. Nevertheless can be mounted on any of the other nozzle sets except for the 11013.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
09447	1	1.4	0.013

Rectangular hand grips in polished AISI-316L Stainless Steel

Specially designed for 11015 and 11501 nozzles. Nevertheless can be mounted on any of the other nozzle sets except for the 11013.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
00246	1	1.48	0.01

Round Hand grips in painted AISI-316L Stainless Steel

Specially designed for 11016 & 11500 nozzles. Nevertheless can be mounted on any of the other nozzle sets except for the 11013.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
07536	1	1.6	0.02

Semicircular grab rail in polished AISI-316L Stainless Steel

AISI-316L polished stainless steel. Specially indicated for Marlin counter current swimming kit models; Marlin 30 II, Marlin 30 III and Marlin 45 III, although it may be mounted on any of the inlet sets, except for model 11013.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3

COUNTERCURRENT SWIMMING EQUIPMENT

CCIV vertical drive pumps

Specially designed for countercurrent equipment with high performance output with larger diameter of discharge and suction. It is important not to add any special features to the installation as they may limit the performance significantly. All the pumps metal components in contact with water are manufactured in AISI-316L Stainless Steel, highly resistant to corrosion.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3

COUNTERCURRENT SWIMMING EQUIPMENT

Marlin XS countercurrent swimming equipment

Set nozzle Mini Eco counter current unit. Highly competitive in its hydraulic performance. It can be installed in both concrete and prefabricated pools. Manufactured in white plastic parts. Consists of front panel nozzle set, stop/start push button and housing. Supplied with installation kit. Does not include pump or control box.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Marlin XS	**45618**	1	1.553	0.015

Marlin: inexpensive countercurrent swimming unit. The innovative design and concept supplied as a kit (including face plate, housing, control box and pump) makes it a feature that will add significant value to your pool. A highly competitive product thanks to its high performance hydraulic features, the Marlin countercurrent system is available in 3 models: the Marlin 30 II, the Marlin 30 III and the Marlin 45 III. Grab rails and hydromassage hose may be added as optional features.

Marlin 30 II (single-phase)

Consists of: Nozzle faceplate, plastic housing, control box and pump 2.2 kW (3 HP) 230 V II 50 Hz.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
35375	1	37.4	0.260

Marlin 30 III (three-phase)

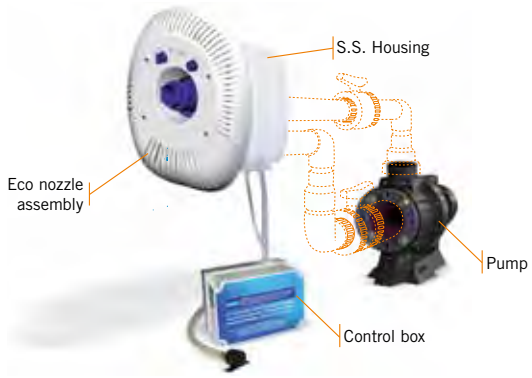

Consists of: Nozzle faceplate, plastic housing, control box and pump 2.2 kW (3 HP) 400 V III 50 Hz.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
35376	1	37.4	0.260

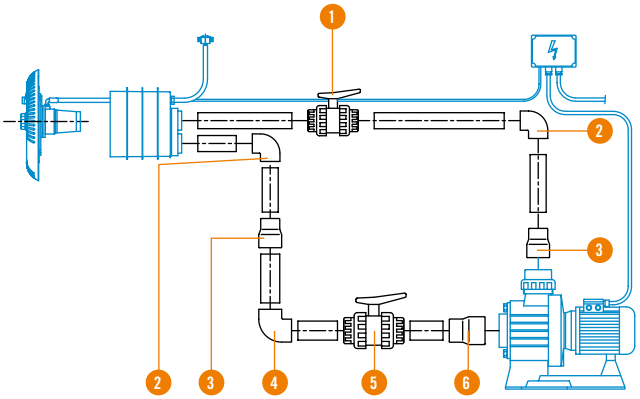

Marlin 45 III (three-phase)

Consists of: Nozzle faceplate, plastic housing, control box and pump 3.3 kW (4.5 HP) 400 V III 50 Hz.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
35377	1	42.2	0.260

Part 11503 required for liner pools.

BLOWER PUMPS

Air pump

Air pump designed for spas, baths, hydromassage installations and similar which produces a constant stream of air bubbles at medium and high air volume levels. It can also be used to stir up the filter bed, for example in back wash cycles where a low intensity air current is required.

The filter casing and impeller are made from an injected aluminium alloy whilst the motor spindle is manufactured from stainless steel, with the impeller dynamically balanced and directly adapted to the spindle. The motors, single phase or 3 phase for continuous use, are made from steel in compliance with CEI 2/3 1988 regulations, and feature IP54 external protection and class-F insulation. The standard voltages are100-120/200-240V for the monophase range and 200-240/380-440V for the triphase models, at 50/60Hz. The pumps can be mounted horizontally or vertically. Moreover, since there is no contact between the mobile parts and the pump static discharges, neither lubrication nor maintenance is necessary and it does not cause wear on the parts.

The turbines have a maximum working temperature of 40ºC. Do not use in conjunction with aggressive, inflammable or explosive gases.

REGULATORS

Solid pH Minor

Solid pH reducer. For adjusting the pH to between 7.2 and 7.6.

	Packaging	Code	Standard Pack	Kg/l/pallet
Square packaging	1.5 kg	**11384**	18	600
Square packaging	7 kg	**73139**	4	960
Square packaging	16 kg	**16540**	2	768
	40 kg	**11974**	1	480

Solid pH Plus

Solid pH enhancer. For adjusting the pH to between 7.2 and 7.6.

	Packaging	Code	Standard Pack	Kg/l/pallet
Square packaging	1 kg	**16538**	18	400
Square packaging	6 kg	**11386**	4	864
Square packaging	12 kg	**16539**	2	720
	35 kg	**15975**	1	630

Liquid pH Minor

Liquid pH reducer. Ideal for dosing with a pump.

		Packaging	Code	Standard Pack	Kg/l/pallet
Liquid pH Minor for professional use		10 l	**43290**	1	600
Liquid pH Minor for professional use		25 l	**16541**	1	600

Liquid pH Minor for end users		25 l	**73665**	1	600

Liquid pH Plus

Liquid pH enhancer. Ideal for dosing with a pump.

	Packaging	Code	Standard Pack	Kg/l/pallet
	25 l	**16542**	1	600

Alkalinity enhancer

Powder for increasing water alkalinity when it falls below 125 ppm.

	Packaging	Code	Standard Pack	Kg/l/pallet
Square packaging	6 kg	**15976**	4	864
	40 kg	**19933**	1	480

For minimum amounts, ask your dealer

DISINFECTANTS

Non-combustible chlorine. Non-combustible, multi-action trichloride tablets and blocks are also available. Non-combustible products are less dangerous, according to current laws, in comparison with combustible chlorinated products and, therefore, have the advantage of being able to be stored anywhere, pursuant to Royal Decree 379/2001 and the Seveso II Directive.

55% dichloride granules

Dichloride granules with 55% free available chlorine.

	Packaging	Code	Standard Pack	Kg/l/pallet
Square packaging	1 kg	**11393**	18	400
Square packaging	5 kg	**11394**	4	720
	30 kg	**11395**	1	540
	50 kg	**11396**	1	600

Fast-dissolving chlorine tablets

Trichloride 20-g tablets with 50% free available chlorine.

	Packaging	Code	Standard Pack	Kg/l/pallet
Square packaging	1 kg	**11397**	18	400
Square packaging	5 kg	**11398**	4	720
	25 kg	**11399**	1	450

Trichloride powder

Trichloride powder with 90% free available chlorine.

	Packaging	Code	Standard Pack	Kg/l/pallet
Square packaging	1 kg	**11400**	18	400
Square packaging	5 kg	**11401**	4	720
	30 kg	**11402**	1	540
	50 kg	**11403**	1	600

DISINFECTANTS

Trichloride granules

Trichloride granules with 90% free available chlorine.

	Packaging	Code	Standard Pack	Kg/l/pallet
Square packaging	1 kg	**11404**	18	400
Square packaging	5 kg	**11405**	4	720
	30 kg	**11406**	1	540
	50 kg	**11407**	1	600

250-g trichloride tablets

Slow-dissolving 250-g trichloride blocks with 90% free available chlorine.

	Packaging	Code	Standard Pack	Kg/l/pallet
Square packaging	1 kg	**34433**	18	540
Square packaging	5 kg	**34434**	4	720
	25 Kg	**34436**	1	450
	50 Kg	**34437**	1	600

Action 10

250-g multipurpose tablets that perform the functions of the following 10 products: disinfectant, algicide, bactericide, algaestat, virucide, fungicide, flocculant-coagulant, pH reducer, stabilizer and descaler.

	Packaging	Code	Standard Pack	Kg/l/pallet
Square packaging	5 kg	**25325**	4	720

Multi-action block

Slow-dissolving, 500-g blocks that act as an algicide, bactericide and flocculant. In individual film wrappers.

	Packaging	Code	Standard Pack	Kg/l/pallet
	5 kg	**25316**	4	480
	25 kg	**25355**	1	450

For minimum amounts, ask your dealer

DISINFECTANTS

Multi-action granules

Granules that act as a bactericide, algicide and flocculant.

Packaging	Code	Standard Pack	Kg/l/pallet
1 kg	**15983**	18	400
5 kg	**15984**	4	480
30 kg	**15985**	1	540

Multi-action 250-g tablet

Slow-dissolving, 250-g tablet that acts as an algicide, bactericide and flocculant.

Packaging	Code	Standard Pack	Kg/l/pallet
Square packaging 1 kg	**34438**	18	540
Square packaging 5 kg	**34439**	4	720
25 kg	**34441**	1	450

Special multi-purpose tablet for hard water

Solid compound in tablet form, specially formulated so that a single dose will remove bacteria, viruses and microorganisms from pool water, which prevents algae from growing, limescale from forming and keeps the water crystal clear.

Packaging	Code	Standard Pack	Kg/l/pallet
1 kg	**40935**	12	576
5 kg	**40936**	4	720
25 kg	**40938**	1	450

DISINFECTANTS

Bromine tablets

Slow-dissolving 20-g bromine tablets for the continuous disinfection of pools and spas. Does not smell of chlorine. High tolerance to pH levels. Powerful disinfectant and oxidising agent.

Packaging	Code	Standard Pack	Kg/l/pallet
5 kg	**16550**	4	400
20 kg	**28740**	1	540

ALGICIDES

Algicides

Prevents the formation of algae in pools.

Packaging	Code	Standard Pack	Kg/l/pallet
5 l	**11417**	1	600
25 l	**11418**	1	600

Algicide with brightener

A powerful bactericide, algicide and fungicide.

Packaging	Code	Standard Pack	Kg/l/pallet
1 l	**11413**	12	480
5 l	**11414**	4	640
25 l	**11415**	1	600

Algicide Extra

Highly efficient non-foaming algicide that also acts as a flocculant.

Packaging	Code	Standard Pack	Kg/l/pallet
5 l	**24616**	4	640
25 l	**11424**	1	600

For minimum amounts, ask your dealer

ALGICIDES

PhosFree

Instantly removes what algae feed on.

Concentrated product: lasts for 13 weeks*

* 80 ml a week for a 50 m³ pool.

Concentrated product that prevents the formation of algae as a result of chemicals, garden fertilizers and other contaminating agents. It removes the phosphates on which algae feed, thus inhibiting their growth.

Suitable for use in all types of pools, filters and disinfection treatment systems.

- Is easy to use.
- Improves the performance of salt chlorinators.

Recommended use:
The concentration of phosphates should be kept below 125 ppb (parts per billion) to prevent the formation of algae.

Initial treatment for high phosphate levels:

1. Ensure the filter is clean and that the system is working properly.
2. Pour the required concentration of PhosFree in a container with water and spread the solution evenly across the surface of the pool.
3. Keep the filtration system running for at least 24 hours following application.
4. Test the phosphate level of your pool using a phosphate test kit 48 hours later. If necessary, repeat the treatment.

	Packaging	Code	Standard Pack	Kg/l/pallet
PhosFree	1 l	**65957**	12	480

Algicide Power

More power in each drop!

Concentrated product: 25 weeks (1 l)

A fast-acting compound formulated from surfactants that displays great properties as an algicide and fungicide, which therefore prevents the formation and growth of algae in pool water.

Prevention is better than cure:
Concentrated maintenance product that keeps pools free of all types of algae thanks to its powerful properties.

The revolutionary dosing cap will enable you to add exactly the amount of the product you need, thus helping you to make savings and use it more efficiently.

Packaging	Code	Standard Pack	Kg/l/pallet
1 l	**63124**	12	480

For minimum amounts, ask your dealer

ALGICIDES

Algicide Extra Power

An extra strong, fast-acting algicide with micro-flocculant properties that makes it better able to prevent the appearance of algae that live suspended in the water. **Non-foaming.**

Concentrated maintenance product that keeps pools free of all types of algae thanks to its powerful properties.

The revolutionary dosing cap will enable you to add exactly the amount of the product you need, thus helping you to make savings and use it more efficiently.

Packaging	Code	Standard Pack	Kg/l/pallet
1 l	**63126**	12	480

Non-foaming.

Concentrated product: 20 weeks (1 l)

FLOCCULANTS

Natural Flocculant

This natural clarifier made from chitosan (crustacean shells) is the most effective weekly treatment for preventing the formation of foam and cloudiness in pool water. It removes all traces of body oils and lotions, as well as excess metal precipitates.

Suitable for use in all types of pools and filters.

- Keeps water crystal clear, which helps the filter collect dirt.
- Removes excess metal precipitates.
- Helps make cleaning filters quicker and easier.
- Improves the performance of salt chlorinators.

Recommended use:
To keep your pool water crystal clear, treat it with the recommended dose of Natural Clarifier once a week. For home pools that are used a lot or for public pools, treat the pool water with twice or three times the recommended dose.

Packaging	Code	Standard Pack	Units/pallet
1 l	**65956**	12	480

The natural way to make water clean and transparent.

Concentrated product: 25 weeks (1 l)

* 40 ml a week for a 50 m^3 pool.

CrystalBlock – Single dose gel flocculant

The easiest way to enjoy crystal clear water. No handling or complicated dosing systems required. It has never been easier to enjoy crystal clear water. Ideal for all pool types, except ones with cartridge or diatomaceous earth filters.

The single dose gel blocks will enable you to add the exact amount of the product with next to no effort. CrystalBlock collects colloidal particles and algae spores so that they are filtered better.

- Increases filter efficiency.
- Helps keep your pool water crystal clear.
- Improves the efficiency of disinfectants.

Packaging	Code	Standard Pack	Units/pallet
36 UN	**67558**	72	10.800

For minimum amounts, ask your dealer

FLOCCULANTS

Liquid flocculant

Clarifies water by eliminating the colloidal particles that cause cloudiness in water.

Packaging	Code	Standard Pack	Kg/l/pallet
1 l	**11387**	12	480
5 l	**11388**	4	640
25 l	**11389**	1	600

Solid flocculant

Long-lasting improvement of water transparency through permanent flocculation.

Packaging		Code	Standard Pack	kg/pallet
1 kg of product in 8 bags (8 bags of 125 g each)	1 kg (8 x 125 g)	**11390**	14	490

Claritab Plus

Super concentrated dual action coagulant and flocculant tablets, specially formulated to obtain the best performance from sand filters. The slow dissolving and controlled action completely removes suspended particles in the water (metal ions, organic matter, etc.). Savings are made as fewer disinfectants are used.

Packaging		Code	Standard Pack	Units/pallet
Display 20 units	Unit: 5 x 20 g	**72769**	24	960

For minimum amounts, ask your dealer

CLEANERS

Extra descaler

Extra strong descaler. Acid.

Packaging	Code	Standard Pack	Kg/l/pallet
5 l	**11391**	4	640
25 l	**11392**	1	600

Specially formulated descaler for polyester and fibreglass pools.

It combats limescale and grease without damaging pool lining.

Packaging	Code	Standard Pack	Kg/l/pallet
5 l	**16558**	4	640

For minimum amounts, ask your dealer

CLEANERS

Non-foaming water line degreaser

A specially formulated compound for removing scum and dirt from pool edges and walls, and areas around them that may require cleaning.

Packaging	Code	Standard Pack	Kg/l/pallet
1 l	**11425**	12	480
5 l	**11426**	4	640
25 l	**11427**	1	600

Gelamin

Gel descaler for pool walls and floors. Highly effective. Easy to use.

Packaging	Code	Standard Pack	Kg/l/pallet
5 l	**15987**	4	640

Gel descaler specially formulated for the water line.

Powerful liquid descaler with degreasing properties for cleaning the water line.

Packaging	Code	Standard Pack	Kg/l/pallet
1 l	**40931**	12	480
5 l	**40932**	4	640
25 l	**40934**	1	600

Liquid Filnet

Liquid descaler specially designed for cleaning the inside of sand filters in public pools.

Packaging	Code	Standard Pack	Kg/l/pallet
5 l	**73557**	4	640
25 l	**73558**	1	600

Step 1 Polisher

Stainless steel polisher and rust remover.

Packaging	Code	Standard Pack	Kg/l/pallet
750 ml	**72847**	12	432

Step 2 Brightener

Product designed to care and polish stainless steel.

Packaging	Code	Standard Pack	Kg/l/pallet
750 ml	**72848**	12	432

For minimum amounts, ask your dealer

CLEANERS

Solid Filnet

A solid descaler for cleaning the inside of sand filters.

Packaging	Code	Standard Pack	Kg/l/pallet
1 kg	**15988**	18	540

Stainless steel cleaner-polish

Stainless steel cleaner-polish. It removes stains and degreases all types of stainless steel surfaces.

Packaging	Code	Standard Pack	Kg/l/pallet
1 l	**72845***	12	480
5 l	**72846***	4	640

* New codes replace old codes 18713 and 16630.

New

Surf-Clean

Surface sanitizer with a pleasant pine smell for all kinds of surfaces.

Packaging	Code	Standard Pack	Kg/l/pallet
1 l	**73666**	9	432
5 l	**73667**	4	720
25 l	**73668**	1	450

WINTERISING PRODUCTS

Winterizer

Prevents the proliferation of algae and bacteria in the water. Prevents water from going stagnant and the build-up of limescale. Takes the strain out of spring cleaning. Non-foaming.

Packaging	Code	Standard Pack	Kg/l/pallet
5 l	**11430**	4	640

Copper-free Power Winterizer

Concentrated winterizer specially formulated for liner and polyester pools that will enable you to keep your pool water in top condition during winter as it prevents the formation of algae and bacteria. Saves water as it can be used from one season to the next.

The revolutionary dosing cap will enable you to add exactly the amount of the product you need, thus helping you to make savings and use it more efficiently.

At the end of the bathing season before ending regular maintenance treatment, a super-chlorination should be performed using dichlor granules.

It is advisable to repeat the process halfway through the winter season.

Packaging	Code	Standard Pack	Kg/l/pallet
1 l	**63165**	12	480

More power in each drop!

Concentrated product:
0,5 L / 40 - 50 m³

For minimum amounts, ask your dealer

ACCESSORIES

Inverlong

Full treatment for pools in winter. Prevents the water from going stagnant and the proliferation of algae. Keeps the water crystal clear. Acts as a bactericide, algicide and flocculant. Comes with a floating dispenser.

Packaging	Code	Standard Pack	Units/pallet
1.75 kg	**69872**	8	128

Kit-Splash

Children's pool maintenance kit. It contains 0.5 l of dichlor granules and 0.5 l of concentrated algicide.

Packaging	Code	Standard Pack	Units/pallet
Kit	**15986**	14	294

Chlorine stabilizer

Prevents the rapid breakdown of chlorine by the sun's UV rays.

Packaging	Code	Standard Pack	Kg/l/pallet
1 kg	**16556**	12	360
4,5 kg	**72812**	4	480
25 kg	**19935**	1	450

Chlorine and bromine neutralizer

For the removal of excess residual chlorine or bromine.

Packaging	Code	Standard Pack	Kg/l/pallet
6 kg	**16578**	4	576

Super descaler

Highly efficient descaler. Prevents the precipitation of lime and the build-up of limescale. Prevents pipes from getting blocked.

Packaging	Code	Standard Pack	Kg/l/pallet
5 l	**16555**	4	640

Descaler

Prevents limescale.

Packaging	Code	Standard Pack	Kg/l/pallet
5 l	**11431**	4	640

BLUERIIOT WATER TESTERS

Blue Check

Smart test strip (50 strips).

- pH.
- Free chlorine.
- Bromine.
- Total alkalinity.
- Total hardness.
- Cyanuric acid.
- Blueriiot Pool & spa Assistant free app.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3

71665*	1	-	-

*71664 : Packaging in English, French, Dutch and German.
*71665 : Packaging in English, Spanish, Italian and Portuguese.

Blue Connect GO

The smart pool analyser.

- Temperature.
- pH.
- ORP (Platinum).
- Works with Bluetooth.
- Blueriiot Pool & spa Assistant free app.
- Compatible with chlorine and bromine pools and spas. Not compatible with salt chlorinator pools and spas.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
73014	1	-	-

Blue Connect Plus (Gold)

The smart pool analyser.

- Temperature.
- pH.
- ORP (Gold).
- Conductivity (Salinity).
- Works with Bluetooth.
- Up to 20 automatical measurements.
- Blueriiot Pool & spa Assistant free app.
- Blueriiot Premium lifetime.
- Blue Fit50.
- Virtual Pool Care (Pools) lifetime.
- Compatible with chlorine, bromine and salt chlorinator pools and spas.

RESIDENTIAL POOLS WATER TREATMENT SOLUTIONS

Disinfection management and pH management represent 20% of pool water treatment but 80% of daily in-store enquiries. Correctly managing disinfection and pH is then key for a perfect pool experience. AstralPool® offers 4 product families to relieve the pool owners from constraints.

How to chose the most adapted water treatment solution?

Our water treatment product portfolio allows pool owners to adapt their equipment to their needs, from lowering maintenance constraints to increasing bathing comfort, connectivity or environmentally friendly solutions. The chart below will help you chose the best option for your pool.

For an optimal disinfection against pathogens (bacteria, viruses, fungi...), you may combine UV treatment with chlorinated treatment. It delivers a larger efficacy spectrum ensuring pool's water is disintected AND disinfectant.

SALT WATER ELECTROLYSIS - RESIDENTIAL POOLS

Elite Connect

A fully automated pH and chlorine control unit with all of the added advantages of salt water chlorination.

- Connected product using built-in Ethernet port and PoolStation app (available on iOS & aOS).
- NN compatible: Smart control within Fluidra Connect pool automation and NN app (available on iOS & aOS).
- Scalable control functions with S-Driver® plug-in modules (pH, Rx and Cl ppm).
- 2.8'' TFT colour touchscreen.
- 4 digital inputs and 4 digital outputs (relays) to control filter pump, heater, lighting, etc.
- Equipped with a gas sensor, a flow switch and a compact sensor holder as standard.
- Equipped with high quality electrodes, with a service life of up to 12,000 hours under normal conditions.
- Output control from 0 to 100%.
- pH dosing pump included with pH option.
- Low-salt version (1–4 g/l).
- VSP driver that can control 3-speed variable speed pumps and backwash piston valves.
- Optional Power & Control cabinet to ease the installation between Elite Connect and the controlled pool equipment. See page 224.

SALT WATER ELECTROLYSIS - RESIDENTIAL POOLS

Smart Next

New

A salt water chlorinator with optional ph automated control.

- **New for 2021 : pH/Rx version that brings ORP control of the chlorination in addition to the pH control.**
- NN compatible: Smart control within Fluidra Connect pool automation and NN app (available on iOS & aOS).
- Smart Next is available as a Salt water chlorinator, or with regulations: pH only or pH and Redox for chlorination control.
- Equipped with a gas sensor (optional flow switch) and compact sensor holder (pH and pH/Rx options) as standard.
- Monitors temperature and salinity.
- Equipped with high quality electrodes, with a service life of up to 10 000 hours under normal conditions.
- Output control from 0 to 100%.
- pH dosing pump included with pH and pH/Rx options.

SALT WATER ELECTROLYSIS - RESIDENTIAL POOLS

E-Next

New

E-Next salt water chlorinator is able to treat pools up to 180 m³.

It automatically disinfects and lowers the chlorine production if pool is equipped with an automatic pool cover (dedicated dry contact).

The polarity reversal will help cleaning the electrodes, and its salt alarm will warn the user in case of low salt concentration to avoid damaging the cell and the pool to turn green.

	Chlorine output	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Up to 30 m³	7 g/h	**74081**	1	4.80	0.047
Up to 50 m³	12 g/h	**74082**	1	6.30	0.047

AUTOMATIC UV DISINFECTION - RESIDENTIAL POOLS

Neolysis is the most advanced water treatment from AstralPool. It is a patented innovative sanitation system combining UV treatment with salt water electrolysis to deliver an unrivalled efficiency against pathogens.

Advantages:
- Water suitable for watering.
- Dual disinfection based on UV and electrolysis.
- Unbeatable water quality.
- Sustainable and healthier treatment.

Characteristics:
- The ultimate in chloramine reduction capacity (UV LP + Electrolysis).
- UV LP high quality lamps (13,000 h).
- High quality electrolysis electrodes (12,000 h).
- Patented process.

COMPATIBLE NN thing
Fluidra Connect compatible

Neolysis S (standard salinity)

Standard salinity (S) salt water chlorination systems combined with UV lamps for use in private pool up to 120 m³. Operation with standard salinity (4–6 g/L).

Heliox UV LP systems (LP = Low Pressure) systems are designed to be used in residential pools. They work on a wavelength of 254 nm, which is ideal for removing microorganisms. They will enable you to benefit from the latest ultraviolet light technology in the field of water treatment.

Heliox UV LP features:

- Stainless steel and polyethylene versions.
- Double lamp version (LP30 and LP30+).
- Plastic injection power box.
- Fluidra technology (design and manufacturing).
- Lamp "ON" indicator.
- Electronic counter for working time and ignitions (lamp lifetime control).
- Flow switch (optional, included in LP+ versions).
- LP+ versions come with a built-in pH/ORP controller (complete package).
- LP+ versions come with a flow switch, pH/ORP sensors and sensor holder (dosing pumps not included).

AUTOMATIC UV DISINFECTION - RESIDENTIAL POOLS

UV-C TL

The Astral UV-C TL ensures that your pool water is kept clean, fresh and crystal clear at all times in the most efficient, environmentally friendly way possible. Easy to install and maintain. It has a built-in electronic ballast for running the power pack without problems. In addition, the stainless steel reactor reflects UV-C rays, thus increasing efficiency by as much as 35%. The 30 and 55 Watt versions have a single lamp, whilst the 110-Watt version has two 55-Watt lamps in dual housing to increase contact time. Max. pressure: 2 bar. Comes with 3 connections (one closed with a blind cover) for easy installation. Also includes adaptors from Ø 63 mm to Ø 50 mm, with 1½ " female thread. The reactor must be wired to earth.

UV-C PE

AstralPool high quality UV-C PE in 30 and 55 Watt. The unit has a reactor that is big in diameter to increase exposure time to UV-C radiation. You pool water will be disinfected efficiently and safely. The units have rubber side caps that are splash-proof so that the lamp can be changed quickly. The unit can also be assembled in the opposite direction. It is therefore possible to choose the position of the input and output (left and right). The UV-C unit has a full PE reactor, which makes the device perfectly suited for pools with a salt chlorinator or salt water. The input has two 1½ " female threaded connections. The rest of the opening will be used for the transparent plug supplied as the lamp's indicator. The UV-C unit comes with 25/32/40 mm hoses. The reactor must be wired to earth.

PH & CHLORINE AUTOMATIC REGULATIONS - RESIDENTIAL POOLS

Control Connect

A fully automated multi-parameters control unit for a balanced and disinfected swimming pool.

A range of models suitables to different needs with either pH & ORP automatic regulations and dosing or pH & PPM free chlorine automatic regulations.

- Connected product using built-in Ethernet port and PoolStation app (available on iOS & aOS).
- NN compatible: Smart control within Fluidra Connect pool automation and NN app (available on iOS & aOS).
- Available in stand-alone version (code 71537) or in a complete panel version with low flow chamber (codes 71538 & 71539).
- 2.8'' TFT colour touchscreen.
- 4 digital inputs and 4 digital outputs (relays) to control the filter pump, heat pump, lighting, refill system, etc.
- Water temperature reading as standard.
- Equipped with a flow switch as standard.
- Equipped with dedicated outputs for pH & chlorine dosing pumps.
- pH and chlorine dosing pumps NOT included to give maximum flexibility depending on pool type. Kit 70054 can be used (1.5 L/h peristaltic pumps).

Power & Control cabinet - Elite Connect & Control Connect

New

Pre-wired cabinet that facilitates the installation between Elite Connect or Control connect and the pool equipment that can be controlled using 4 power outputs (filter pump, heater, lighting, etc.). See Elite Connect on page 216.

- IP55 watertight casing.
- All outputs are protected by a fuse.
- Control features :
  1 x 230 Vac output for :
  - Filter pump up to 3 HP
  - Or any device up to 10A / 2.3 kW
  3 x 230 Vac outputs for :
  - Filter pump up to 1/3 HP
  - Any device up to 6.5A / 1.5 kW

PH & CHLORINE AUTOMATIC REGULATIONS - RESIDENTIAL POOLS

Control Basic Plus

Small in size, it has been designed to prevent siphoning, require little maintenance, be easy to install and is protected from the spraying of chemical products. The device automatically measures and checks a pool's pH or ORP level.

Supplied without sensors or calibration solutions. Installation kit included.

- Plastic housing with IP-65 protection rating
- Backlit LCD display comprising 2 lines and 16 characters.
- Self-calibration of sensors.
- Quality control of sensors.
- Dosing pause during alarms and notification by a blinking LED.
- Proportional dosing.
- Adjustable set point.
- Flow rate: 1,5 l/h or 5 l/h.
- Back pressure: 1.5 bar.
- pH measurement range: 0.00 to 14.00.
- Redox measurement range: -999 to + 999 mV.
- Switch.
- Alarm relay.
- Minimum chemical product level input.
- PT100 temperature inlet (optional sensor).

Redox Basic EV Plus

Small in size, it has been designed to prevent siphoning, require little maintenance, be easy to install and is protected from the spraying of chemical products. Recommended for use with any chlorinator without ORP regulation.

Supplied without sensors or calibration solutions. Installation kit included.

- Plastic housing with IP-65 protection rating
- Backlit LCD display comprising 2 lines and 16 characters.
- Self-calibration of sensors.
- Quality control of sensors.
- Dosing pause during alarms and notification by a blinking LED.
- Proportional dosing.
- Adjustable set point.
- Redox measurement range: -999 to + 999 mV.
- Switch.
- Alarm relay.
- Output relay for external component.
- Minimum chemical product level input.
- PT100 temperature input (optional sensor).

PH & CHLORINE AUTOMATIC REGULATIONS - RESIDENTIAL POOLS

Dual pH-EV Basic Control Plus

The DUAL pH-EV Basic Control Plus dosing device has been specifically designed for automatically controlling pH and ORP levels.

It is a must in home spas and pools. It can work with a salt chlorinator or chlorine tablets, as it has relay output for enabling the chlorinator, in addition to controlling a pool's pH levels though a peristaltic pump.

Small in size, it comes with all of the components required for proper installation.

Depending on the device that has been connected, the control function can be set to the ON-OFF setting or proportional setting (ideal for solenoid valves).

COMPATIBLE NN thing

Fluidra Connect compatible

General technical features

- Automatic pH or redox control and dosing system.
- Measurement range of 0–14 (pH) and 0–100 mV (redox).
- Includes full installation kit comprising a pH and Redox sensor, sensor holder, standard solutions, suction and blow pipes and suction- and blow-pipe fittings.
- ABS casing with IP65 protection rating.
- Digital screen that gives pH, redox (ORP) and temperature (optional Pt100) readings
- Remote on-off input (230 VAC) that keeps display lit up for calibration and programming.
- Chemical product level inlet.
- Alarm relay.

Flange for PT100	**66759**	-	-	-

Control Basic Next

The Control Basic Next device has been specifically designed for the automatic control of pH and redox levels. It can be set to control whichever of these two functionalities is required.

It is the most simple control and dosing device in the market. Small in size, it has all of the components required for immediate installation.

General technical features

- Automatic pH or redox control and dosing system.
- Measurement range of 0–14 (pH) and 0–100 mV (redox).
- It comes with a full installation kit, made up of a pH or redox sensor (depending on the model), a sensor holder, standard solutions, suction and blow pipes, and suction and blow pipe fittings.
- ABS casing with IP65 protection rating.
- Digital display screen for both pH and redox readings.
- Remote on-off input (230 VAC) that keeps display lit up for calibration and programming.

PH & CHLORINE AUTOMATIC REGULATIONS - RESIDENTIAL POOLS

Redox Basic EV Next

The Redox Basic EV Next device has been specifically designed for automatically controlling ORP levels. It is the most simple control and dosing device in the market. Small in size, it has all of the components required for immediate installation.

It can work with a salt chlorinator, a simple dosing pup or even chlorine tablets thanks to its relay output automatically enabling the sanitation feature when needed.

General technical features

- Automatic redox control and dosing system.
- Measurement range of 0...1000 mV.
- It comes with basic installation kit, made of an ORP sensor, a sensor holder and standard buffer solution (no piping kit as device is made to control a separate sanitizer appliance).
- ABS casing with IP65 protection rating.
- Digital screen that gives redox readings.
- Remote on-off input (230 VAC) that keeps display lit up for calibration and programming.

DOSING PUMPS FOR RESIDENTIAL POOLS

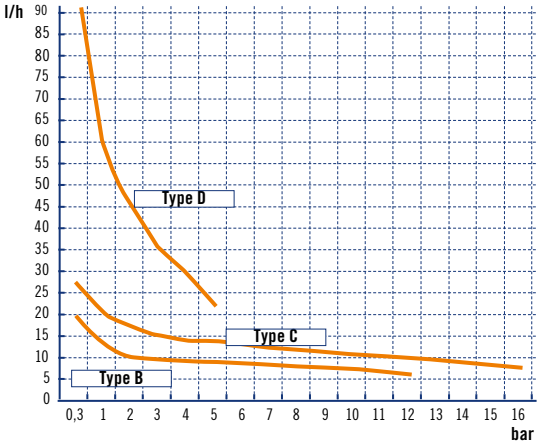

Optima dosing pump

The OPTIMA dosing pump represents the development of more than 30 years of experience in the automatic dosing field. This series reduces the number of pumps required to meet the various dosing needs.

The OPTIMA dosing pump series, with its power supply technology from 90, VCA to 265 VCA and at 50-60 Hz, ensures a precision and reliability never seen before.

Integration of many functions due to its simple programming, an alphanumeric display, the possibility of multilingual programming of the menu and a technology which permit controlled flow rate and back pressure. Allows to use the same model for various applications providing a great versatility.

Systems manufactured in compliance with EC standards. IP5 protection. 90-265V AC 50/60 Hz power supply. Components in contact with chemicals are made of polypropylene, Viton, Teflon and PVC. (Other materials are available if made to order.) Acid-resistant casing. Moisture-resistant membrane push buttons. Built-in purge valve. No lubrication and little maintenance work required. Sensors and calibration solutions not included. Also available with a peristaltic pump (see page 230).

Sensors				
pH sensor with calibration solutions (Code: 36004)	•		•	
Redox sensor with calibration solutions (Code: 36005)		•		•

OPTIMA constant flow rate analogue dosing pump

In OPTIMA constant flow rate analogue dosing pumps, the flow rate can be set as a percentage using the potentiometer under the front panel, which modifies the pump's operation frequency.
The pumps in this range have an level inlet sensor.

Double scale adjustment: the maximum dosing frequency can be divided into 5. This double scale allows users to have two pumps with a single unit.

Power supply from 90 to 230 VCA at 50-60 Hz with plug and switch

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Adjustable manual Optima pump				
B-type pump of5–10 bar and 2–5 l/h	**57132**	1	3.5	0.01
C-type pump of 5 bar and 10 l/h	**57133**	1	4.5	0.01
D-type pump of 5 bar and 120 l/h	**57135**	1	4.5	0.01

OPTIMA NEXT constant flow rate analogue dosing pump

The flow rate is fully adjustable from the flow meter. Power supply from 90 to 230 VCA at 50-60 Hz without plug.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Adjustable Optima manual pump at 8 bar and 5 l/h	**66164**	1	-	-

See the sensors on page 228

DOSING PUMPS FOR RESIDENTIAL POOLS

OPTIMA proportional and volumetric dosing pump

OPTIMA pumps provide all the functions of proportional dosing in a single model.

Features:
- Proportional with analogue signals 4 - 20 mA.
- Proportional with digital signals and the possibility of:
  - Multiplying the input impulses (1:n)
  - Dividing the input impulses (n:1)
  - Function in ppm
  - The pump has a memory function for processing input impulses dosing
- Level alarm with pump disconnection.
- Maximum dosing flow rate to prevent overdosing.
- Password for protecting programmed data
- Possibility of alarm connection
- Power supply from 90 to 265 VCA at 50-60 Hz with plug

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Type B Model 7-10 bar and 5 litres	**57136**	1	3.5	0.01
Type C Model 5 bar and 10 litres	**57137**	1	4.5	0.01
Type D Model 5 bar and 20 litres	**57138**	1	4.5	0.01

OPTIMA NEXT proportional and volumetric dosing pump

OPTIMA pumps provide all the functions of proportional dosing in a single model.

Features:
- Proportional with analogue signals 4 - 20 mA.
- Reading of pulses/minute.
- Chemical product minimum level inlet.
- pulse entry for dosing proportional from pulse emitter counter.
- Remote start/stop.
- Power supply from 90 to 265 VCA at 50-60 Hz without plug.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Model 8 bar and 5 litres	**66165**	1	-	-

OPTIMA PLUS dosing pump with pH or redox tester

OPTIMA dosing pump with built-in pH/Redox control. pH/Redox instrument.
Automatic calibration: Calibration by simply pressing a button, with the possibility of controlling the level of sensor efficiency.

Features:
- 90-265 VAC 50/60 Hz power supply
- Manual temperature compensation for pH or optionally automatic via Pt100.
- 4...20mA output for printed register or transmission of the reading.
- Level alarm with pump disconnection or simple warning of lack of product by means of the alarm relay.
- Alarm notifying deactivation of the programmable setpoint across whole of the measurement range.
- Dosing delay time to stop the dosing pump from injecting product in event of sensor malfunction.
- Maximum dosing pump flow rate for preventing overdosing.
- Password for protecting programmed data.
- Possibility of alarm connection.

WATER METERS & CONTROL DEVICES

BALANCE TANK INSTALLING DIAGRAM

1. Maximum water level signal in BALANCE TANK for starting the pumping system
2. Minimum water level signal in POOL for opening the electrically operated valve for make-up water.
3. Minimum level signal in BALANCE TANK for shutting down the pumping system.

Electronic operating panel for overflow pool balance tank

For overflow pool. Water level sensor with 2 m cable.

For 2 water levels control panel:

* Minimum safety level for pump operation: The pump stops working if water level doesn't have the minimum set level.
* Top-up level, whereby a signal is sent to the solenoid valve to top up the level of water in the pool. Signal to the valve at 220 V II and 24 V II.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
	12061	1	-	-

3 water level control panel:

* Minimum safety level for pump operation: The pump stops working if water level reaches the minimum set level.
* Water make up level: Gives the solenoid water inlet valve, the opening signal to keep correct water level in balance tank. Solenoid valve signal in 220 V II & 24 V II.
* Forced start-up, so that the pump unit starts up when the balance tank overflows due to a burst pipe or non-return valve failure.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Dual frequency (50/60 Hz)	**12062**	1	-	-

SUCTION AUTOMATIC POOL CLEANERS

Splasher

Splasher is an hydraulic suction cleaner. It's using the pool filtration system to work and collect the debris in the pump pre-filter.

It is simply connected to the skimmer vacuum plate and works at the same time than the pool filtration.

Its membrane system ensures an optimum and quieter performance.

Cleaning areas: floor and walls.
Pool floors types: flat or gentle slopes.
Pool size: up to 9m length.
Filter pump minimum required pressure: 1/2 HP.
Included in pack : 9,6m hose.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Splasher suction cleaner	**66281**	1	5.6	0.05

Mamba

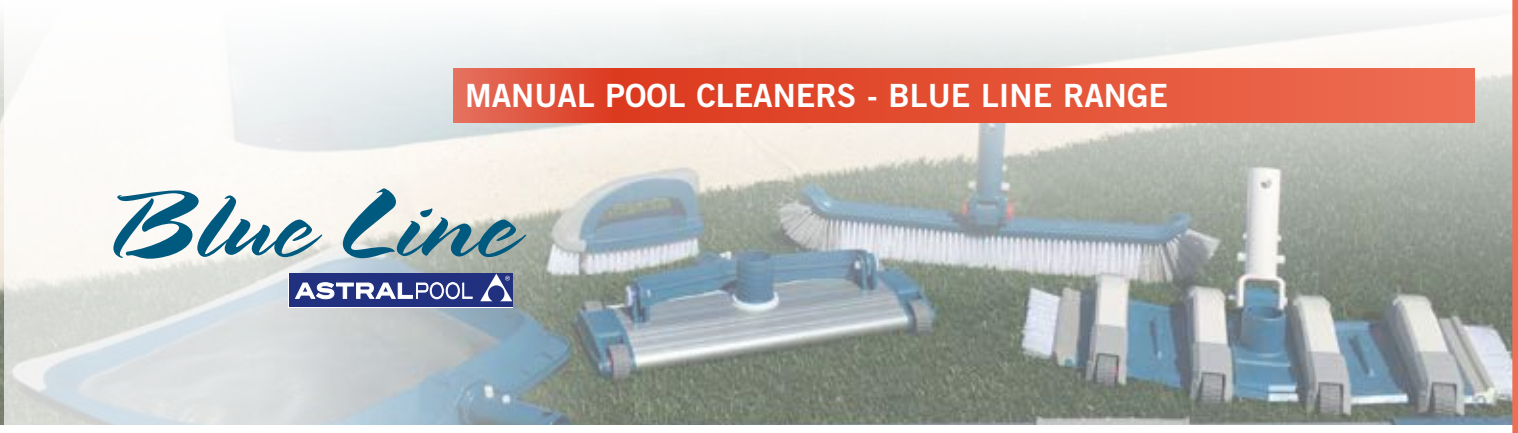

Mamba is an hydraulic suction cleaner. It's using the pool filtration system to work and collect the debris in the pump pre-filter.

It is simply connected to the skimmer vacuum plate and works at the same time than the pool filtration.

The Mamba's dual suction design ensures the pump and filter are never starved of water. The adjustable bypass valve allows for operation from small to large capacity filtration pumps.

Cleaning areas: floor and walls.
Pool floors types: flat or gentle slopes.
Pool size: up to 9m length.
Filter pump minimum required pressure: 1/2 HP.
Included in pack : 12 x 80 cm hose sections, flow regulator, universal adapter.

NET'N'CLEAN INTEGRATED CLEANING SYSTEM

NET 'N' CLEAN Integrated cleaning system

The NET'N'CLEAN is an efficient cleaning system, consisting of a six outlet distributor valve that receives clean water from the filter and distributes it sequentially to a series of nozzles installed on the pool floor.

This type of distribution from the bottom keeps the particles in suspension so they are collected by the skimmer and main drain and retained by the filter. It helps improve the use and efficacy of chemical products injected in the return piping and reduces heating costs by returning hot water along the bottom.

INSTALLATION DIAGRAM

Net'n'Clean distributor valve Ø 50 mm

Six way distribution valve. This valve is part of the Net'n'Clean cleaning system which is integrated in the pool floor. It distributes water sequentially through its various branches. Made of plastic and AISI 316L it has high resistance to salt water. Maximum working pressure: 1.4 bars. Maximum flow: 15 m³/h. Connections: 7 x Ø 50 mm. 2 pop-up nozzles for branch recommended.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Net'n'Clean distributor valve: European model	**21257**	1	1.7	0.015

Net'N'Clean distributor valve Ø 63 mm

Distributor valve optimized for greater hydraulic performance. Maximum working pressure of 1.5 bars. Maximum flow of 25 m³/h. Connections: 7 x Ø 63 mm or 7 x Ø 75 mm. From 2 to 5 nozzles per branch.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Net'N'Clean distributor valve Ø 63 mm	**35079**	1	5.6	0.031

Net'N'Clean reducing wall conduit for nozzles

Reducing conduit to install concrete Net'N'Clean nozzles (26985). Made in white PVC. Ø 50 mm inside & Ø 63 mm outside connections.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
21248	12	7.3	0.032

Ø 90 mm wall conduit

PVC wall conduit. Cutting area of 120 mm for fitting it to the pool wall or floor. Ø 63 or Ø 75 connection, as required.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Ø 90/Ø 63–Ø 75 mm wall conduit	**43590**	9	7.3	0.033

For inlets:
Net'N'Clean: 43584 - 43585
BCN 03: 43586 - 43587 - 43588 - 43589
Return inlet/suction nozzle for high flow rates: 41518 - 41519 - 41520 - 41521

LED LIGHTING - LUMIPLUS

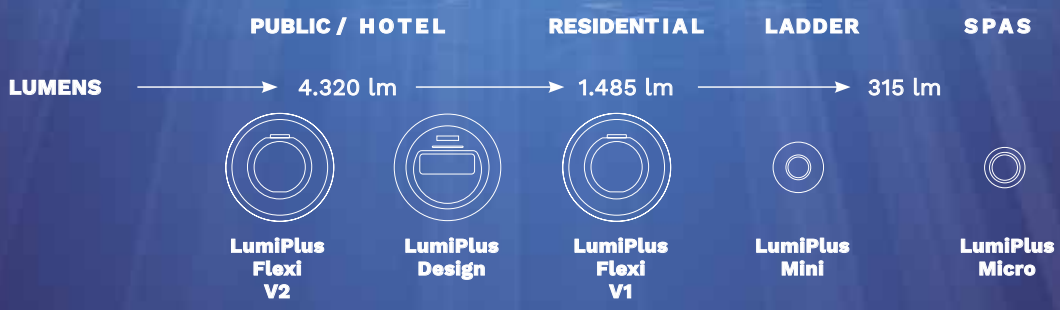

AstralPool LumiPlus is the most extensive family in the market of underwater spotlights for public, commercial and residential pools.

The entire LumiPlus range is made of high-quality LEDs and electronic components, and is manufactured entirely in the EU to European quality standards.

The AstralPool LumiPlus family delivers:

- Greater energy efficiency.
- High performance projectors with top quality lighting (TQL) technology.
- Enhanced energy efficiency in pools thanks to the use of LumiPlus DC lamps and projectors run from a direct current power source (24 V DC).
- Great control over the range with the inclusion of the Internet of Pools (IoP) concept by Fluidra Connect.
- IP68 protection rating.
- L70 50000 hours lifespan.

The most comprehensive range for every type of pool

LED LIGHTING - LUMIPLUS

LumiPlus Flexi projectors - The LED solution that adapts to every type of pool

The family of LumiPlus Flexi spotlights – FlexiNiche, FlexiSlim and FlexiRapid – is characterised by its great adaptability to any type of new-build or existing pool, whether a liner or concrete pool, that can be fitted to niches, on the surface or in bushings. The LumiPlus Flexi system delivers top flexibility. Versions V1 and V2 are ideal for public/hotel pools and residential pools, respectively.

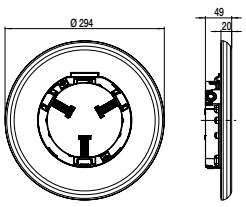

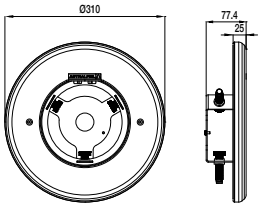

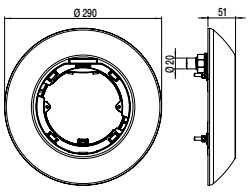

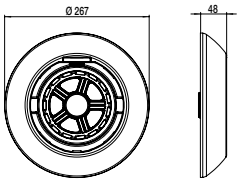

Note: To correctly light a pool, it is advisable to install a LumiPlus Flexi V1 for every 20m² of water surface or a LumiPlus Flexi V2 for every 25m² of water surface. Projectors should always be installed submerged in water.

Available in 2021:

LED LIGHTING - LUMIPLUS

Projector Design

To correctly light a pool it is advisable to install a projector from the LumiPlus Design range every 25 m² of water surface.

Note: this recommendation applies to pools light in colour with white light spotlights, but if there are RGB spotlights more should be fitted. In dark or stainless steel pools it is recommended to use more projectors per m².

Projectors for installation in "Design" type niches (not included)

The RGB model is compatible with LumiPlus ECO, LumiPlus Top, LumiPlus LED APP and LumiPlus Modbus controls. The RGB DMX model requires the LumiPlus DMX 41107 modulator.

Light Colour	Type of faceplate		Consumption	Luminous flux	
	White	Stainless steel effect			
White	59807	59805	45W (50VA)	4320 lm	Rated voltage: 12V AC. IPX8 protection. Includes 2.5 m H07RN-F 2x1.5 mm² cable. Adaptor kit available for other niche types from diameter 180 to 190 mm. Code: 59818 It must always be installed underwater.
RGB	59803	59801	40W (55VA)	2544 lm	
RGB DMX	59811	59809	40W (55VA)	2544 lm

LumiPlus MINI V2 projectors

To correctly light a pool it is advisable to install a projector from the LumiPlus Mini V2 range every 5 m² of water surface. NB: recommendations valid for light coloured pools and white light projectors; oversize in RGB colours. In darker coloured pools or stainless steel pools, we recommend oversizing the proportion of projectors per m².

Projectors may be installed both in and out of the water. Niche according to model; not included and needed to finish the installation. The RGB model is compatible with LumiPlus ECO, LumiPlus Top, LumiPlus LED APP and LumiPlus Modbus controls. The RGB DMX model requires the LumiPlus DMX 52142 controller (see page 262-263).

LED LIGHTING - CONTROL SYSTEMS

System			Codes	Description	Projectors
LumiPlus RGB ECO			**32458**	**The simplest and most economical colour change system.** LumiPlus ECO is a push-button switch that allows 14 modes of operation: 7 fixed colours and 7 different colour sequences. Each time the push button is pressed, the colour or sequence will change. By pressing for several seconds, the light is white. The push button must be sized to withstand the power consumed by the number of lights in the facility. Maximum charge 700 VA. Must be connected in the transformer primary.	Any LumiPlus RGB projector.
LumiPlus WIRELESS	**LumiPlus Control Motion**		**59125**	**Colour change CONTROL in your hand.** The LumiPlus Control Motion remote control enables wireless projector control, directly offering on/off options, 12 colour changes, 8 sequence changes and sequence speed. It also detects movement, letting you activate colours and sequences by vertical and horizontal movements, respectively. Compatible with the LumiPlus Wireless range of projectors only. Can control 2 wireless projectors.	Flexi (ABS body) V1 RGB Wireless PAR56 V1 RGB Wireless * Not compatible with stainless steel FlexiNiche projectors.
	LumiPlus Wireless Range Extender		**64633**	Allows expansion of the signal that the LumiPlus Control Motion sends to the projectors with the wireless control system. Ideal for facilities whose architectural features or projectors installation makes it hard for the LumiPlus Control Motion signal to reach the wireless projectors properly.	
LumiPlus RGB TOP			**27818 + 41988**	**The LumiPlus TOP system for the remote control of pool colour changes.** System comprising the 27818 modulator and 41988 remote control that enables to control a large number of projectors. The modulator has an antenna with a 50m range to receive the signal from the remote control (bought separately). The LumiPlus TOP system enables: • Projector on/off action. • Colour selection: 12 fixed colours available. • Sequence selection: 8 sequences available. • Sequence speed selection: 8 speeds available for each sequence. Supplied separately. A total of 10 LumiPlus modulators can be synchronized.	Any LumiPlus RGB projector.
LumiPlus LED APP LumiPlus WIFI	**Existing installation**		**59131**	**Control your pool lighting from your smartphone.** App to check LumiPlus lights and projectors from an Android or iOS smartphone or tablet. Enables to control your LumiPlus lights or spotlights from your smartphone or tablet. The LumiPlus app should only be installed as an additional feature to the LumiPlus Modulator. It offers a range of 12 colours and 8 sequences or colour change programs. Free app you can download directly from the following sites: Apple: www.lumiplusled-ios.astralpool.com Android: www.lumiplusled-android.astralpool.com 	Any LumiPlus RGB projector
	New installation		**59132**		

LED LIGHTING - CONTROL SYSTEMS

System			Codes	Description	Projectors
LumiPlus Modbus FLUIDRA CONNECT				**Control your pool lighting anywhere, anytime.**	
	Existing installation		57434	The Modbus protocol enables the control of the LumiPlus modulator. It can be used to switch the projectors on and off, change their colours and sequence speed and set the time for putting the projectors in sleep mode. Download the Fluidra Connect app for instant information about the state of your pool 365 days a year. Fluidra Direct is peace of mind, comfort and leisure. In addition to controlling projectors, LumiPlus lets you control the filtration, water treatment and more of your pool through the Modbus protocol. The LumiPlus Modbus should only be installed as an additional feature to the LumiPlus 27818 modulator for correct installation and operation.	Any LumiPlus RGB projector
	New installation		57435		
LumiPlus RGB DMX				**System to prepare lighting scenes for fountains and large aquatic spaces**	
	RGB DMX Modulator		41107	DMX LED projector modulator/12V AC • DMX receiver for the Flexi, PAR56, S-LIM and Design ranges. • Receiving orders from the DMX controller (Astral DMX 74099 or Astral DMX Pro 74500) via the DMX bus and acting on the projectors that are connected.	LumiPlus RGB-DMX projector
	RGB-DMX power pack		52142	Product designed exclusively for use with V2 and V3 Mini LED and RGB DMX Micro projectors. The power pack can control up to 9 projectors, receiving orders from the system's DMX controller (Astral DMX 74099 or Astral DMX Pro 74500) via the DMX bus and acting on the projectors that are connected. The power pack has been designed to be used solely with DMX protocol and 24V DC DMX controllable parts from AstralPool.	
	DMX controller		New 74099	LumiPlus DMX System makes it possible to control lights individually or by groups. Users will have easy and intuitive full control over a projector or group of projectors. Main advantages / benefits: • Very accurate control over the lights: colour and dimming. • Plug and play. • Projectors can be operated independently or combined. • Allows creating new light scenes. • LumiPlus DMX system does not require any additional wiring for projectors. • Smartphone or tablet control via an app.	
	DMX PRO controller		New 74100		

Did you know?

According to EN 2004/35, **broken halogen lamps** should be disposed in special recycling centers.

We do it for YOU

Fluidra is committed to the environment by using sustainable products and practices to protect future generations.

ASTRALPOOL

Did you know?

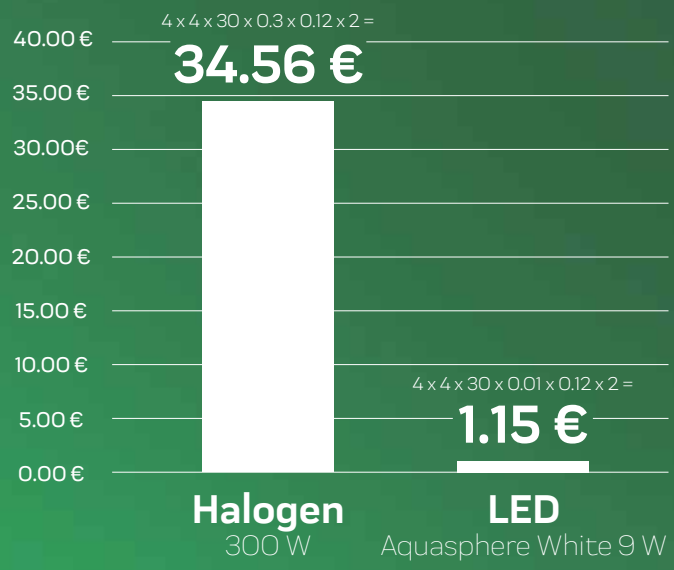

LED lamps power consumption is 30x lower than Halogen lamps* and **LEDs lifespan is 10x** more than Halogen lamps.

DO like 70% of pool builders **& CONTRIBUTE** to the environment

Example of consumption in kW

1 pool with **2 projectors**.
Usage : 4 months / 4 hours per day.
Price of kWh : 0.12 €.

Consumption per season

Power cost difference per season pays the price difference between halogen and LED lamps.

*Note : example taken Lamp PAR56 halogen 300 watts and a Lamp PAR56 9w , color white

ASTRALPOOL

LED LIGHTING - OTHER LED SOLUTIONS

PAR56 underwater lamp, improves energy efficiency compared to the traditional 300 W halogen PAR56 lamp. It must always be installed completely submerged. The lamps PAR56 are directly retrofittable with halogen 300 W lamps / projectors.

2 years warranty. Lifespan of 25000 h.

The RGB lamp is controlled by a remote control, which is included, with a 2 m range and can control 2 lamps. The White lamp does not include remote control.

To correctly light a pool it is advisable to install a light from this range every 15 m² of water surface.

Note: this recommendation applies to pools light in color with white light spotlights, but if there are RGB spotlights more should be fitted. In dark pools it is recommended to use more projectors per m².

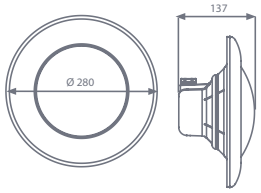

Projectors PAR56 needs a niche (270 page) to complete the installation. Projector Flat to wall installations is delivered with the accessory to install in concrete and polyester pools. To complete the installation in panel pools needs spare part kit 24765-0500.

HALOGEN LIGHTING

Standard light

All plastic materials. PAR56 300W 12V AC halogen lamp.

For correct pool lighting, we recommend: one projector per 25-30 m² of pool area.
Note: This recommendation is valid for light coloured pools. For pools in dark colours or stainless steel, we recommend a higher proportion of projectors per m².

The projector must be always be submerged in water.

Projectors for installation in "standard" niche (included).

Standard light

Seawater-proof

HALOGEN LIGHTING

Mini light

Small underwater projector. GX-5.3 50W 12V AC aluminized halogen lamp.

For correct pool lighting, we recommend one projector per 10 m^2 of pool area.
Note: This recommendation is valid for light coloured pools. For pools in dark colours or stainless steel, we recommend a higher proportion of projectors per m^2.

The projector must be always be submerged in water.

Projectors for installation in bushings or niche, depending on model (not included). To complete the installation the right housing should be purchased for each type of pool (see page 270).

TRANSFORMERS AND ACCESSORIES

More compact
More functional
Specially designed for lighting up fountains and pools.

Transformers for pool and fountain lighting

- Compact design.
- Suitable for all types of circuit board.
- Quick and easy installation.
- Connection via terminals protected against indirect contacts.
- Up to 40 m between the spotlight and transformer.
- Made in compliance with Standard UNE-EN-61558-2-6.
- IP-20 protection rating.
- Age-resistant housing.

AQUARMONY UNDERWATER MUSIC SYSTEM

Aquarmony Loudspeaker

With frontal installation. To listen to music and voice underwater creating a magical and different atmosphere. Aquarmony is a sealed waterproof loudspeaker designed for your pool. It is made of high quality components, innovative technology and with an assembly system assuring a correct operation in salt water or with a high Chlorine content. Easy installation.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Aquarmony Loudspeaker	**25680**	-	-	-
Niche for concrete pool	**00349**	-	-	-
Niche for liner pool	**00364**	-	-	-

Note: The niches come with a stuffing box assembly and a 1.5-m cable grommet specially designed for the Aquarmony range

TECHNICAL FEATURES	
Maximum power	60 W
Impedance	4 ohm
Frequency	200-12000 Hz
Maximum area per loudspeaker	80 m^2
Maximum installation depth	40 cm
Weight	5 Kg
Cable length supplied	5 m

Amplifier and loudspeakers - RK400S

Built-in SELV power pack with all required protection ratings and safety systems.

- Fully insulated input and output ports, in compliance with standard ENV 61558-1 CEI EN 64-8/7, Section 702.
- RCA stereo input port compatible with any source (CD player, MP3 player, smartphone, etc.).
- Input and output XLR link for connecting other RK400-S devices together.
- Automated equalizers and limiters specially redesigned by Aquarmony.
- Automatic gain control, which does not require volume buttons.
- Four 60 W RMS amplifiers that work separately.
- Output though a gold-plated screw connector.
- On/off and signal display light.

SOPREMA POOL 180/100 AND 150/100 REINFORCED LINER

Optimal weldability.

U.V. ray resistance.

Resistance against microorganisms with "Bio Shield" treatment.

Insensitivity to hot-cold cycles.

SOPREMA

SOPREMA, world leader in waterproofing solutions, offers a big range of reinforced membranes PVC for swimming pools.

4-LAYER MEMBRANE

Synthetic reinforced PVC membranes manufactured by impregnation with high quality raw materials (resins, plasticizers, stabilizers and pigments).

Composed of 4 layers with different and complementary formulations, introducing a polyester reinforcement between the second and third layers.

This reinforcement provides the membrane with great tensile strength and high dimensional stability.

«BIO-SHIELD» TREATMENT

Its formulation with "BIO-SHIELD" treatment guarantees total resistance to the formation of microorganisms and prevents any molecular change.

GUARANTEE

The minimum guarantee offered for all membranes is 10 years. Depending on the type of membrane, the guarantees are extended. Consult the details of the extended guarantees on each line.

3D membrane

THE +

+ attractive and aesthetic
+ fast installation
+ sensory experience

The 3D range replicates the feeling and the aesthetic aspects of mosaics and natural materials. The relief motifs, of great aesthetic appeal, are a plus to the characteristic advantages of reinforced PVC cladding: a simple and quick installation and a great protective and waterproofing capacity. All 3D membranes comply with EN 15836 and DIN 51097 anti-slip regulations.

ALKORPLAN 200/100 REINFORCED LINER

ALKORPLAN CERAMICS

SLIP RESISTANCE Category C

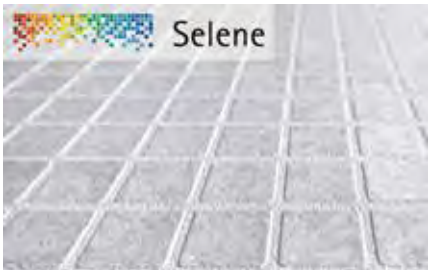

GUARANTEE 10 years WATERTIGHTNESS

ALKORPLAN CERAMICS reinforced membrane

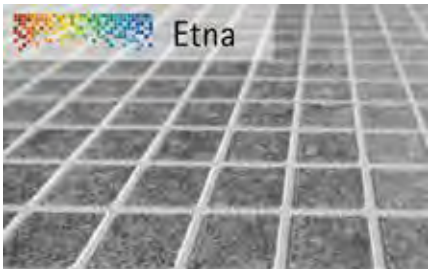

ALKORPLAN CERAMICS is a reinforced 2-mm embossed membrane for pools that imitates the volume of real glass tiling and its joints to look like a mosaic inspired in Greek mythology.

Advantages:

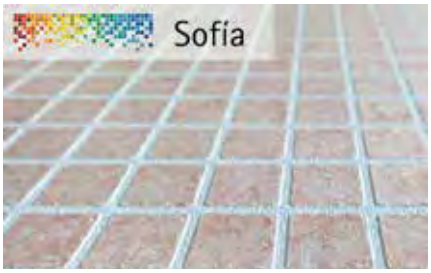

- Watertightness guaranteed.
- Quick to fit in comparison with glass tiling.
- The ceramic pieces on ALKORPLAN CERAMICS do not fall off.
- Minimum maintenance.
- More resistant and long-lasting thanks to its 2-mm thickness.
- Embossed coating that makes it look like real glass tiling.

ALKORPLAN 150/100 REINFORCED LINER

ALKORPLAN XTREME
Pools that stand up to anything!!

ALKORPLAN XTREME membrane

ALKORPLAN XTREME is the only reinforced membrane in the market whose colour is resistant to chlorine and stains, even those that usually form on the waterline.

ALKORPLAN XTREME is a smooth, flexible and robust reinforced membrane, thanks to the most advanced technological developments, and it has been made to resist the wear and tear inherent to the daily use of a pool. It is even resistant if there is a continuous large influx of swimmers in a pool and aggressive chemical products are used to treat it.

ALKORPLAN LINER ACCESSORIES

Sealant ALKORFIX MS-Polymer based multipurpose fixer

Complete range of MS-polymers in different colours in order to be combined with all our reinforced pool liners **TOUCH** and with most of our other ranges.

MS-polymers not only serve to seal the membrane with the pool coping but also to chemically mount the anchoring to the walls provided that there is a mechanical mounting. It is also suitable for provisional repairs when the pool is filled.

Description	Contents (ml/drum*)	Packaging	Colour	Code
Ms-polymer based multipurpose fixern TOUCH Relax, 2000 Sand and XTREME Sahara	300	12 units per box	Sand	**72726**

Ms-polymer based multipurpose fixer TOUCH Prestige, XTREME Silver, 2000 Light Grey and 3000 Platinum	300	12 units per box	Light Grey	**72729**

ALKORPLAN geotextile fungicide

Felt made up of 400 g/m^2 light blue heat-welded polypropylene fibres treated with metal ion anti-bacterial organic additives to act as a stable fungicide. It is used as a protective layer between the ALKORPLAN membrane and the pool surface to prevent the proliferations of bacteria, fungi and micro-organisms, as well as imitating the irregular embossed surfaces that the pool may have had before fitting the liner. Bathers also find the bottom of the pool much more pleasant when they walk on the membrane.

Description	Width	LENGTH	Colour	Code
ALKORPLAN geotextile fungicide of 400 g/m^2 for butt welding	1.50 m	50 m	Light Blue	**69179**
ALKORPLAN geotextile fungicide 400 g/m^2	1.65 m	50 m	Light Blue	**66381**
ALKORPLAN geotextile fungicide 400 g/m^2	2.00 m	50 m	Light Blue	**66382**

LINER ACCESSORIES

EASYCOLOR - Inlet Sheath

This new kit of inlet sheath allows to change the color, both the embellisher and the floater. This sheath could be installed without change the skimmer mouth what is very practical to renew or upgrade pools. This kit includes inlet sheath, floater, flanges and embellisher.

Skimmer Adaptor: Skimmer Solution

The skimmer adaptor replaces the need to remove the previous skimmer, as it is inserted into the previous skimmer and sealed using ABS glue or marine silicone. It is only suitable for skimmers with an internal opening of 140 mm x 201 mm

ALKORCLEAN waterline degreaser and ALKORPLUS stain remover

The ALKORCLEAN degreaser is recommended for removing grease from the waterline, while the ALKORPLUS stain remover neutralises metal ions in the water such as copper.

The ALKORPLUS stain remover is a liquid to prevent stains by preventing dirt forming on the waterline.

LINERS FOR STAIRS

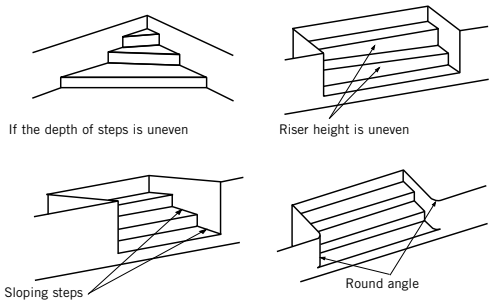

For steps that do not fit the Standard models shown here, request quote.

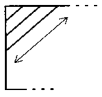

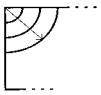

Below we provide you with the details of the shapes and models you can choose from plain or printed liners to ensure you select the correct liner for your pool steps. Steps that are fitted along the breadth of the basin are invoiced in accordance with the standard model STRAIGHT as long as the width does not exceed 4 meters. Attention: the size of the basin should not include the depth of the steps.

CONDITIONS FOR ACCEPTING AN ORDER

Note: The colours shown in the catalogue are approximate

Order:

All orders or enquiries for modifying orders must be made in writing.
For avoiding any delay, the client, at his own risk, must forward the supplier all the necessary liner measurements for executing the work. In case the information supplied by the client is insufficient, he will have to supply the missing information ahead of the manufacturing time.

Implicit data:

If the following information is not supplied in writing with the order, we shall consider the below mentioned data for the liner manufacture:

* Vertical radii of 15 cm.
* Horizontal radii of a maximum of 5 cm (in the pool shell only). Hung-type fastening system.
* The horizontal measurements taken from the pool shell.
* The depth measurements taken from the lower part of the pool's coping stone to the base of the wall.
* The diagonal measurements taken of the right angles, not of the radii.

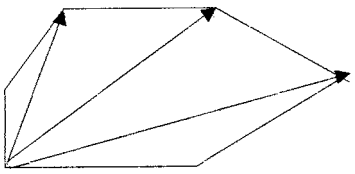

To avoid certain misunderstandings, we suggest you take the following precautions:

For holding the liner:
* Specify the type (hung, overlap or V-fasteners); we anticipate that an additional 15 cm of material will be required for the walls if the overlap fastening system is used.

For steps:
* Check whether the angles between the step tread and rise (flat and vertical step surfaces) are truly rectilinear.
* Installation of a discharge nozzle in the middle of the first step is highly recommended for holding the liner in place.
* At least 30 cm of water should be left in the pool for maintaining the first step.
* Avoid designing staircases having more than 5 steps.
* To confirm dimensions, give the lengths of each step.
* Check the verticality of pool walls. In case of deficient plumbness, enquire about the order viability.
* Compound inclination safety ledges should be avoided on the liner.

Taking measurements:

Provide the total lengths and widths.
* All heights of the pool shell.
* Width of the safety step on each side.
* Specify the peripheral size of each side.
* Provide the measurements of each corner and slope.
* All dimensions should be provided with horizontal and/or vertical measurements.

If angles are not straight:

* Measure all of the diagonals from a single point.
* The diagonals of the right angles are only required for irregular shaped pools without right angles.

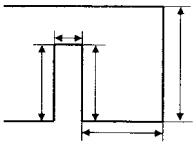

Calculation of arcs of circles:

* The arcs of circles are calculated by their radius.
* If the radius has not been calculated, a template must be used or the triangulation must be calculated to specify it.
* Ellipses are calculated using templates (or a grid plan made at intervals of approximately 1 m).

Sectional views:

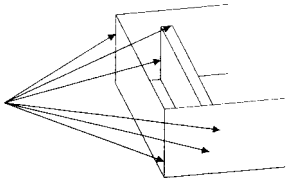

* Three views are recommended: a top view, a front view and a side view.

Templates:

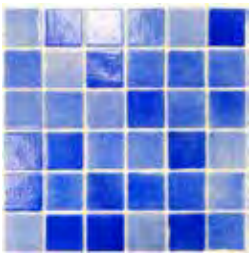

* Make templates for the sky and water sides (or one view).
* Templates are made for the pool's shell or cover.

Shuttering:

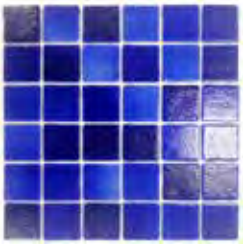

* Specify the measurements of the shuttering as shown in the diagram.
* Check that the inside vertical angles of the shutterings are straight.
* Check that vertical pool shell angles shuttering are in a straight line.
* Check that the horizontal angle of the wall and shuttering are in a straight line.

Freefrom pool types

Freeforms

Any non-standard shape requiring a template for manufacture will be considered free-form.

Describes the basin shape in a rectangle; L is length and I is height.
Surface area: S = L x I

Shapes must be measured correctly for adaption to established templates. If the basin is free-form and standard templates cannot be used, an additional amount will be applied.

Templates must be checked in-factory and with the lines perfectly visible in order to prevent against misinterpretations.

THERMAL COVERS - FOAM

FOAM

Classification: Covers are classified as standard, non-standard or free-form, based on the different shapes defined in the catalogue.

- **Eco models are trimmed on both width sides.**
- **Deluxe models have a perimeter trim.**

5 mm foam model

Composition: Material based on cross-linked polyethylene foam.

- **Joint:** Thermal welding with double-sided polyethylene tape.
- **Edges:** Sewn PVC trim.
- **Eco model:** Trimmed on both width sides
- **Deluxe model:** Perimeter trim.
- **Fastening:** Eyelets at either end on primary width side.
  Eyelets approx. every 65 cm on secondary width side.
- **Composition:** Nickel-plated brass eyelet.
- **Option:** Polyethylene foam floating reinforcement on width side.
- **Packaging:** Supplied rolled up with a protective cover.
- **Thickness:** 5 mm.

REINFORCED PVC PROTECTION COVERS

Safety cover to prevent children under 5 from getting into the pool. Compliant with standard NFP 90-308. For in-ground pool max. 11 x 5 metres (+ ladder). Allow at least 30 cm on each side of the pool (e.g., pool of 10 x 5 metres, cover of 10.60 x 5.60 m). Can be used all year round as it protects the pool from dirt in summer and winter and diminishes the proliferation of bacteria and algae.

Tramuntana cover

- **Composition:** 580 g/m^2 PVC cloth reinforced with aluminium rods approx. every 1.50 m.
- **Joint**: High frequency weld.
- **Edges:** 6 cm double-edge welded along the whole length with anti-lift tapes inside.
- **Reinforcements:** Anti-abrasion PVC slides in each rod at the level of the coping.
- **Fastenings:** Tapes and stainless steel hooks. Cylindrical stainless steel/aluminium stakes.
- **Drainage:** Holes for draining rainwater across the whole width of each rod.
- **Rolling:** 1 or 2 cranks, depending on cover size.
- **Packaging:** Cardboard and instruction handbook.

STORAGE ROLLERS FOR COVERS

Roller supports for larger pools

Suitable for fixed roller pipes 07622, 07623 and 07624 or telescopic pipes 07625 and 07626, with 1, 2 or 3 rollers and steering wheels and rotating bar wheel for handling covers. Contains of 2 Stainless Steel AISI-304 structures with wheels (1 set with brakes) to move the roller. Includes 8 straps per roller.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
2 mobile supports with 1 roller pipe	**15836**	1	36.4	0.937
2 mobile supports with 2 roller pipes	**15835**	1	27.4	1.46
2 mobile supports with 3 roller pipes	**15834**	1	28.4	1.46

Mobile supports with 1 pipe. - Dimensions in mm.

Mobile supports with 2 and 3 roller pipes. - Dimensions in mm.

AUTOMATIC COVERS

The AstralPool automatic cover

AstralPool is continually incorporating the latest innovations to its products in matters of safety. As such the automatic pool covers have been developed to meet the demands of the French standard NF P90 308, which guarantees maximum user safety.

The AstralPool automatic covers cover the whole pool and are easily rolled up or spread thanks to their built-in motorized roller. The turning of a key is all that is needed to get it working.

Manufactured in rigid slats available in various colours, the design and composition produce a floating cover that fits over the entire pool and makes for very effective heat insulation. We have seven models to cover the equipment needs of new and existing pools: the submerged Roussillon models, the above-ground Carlit models and the above-ground model with a bench, Capcir.

Roussillon submerged automatic models allow for seamless integration with the pool. The roller mechanism is located in a separate sunken compartment sectioned off from the pool by a brick or PVC panel.

The above-ground models (Carlit) are ideal for already existing pools as the winding shaft is fastened in place to the pool decking.

The above-ground models with protective casing (Narbonne) are the basic above-ground models which can be complemented with a bench that covers the mechanical installation, giving it a high-quality finish. For installation in existing swimming pools.

Main advantages

- Increased safety in the swimming pool to protect people and pets from falling accidentally into it. The floating slats cover the entire water surface.*
- Very convenient to use, the swimming pool is covered and uncovered in silence by simply turning a key.
- Represents considerable savings:
    - It acts as a thermal barrier preventing heat losses and extending the pool use season.
    - It is a basic complement for pool heating.
    - It prevents evaporation, therefore it saves water.
    - It reduces algae formation, which results in an important saving in chemical products.
- In indoor pools no condensation is produced in the enclosed hall, thus avoiding deterioration of building materials.
- Lower maintenance costs: reduction of suspended particles.
- The automatic cover enables greater customisation of the swimming pool, increasing its value.

AstralPool service

- The wide AstralPool commercial network offers immediate service.
- We offer our clients pre- and post-sales technical assessment.
- The manufacturing technical sheet will be used to make a cover which is perfectly adapted to your needs.
- All AstralPool covers undergo strict quality control based on the most demanding regulations.
- Assembly and Civil Engineering Manuals are available to allow building the swimming pool with the ideal requirements for subsequent installation of the submerged cover.

(*) Our automatic covers comply with the requirements of the French standard NF P90-308 which demands the use of standardized safety mechanisms to prevent the risk of drowning by accidental falls into the pool.

AUTOMATIC COVERS

Advice for use and winterizing

We recommend to follow these basic indications to obtain the optimum performance from the automatic cover:

- Before operating the cover you must ensure that nobody is in the swimming pool and that there are no objects that could become obstacles to its normal operation.
- Maintaining the correct water level is also important, as a level which is too high or too low can cause blockages at the tie beam, partition or the steps.
- During the retrieving and expanding operations the cover should not be blocked, as this action could be dangerous as well as harmful to the operating mechanism.
- If an automatic pool floor cleaner is used make sure that when the cover is extended neither the hose nor the power supply cable is caught up.
- Regular cleaning of the cover with a pressure cleaning device or with a PVC descaling liquid is recommended. This will also prevent leaves from settling on the cover which could otherwise stain the slats.
- In the case of a hail storm we recommend that you retrieve the cover.
- In the Roussillon submerged model we recommend that you always keep the motor housing dry to prevent the geared motor from getting wet.

For good winterization, and in order to find the pool in the best conditions in the spring, we recommend to follow the following indications:

- Leave the cover extended over the water surface.
- Keep the water level constant. An excess should be drained through the main drain or the skimmer box.
- It is advisable to clean the trapdoor and the motor housing with a high pressure cleaner before the pool is winterized.
- Place a number of anti-freeze floats in the trapdoor casing, behind the cover. The skimmers should also be protected in the same way.
- We recommend the installation of a plastic type cover to prevent leaves and other substances from obstructing the trapdoor, which should be cleaned regularly.
- In the case of freezing, avoid forcing or pressing down hard on the slats as they could be damaged.
- If the motor is in risk of flooding it is advisable to cut off the power supply and remove the motor.

Automatic cover price calculation

How to calculate the price of an above-ground cover

The basic elements to calculate the above-ground cover are:

1. Mechanical kit
2. Slats
3. Ladder
4. Safety system
5. Postage and packaging

How to calculate the price of a submerged cover

The basic elements to calculate the submerged cover are:

1. Mechanical kit
2. Embedding kit
3. Tie beam and brackets
4. Kink-proof bracket (when necessary)
5. Partition and brackets
6. Slats
7. Ladder
8. Safety system
9. Postage and packaging

AUTOMATIC COVERS: ABOVE-GROUND MODELS

Zen'It bench

The new AstralPool ZEN'IT bench fits any above-ground automatic covers.
Original 3 in 1: to cover the roller and the stander, to store equipment, to add value to the pool. Bench manufactured with quality materials in powder-coated aluminium, Stainless steel and exotic wood.

Easy-to-mount, in kit. No handling equipment necessary.

Length of 1 module: 1,2 m

Max. Length of the cover: 9 m with special roller stander.

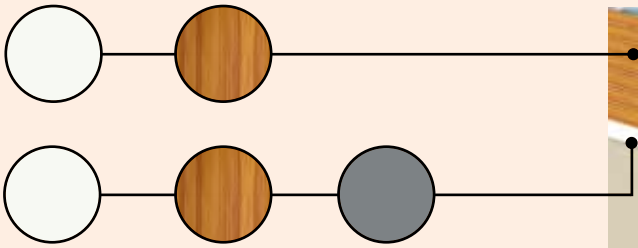

Sold with or without above-ground roller – contact us for more info.

- **Trendy design**
- **Supplied in kits, easy-to-mount**
- **Multi-purpose**

Access to the skimmers and mechanical parts

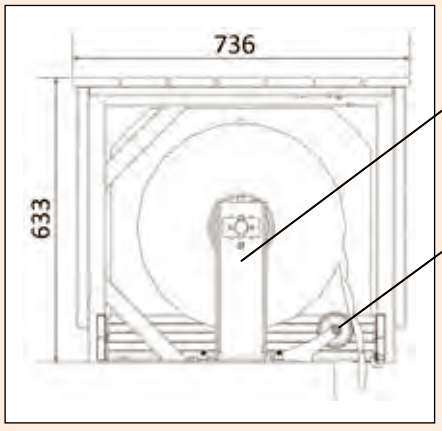

Different finishes available

With storage area

Overall dimensions

Space saving stander, reducing the footprint of the roller

Guiding system: reduced footprint over the pool

Complete bench shipped on a Euro pallet

Mounting time: 30 min/module
No need for handling equipment

Number of modules	3	4	5	6
Total bench length	3.56 m	4.77 m	5.97 m	7.17 m
Max pool width	3.01 m	4.22 m	5.42 m	6 m

AUTOMATIC COVERS: ABOVE-GROUND MODELS

N-Carlit above-ground model

Automatic above-ground cover perfect for existing pools with limit switch up to:
- 3 x 18 m + stairs
- 4 x 17 m + stairs
- 5 x 17 m + stairs
- 6 x 16 m + stairs
- up to 7 x 14 m plus ladder

Note that as it is an above-ground model cover, the storage rollers must be placed out of the pool, fixed to the floor.

MECHANICAL KIT:

Consists of:
- Two white or sand stainless steel stands.
- Ø 146 mm anodized aluminium roller shaft.
- 24V tubular motor with limit switch adjustment.
- Key switch with self-return to 0 point.
- Switchboard with 220/24V transformer.

AUTOMATIC COVERS: ABOVE-GROUND MODELS

Carlit Solar Pool cover

The automatic solar pool cover Carlit runs on solar energy, making it a very environmentally-friendly product. It reduces water evaporation and heat loss in your pool. The cover also minimizes premature evaporation of pool chemicals. Certified by the French standard NF 90-308, the Carlit solar pool cover guarantees higher quality, reducing possible accidents arising from children, animals, or objects falling into the water.

Main advantages:

- Simplified installation, no wiring required (power supply via solar energy).
- 40-cycle independence: once the battery is fully charged, in the absence of further light the cover can be extended and 40-cycle autonomy: once the battery is charged and in absence of light, you can open and close the cover 40 times.
- Easy to use cover with low maintenance costs.

General features:

- Covers pools up to 6 x 12m with a ladder.
- Solar-powered roller. One bracket fitted with a photovoltaic cell.
- Tubular 60 Nm or 120 Nm 24 V depending of the dimensions of the pool geared motor. Anodized aluminium pipe.
- Mechanical limit switch.
- Four different colours for slats and caps: white, sand, grey and medium grey.
- Two 12 volt batteries.

Mechanical kit	Code
Mechanical kit up to 4 m (up to 4 x 12 m)	**35917**
Mechanical kit up to 5 m (up to 5 x 12 m)	**35918**
Mechanical kit up to 6 m (up to6 x 12 m)	**35919**

AUTOMATIC COVERS: ABOVE-GROUND MODELS

Borna municipal model

It is intended to be installed in municipal indoor or outdoor pools of 12.5 x 25 meters maximum. It can be used for bubble or reinforced polyethylene foam covers. The distance between the roller shaft and the pool edges must be reduced as much as possible to prevent abnormal wear and tear due to the friction on the coping.

Technical features:

- 250 Nm 24V motor.
- 300 mm stainless steel shaft.
- Thermoplastic bushing with stainless steel bearing.
- Stand with a protective layer in thermoformed ABS.
- Remote control + Key.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Mechanical kit up to 12.5 m (max. 12.5 x 25 m)	**38734**	-	-	-

Double municipal model

Makes it possible to cover municipal pools up to 15 x 25 m with bubble or polyethylene foam covers. 6.03 x 25 m.

Technical features:

- 2 x 120 Nm 24V tubular motors.
- 2 aluminium shafts.
- 6 wheels.
- Remote control + Key

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Width ≤6.03m Length ≤ 25m	**41441**	-	-	-
Width ≤8.03m Length ≤ 25m	**41442**	-	-	-

AUTOMATIC COVERS: SUBMERGED MODELS

Roussillon submerged model: dry well motor

The Roussillon automatic cover is the submerged model which incorporates the motor in a separate sunken compartment and both the winding shaft as well as the cover are housed inside the pool at one end. The Roussillon model can cover an indoor pool up to 11 x 20 m².

The submerged pit containing the roller shaft from the main pool should be separated from the main pool by a small concrete partition at the time of construction or with a PVC partition later on.
The basic elements for assembling the cover are the slats, the step slats, the mechanical kit, the embedding kit, the aluminium tie beam and the pit cover.

24 V geared motor

220/24 V switchboard

Solution valid for a mechanical installation up to a maximum depth of 55 cm of the water level. For greater depths, please enquire.

MECHANICAL KIT

Includes the following elements:

- Extruded aluminium or stainless steel shaft.
- Motor stand.
- Watertight gaskets on bushing side.
- Watertight gaskets on bearing stand side.
- 24V reducer motor with stainless steel stand.
- 220/24V standard switchboard.
- On-off key switch with key. Should be installed in full view of the pool. Works by continuous turning of the key.

Embedding kit for a standard installation 55 cm above the water level.
Should the shaft have to be installed at a greater height, please consult us.

Extruded aluminium shaft

On-off key switch

KINK-PROOF SUPPORT FOR EMBEDDED BEAM

KINK-PROOF SUPPORT TO BE MOUNTED ON WALL	
DIMENSION of pit cover in mm	**Code**
615 ≤ Dim. ≤ 1015	**61678**
1016 ≤ Dim. ≤ 1460	**61682**

Supports must be used if the inner width of the pool shell is > 4 m.
The number of supports to be used is set out in the table below.

PRACTICAL INFORMATION		
Pool shell width	**Number of beams required**	**Number of kink-proof supports required**
Width ≤ 4 m	1 beam	0
4 m ≤ Width ≤ 6.03 m	1 beam	1
6.03 m ≤ Width ≤ 8.03 m	1 beam	2
8.03 m ≤ Width ≤ 9.03 m	1 beam of 4 m + 1 beam of 5 m	3
9.03 m ≤ Width ≤ 10.03 m	2 beams of 5 m	3
10.03 m ≤ Width ≤ 11.03 m	2 beams of 6 m	4

SAFETY SYSTEMS

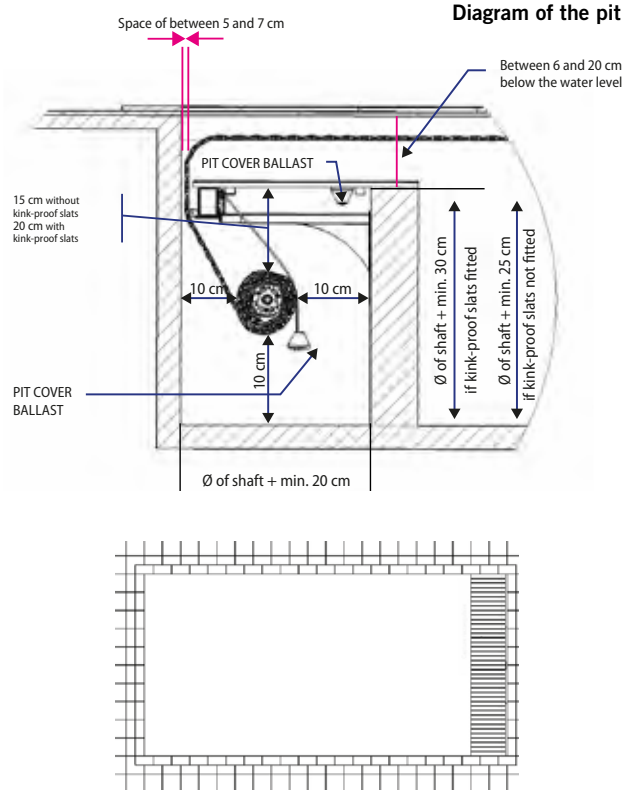

Place the safety system on the shaft side and the step side IF THE DEPTH between the water level and pit cover is > 20 cm.

The pool may have beams on the corners of a maximum of 4 cm, in compliance with standard NF 90-308.

In the case of larger beams, the beam of the wall side must be brought forward by the same distance.

The clearance between the wall and the beam must be greater than 7 cm, otherwise it will not comply with standard NF 90-308.

Diagram of the pit

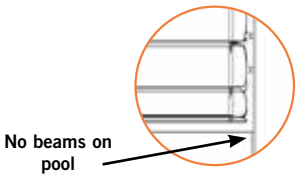

Dimensions to be taken into account

A space measuring the height of at least the diameter of the cover when rolled plus 30 cm must be left free.

The inner width of the pit must be wider than the diameter of the shaft plus 20 cm (see diagram).

The clearance for the cover between the wall and the back of the pit cover must be between 5 and 7 cm, in compliance with standard NF 90-308.

The depth of the pit cover is up to the user. It should be at least 6 cm so that the cover works properly, and a maximum of 20 cm, in compliance with standard NF 90-308.

AUTOMATIC COVERS: SUBMERGED MODELS

Roussillon submerged model: motor in the shaft

The motor is integrated inside the winding shaft and can be installed in already-built pools up to 8 metres wide.

It can cover an indoor pool up to 8 x 12 m.

As in the Roussillon model the submerged part containing the roller shaft should be separated by a small concrete partition at the time of construction or later with a PVC partition. The slat colours available for both models are white, beige and opaque blue.

The Conflent mechanism may be fitted:
- Below the coping stone.
- Against the wall.

Mechanical system

Max. pool dimensions	Motor	Code
Pool 4 x 12 m	(shaft with limit switch)	**33070**
Pool 5 x 12 m	(shaft with limit switch)	**33072**
Pool 6 x 12 m	(shaft with limit switch)	**33073**
Pool 7 x 14 m	(shaft with limit switch)	**33906**

Solution valid for a mechanical installation up to a maximum depth of 55 cm of the water level. For greater depths, please enquire.

Roussillon submerged model: motor at water level

This submerged automatic cover is specially designed for new-build or existing pools up to 6 metres wide. The IP68 motor (watertight) is situated above the water level and below the lid => easy motor access => better maintenance.

The submerged zone containing the roller shaft can be separated by a small concrete partition at the time of construction or with a PVC partition later on.

It has the same technical features as the dry well Roussillon motor: Easy to install in existing and new-build pools. Seamless integration with pool surround. Easy maintenance as the motor is situated at the water level.

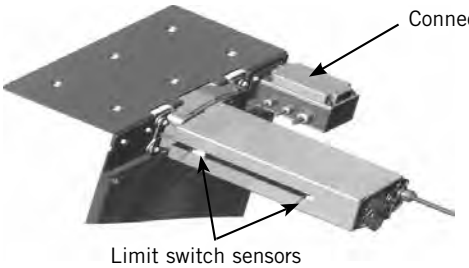

The mechanics are made up of:
- 150 Nm motor equipped with a limit switch system.
- 2 stainless steel brackets: bearing part and motor part with only the gear transmission.
- A 220 V/24 V power supply unit with a remote key switch.

Embedded pit covers : 2 SOLUTIONS

Solution 1: WOODEN PIT COVERS

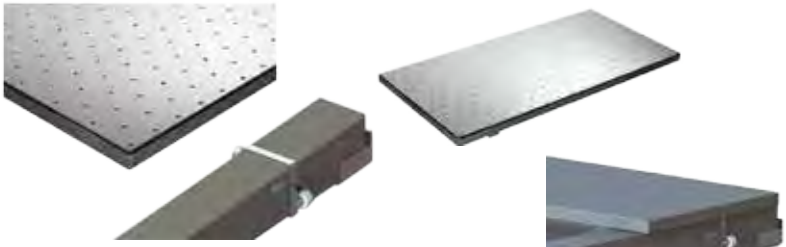

- Specific to this solution as they are ballasted not to float.
- A hook should be fastened to each slat. The hooks should be inserted into the groove on the beam so that they do not move out of place.
- Wooden pit covers are delivered in 500 cm wide sheets.

Size	Code
700 mm x 1000 mm	**61826**
950 mm x 1000 mm	**61801**
Made to measure	**61816**

Solution 2: STAINLESS STEEL PIT COVERS / BEAMS

EMBEDDED BEAM + KINK-PROOF SUPPORTS

Embedded beam + 2 beam support housings.

- Available in white only.
- 80 x 120 mm cross-section.
- In aluminium with PVC sleeve.
- Weight of 5.4 kg/ml.

PVC PARTITION

The partition can be made of concrete or PVC. It is designed to improve safety by preventing bathers from coming into contact with the roller shaft. It also prevents the pool-floor cleaning hose from being rolled up into the slats.

The partition is made up of 250 mm high PVC panels, internally reinforced with stainless steel. It is fastened with two white coated stainless steel U clamps, which are fastened to the tie beam support bracket.
Will be fastened to vertical walls.

For pools of more than 6 m width ask your AstralPool branch.

MEDIUM GREY

PVC slats

The AstralPool automatic cover uses hollow extrusion PVC watertight slats. The end-caps welded at both ends ensure the tightness of the slats and the 20mm wide cap flaps can assure the total length of the slat. Flaps can also be 10 or 30 mm, altering the total width of the pool cover.

The slats measure 71.4 mm long and are 17 mm thick, so that they are able to float. To prevent stains, particularly organic ones, the slats are stabilized with calcium and zinc.

To ensure a cover blends in with its surroundings, a number of slat models are available: white, sand, blue and grey.

AUTOMATIC COVERS: STEP SLATS

Step slats

In order to adapt to any swimming pool shape, three different standard geometric shapes are available, thus ensuring a perfect fit to the outline of a pool and maximum safety.

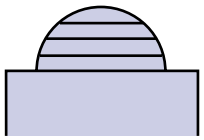

The shapes available are: Roman steps, Straight steps and Trapezoidal steps.

METHOD FOR CALCULATING STEPS SLATS

ROMAN STEPS

Location:
It must be located on the side opposite to the cover shaft.

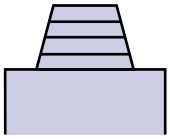

Step price:
Roman step pricelist.

ISOSCELES TRAPEZOIDAL STEPS

Location:
Located in front of the cover.

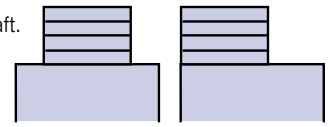

Step price:
Trapezoidal step pricelist.

STRAIGHT STEPS

Location:
a) Located in front of the cover shaft.

Step price:
Straight step price.

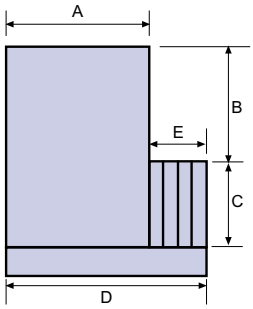

Location:
b) Located next to the cover.

Step price:
Slat pricelist per metre length
D x (C + 1 m).

• The length of the shaft (D) includes the width of the pool (A) + the depth of the steps (E).

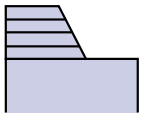

NOTE FOR SIDE STEPS:
Total slat cost calculation:
Step price + slat price (A x B)

RECTANGULAR TRAPEZOIDAL STEPS

Location:
a) Located in front of the cover shaft.

Step price:
Trapezoidal step pricelist.

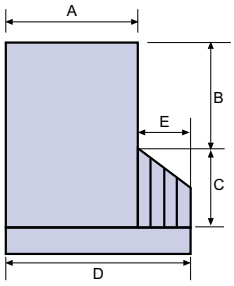

Location:
b) Located next to the cover.

Step price:
Slat price per metre length
D x (C + 1 m) + slat cutting surcharge for custom cutting per metre length.

• Length of D axis includes A length of pool + E depth of step

NOTE FOR SIDE STEPS:
Total slat cost calculation:
Step price + slat price (A x B)

Norme NF 90-308

Polycarbonate slats

Main advantages of polycarbonate slats:

- Strong impact resistance: Polycarbonate slats are approximately 8 times more resistant than PVC slats.
- Heat resistance: the deformation point is 140º compared to 80º for PVC.
- Very good ageing resistance thanks to UV protection layer on the top of the slat.
- Polycarbonate's lower density means the slats float better.
- Compliant with standard NF P 90-308.
- 3-year warranty
- Slat dimensions: 71 x 17 mm.

AUTOMATIC COVERS: WIRELESS REMOTE CONTROLS WITH KEY

65931

65932

The days of performing stunts to open and close your cover are over!

In compliance with the French standard NF P90-308 for swimming pool covers the following straps will be supplied according to depending on the kind of cover and the swimming pool:

Wireless remote control with key

- Easy to install.
- No power supply required.
- Compatible with all AstralPool automatic covers.

Characteristics of the control box:

- Size: 82 x 72 x 74 mm.
- IP67.
- Power supply: One 9 V PP3 battery.
- Autonomy of battery: 1 year.
- Range: 15 metres.

Characteristics of the receptor:

- Size: 142.60 x 102.60 x 57 mm.
- IP55.
- Power supply: 12 to 24 VDC or 24 VAC.

Installation:

- The control box must be secured in a place from which all of the pool can be seen by the user.
- The receptor should be connected to the switchboard in the case of a submerged cover or directly to the motor in the case of an above-ground cover (the receptor must be place at the foot of the roller).

Warranty: 3 years.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3

AUTOMATIC COVERS: WIRELESS REMOTE CONTROLS WITH KEY

Wireless remote control with key for submerged covers

Wireless remote control with key and stainless steel front plate Can replace the existing key switch used for submerged automatic covers.

- Wall assembly.
- Easy to install.
- No power supply required.
- Compatible with all AstralPool submerged automatic covers.
- 3-position key switch.
- Stainless steel front plate.
- Metal housing.
- IP54.
- Dimensions: L. 75 x D. 52 x H. 75 mm.
- 3-year warranty

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Wireless remote control	**907504**	-	-	-

Remote control for automatic covers

Remote control that enables the automatic cover to be opened and closed without the need for keys.

- Easy to install.
- Compatible with all of Fluidra's automatic pool covers.

Remote control features:

- Dimensions: 80 x 40 x 10 mm.
- Power supply: A 12 V / 23 A battery.
- Autonomy of battery: 1 year.
- Range: 15 metres.

Characteristics of the receptor:

- Size: 142.60 x 102.60 x 57 mm.
- IP55.
- Power supply: 12 to 24 V DC or 24 V AC.

Installation:

- The receptor must be connected to the distribution board for submerged pool covers or directly to the motor for above-ground covers (with the receptor placed at the foot of cover).

3-year warranty

Not compliant with the French NF P 90-308 safety standard.

definitely ingenious

ASSURED TRACEABILITY
Sub-layer marking, indelible.

ASSURED RESISTANCE
The lining of the rigid spiral (Spiral Protection Barrier) acts as a barrier that prevents premature embrittlement due to environmental stress cracking (ESC).

SPIRAL PROTECTION BARRIER
Patented

ASSURED FLEXIBILITY
The spiral with D-Shape cross-section is extremely resistant to crushing (up to 34 kN/m2). Combined with the use of premium materials, it guarantees high flexibility and a smaller radius of curvature (up to 125 mm).

D-SHAPE
Patent pending

ASSURED PROTECTION
La pellicola CDS (Chlorine Defence System) The CDS (Chlorine Defence System) film offers extensive protection even against high-chlorine water and acidic environments, guaranteeing lasting performance.

CHLORINE DEFENCE SYSTEM
Patented

MADE IN ITALY

10 YR GUARANTEE*

10 YR INSURANCE* COVERAGE

* FITT S.p.A. offers a 10-year warranty and a special 10-year insurance coverage for all damages caused to third parties, and includes any costs for excavations, dismantling and assembling of the hose and backfilling.
For further details visit the website bactive.fitt.it.

fitt b-active

RESISTANT. GUARANTEED. SAFE.

FITT B-Active is the hose for swimming pool systems that offers "dual" protection with the 10-year insurance coverage and warranty, thanks to its patented technologies and indelible traceability.
The product is designed and made entirely in Italy.

Manual valves

3-way rotary disc valve

3-way rotary disc valve in PVC-U with rotary flap to shut off one port. Can be used in circuits where the working pressure is not above 6 bar (90 psi); includes a lever that shows the closed port.

Sizes: Ø 50-63 mm and Ø 63-75 mm. Available in manual (lever) or automatic (electric actuator) mode. Designed for use in pools and spas. The manual valve can have 2 open ports and 1 shut off, 3 open ports or a partial adjustable opening, whilst the electric actuator can be turned from 90º to 180º and has a 220 VAC or 24 VAC connection.

PLAYA

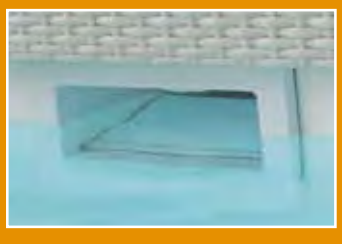

PLAYA is an elegant mini-pool created from the great Italian design.
The gentle hydromassage, the heated water, the pleasantness of the hand woven fibers, invite you to relax in total wellness and allow you to enjoy it both indoors and outside the house. Playa Living is the evolution of Playa model with its soft cushions; it becomes a relaxing oasis, a real "lounge" that decorates the interior of the house or outdoor spaces.

Pool liner

Playa skimmer

LED spotlight

Air massage

LINER
High strength liner in durable polyester and polymer. White color.

STRUCTURE
Hot galvanized coated steel and inox steel structure, powdered epoxy.

AESTHETIC FINISHES
Wicker exterior panels on aluminum frame. Colors: Laghetto white, grey, coffee.

FILTRATION SYSTEM
Laghetto exclusive filtration system and water treatment.
Filtration system composed of:
One wall skimmer complete with pre-filter, cartridge filtre and pump.
Included: suction plate and brush for bottom cleaning.

LED SPOTLIGHT
Small, white, LED spotlight.
High brightness spotlight.

AIR MASSAGE
Air massage with bubbles.
Available for versions:
ONLY HYDRO
HYDRO & HEATER

HEATING
Water heating.
Only for HYDRO & HEATER version.

Sunbed

Playa Living elements

SUNBED (optional)
Nautical Sky fabric finish available in several colors.
Colors: natural, brown, grey, water.

PLAYA LIVING ELEMENTS
Playa Living elements with aluminium structure and wicker panels.
Available in several sizes and also with reclinable backrest. Matching cushions with nautical Sky fabric finish.

POOL WARRANTY: 5 YEARS

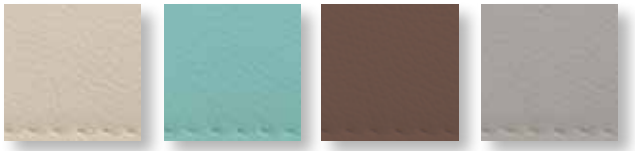

ACCESSORIES WARRANTY: 2 YEARS

Dolce Vita

A pool that looks good in any environment and that you can build even where a traditional inground swimming pool can't be placed.

Dolcevita is the most fashionable and desirable pool for those people who search something to stand out and who setup a space dedicated to the pleasure and the family relaxation.

DIVA - RATTAN

MOD.	WATER SIZE (m)	TOTAL ENCUMBRANCE (m)	WATER HEIGHT (m)	TOTAL HEIGHT (m)	VOLUME (m^3)
24	2 x 4	2.4 x 4.4	1.2	1.3	9.6

36	3 x 6	3.3 x 7.05	1.2	1.3	21.6

Dolce Vita

Dolcevita renews the world of above-ground pools thanks to a sound technology Laghetto which is on the market for over 40 years, and its innovative and graceful design.

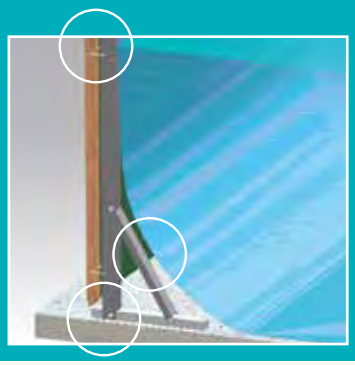

Dolcevita can adapt to the needs of a changing family, allowing thoughts, repositioning, moving, resale.

Its versatility allows easy and quick installation even in areas with seasonal permits only.

Dolcevita provides a recirculating and filtration system which enables the highest quality and hygiene of the water purity.

Dolcevita comes up in two different models: Diva and Rattan, with high quality materials that ensure long time use.

Structure

Pool liner

Plastic Wood Coping (RATTAN line)

TRELLIS PILLARS
Powder coated hot galvanized steel with stainless steel piece of support.

TRELLIS SPARS
Powder coated hot galvanized steel.

NUTS AND BOLTS
Stainless steel with anti-grip nuts.

LINER
Made of PVC coated polyester fabric membrane it is incredibly strong (it easily passes DIN 53354 test up to traction of 430 Kg on 5 cm) , it is treated with a special coating that prevents dirt from attaching to exposed areas and provides protection against damage caused by UV light to be very durable.

DOLCEVITA TOPRAIL FINISH
Rattan toprail finish is a dedicated composite wood made for us exclusively by Plastic Wood. Diva toprail finish is integrated in the design of the special wicker panel.

Warranty on the pool (liner + structural parts) is 5 years, warranty on all the other accessories included in the kit is 2 years.

Dolce Vita

Diva panel

DOLCEVITA PANELS

Dolcevita 2020 finish is available in 2 different panels options: wicker with wicker corner pieces for the Rattan line, or the exclusive solution created for the DIVA line, where the Viro wicker panels also cover the top rail of the structure.

Dolcevita Diva ladder

DOLCEVITA LADDERS

The Dolcevita finishes have two different kinds of ladder to access to the pool.
Rattan kit include a ladder with the liftable external part to avoid the access to the kids when the pool is unattended or unused.
DIVA kit has a dedicated luxury grade ladder.

Laghetto Led Spot

LED SPOT LIGHTS

Every Dolcevita, no matter what finish, comes standard with Laghetto Led spot lights.
These led spot lights have a peerless luminous efficiency, very low power consumption (less than 8 W) and an unmatched durability.

Vacuum cleaner

VACUUM CLEANER

Every Dolcevita Pool kit also include a vacuum cleaner (pipe length varies according to the pool size and the number of skimmers).

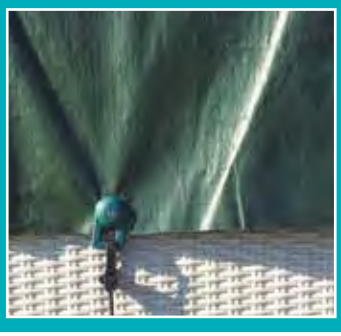

AstralPool sand filters

SAND FILTRATION SYSTEMS

The technical partnership between Piscine Laghetto and AstralPool introduces the 6, 10 and 15 mc/h sand filters in all swimming pool kits.

Winter cover

WINTER COVER (optional)

Winter cover LSP complete with elastic cords and fixations.

Summer cover

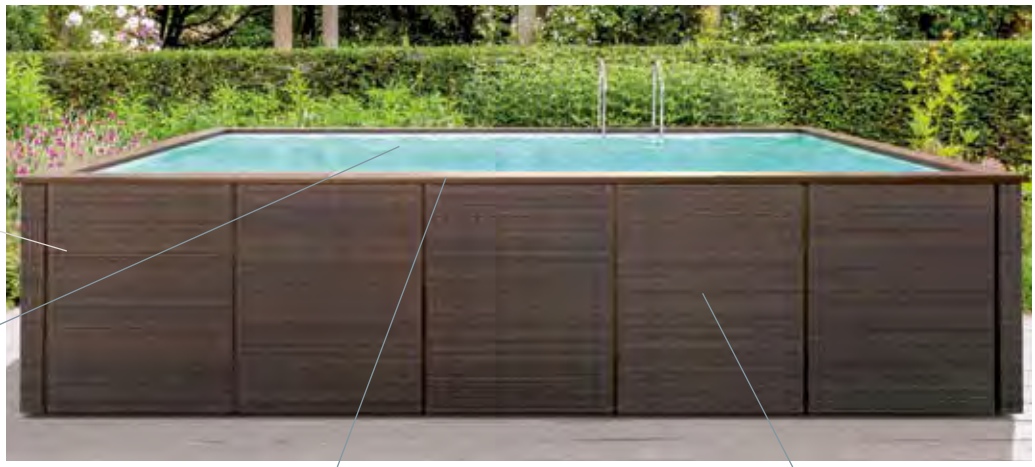

SUMMER COVER (optional)

Isothermic summer cover for Dolcevita.

DOLCEVITA: Basement sizes

CONCRETE BASE

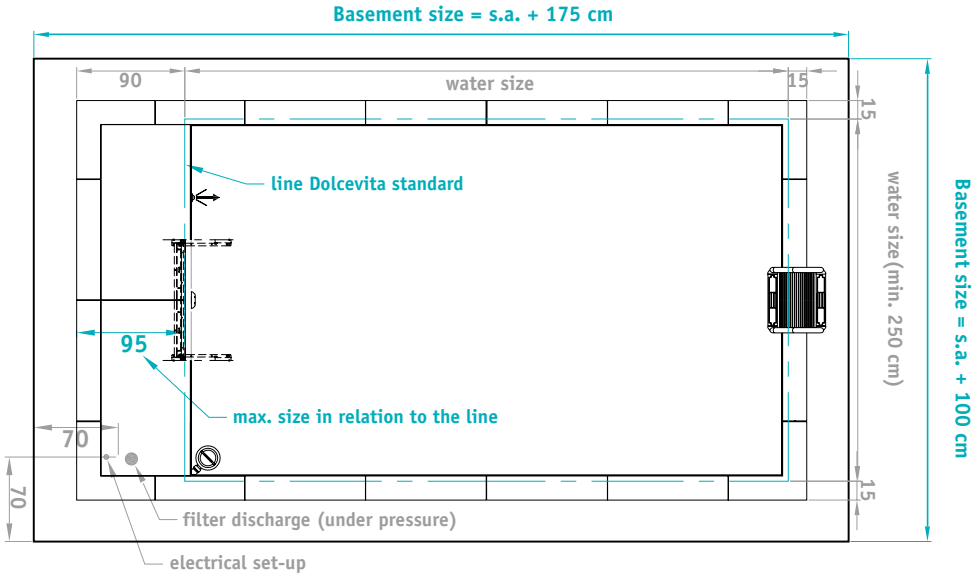

Check with your engineer which are the optimal requirements for your installation
Check the basement is really rectangular with the same diagonals
The basement must support a load of 1300 Kg by square meter given from water weight
Check the basement is achievable in case of unstable ground by geological expertise
The basement surface must be as smoothed as plaster
Tolerance gradient of the perimeter of slab = ± 1 cm

Dolce Vita

Dolcevita Divina: Not compatible with standard basement kit for direct assembly on the ground.

BASEMENT FOR DIRECT ASSEMBLY ON THE GROUND

- Zero impact installation.
- For installation where no concrete basement can be made.
- Easy to move and assemble.
- Fully removable.

ABOVE GROUND POOLS

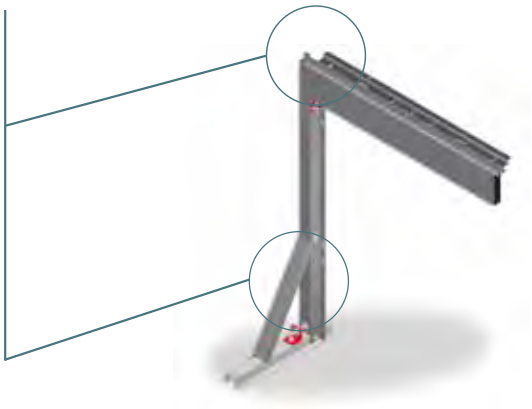

Stainless steel components to stabilize the structure of the pool

The kit is an AISI 304 stainless steel locking system consisting of fasteners that allow to prevent normal structural beddings (misalignment) of dolcevita during the filling phase.

FIXING AND ALIGMENT KIT

THE KIT IS AN AISI 304 STAINLESS STEEL LOCKING SYSTEM CONSISTING OF FASTENERS THAT ALLOW TO PREVENT NORMAL STRUCTURAL BEDDINGS (MISALIGNMENT) OF DOLCEVITA DURING THE FILLING PHASE.

- With the kit you can't align the pool once filled.
- It's compatible without any modification only with Dolcevita structures from April 2014.
- You can't add the kit to assembled pool, to fit it you must dismantle the pool completely.
- If the Dolcevita structure has been purchased before April 2014 some modifications to the structure are necessary.

POP!

POP!

is the range of above ground pools
with which Laghetto celebrate
its first 40 years
in the swimming pool industry.

It's the result of four decades of patents
and innovative projects and represent
the highest expression of quality
on the above ground pools market.

The Pop range is available both
in 100 and 120 cm water depth
in a wide choice of soft, cool and fashion colors
you can set in a pleasant and
unconventional way in your space or garden.

STANDARD EQUIPMENT

- LED lights.
- Safety ladder.
- Exclusive Laghetto water filtration and treatment system. Choice of AstralPool sand filters.
- Special foot blocks for ground assembly.

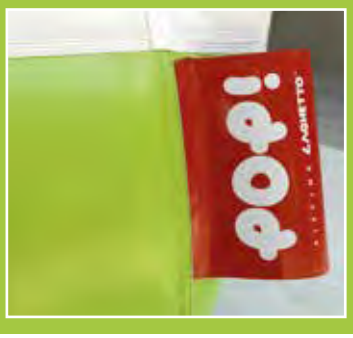

WARRANTY 5 years 2 WARRANTY GARANZIA

POOL WARRANTY: 5 YEARS

ACCESSORIES WARRANTY: 2 YEARS

POP!

Pool liner

Patented Laghetto skimmer

Above-ground pool foot support

LINER

Made of PVC coated polyester fabric membrane is incredibly strong (it easily pass DIN 53354 test up to traction of 430 Kg on 5 cm) , it is treated with a special coating that prevents dirt from attaching to exposed areas and provides protection against damage caused by UV light to be very durable.
Every Laghetto POP liner is available in 6 cool colors and comes with the distinctive red label.

LAGHETTO SKIMMER

The legendary skimmer of Piscine Laghetto is directly attached to the corner of the pool liner. The floating head skims the water surface with a perfectly efficient 360 degree action. This is the most effective skimmer design on the market.
Every skimmer includes a pre-filter basket (if used with sand or cartridge filtration systems) or a special microfiber fabric filtrating element (Boa system).
The wide excursion of the floating head follows the water level precisely for a better efficiency and avoids almost completely unwanted air draw that can damage the pump of the filtration system.
Every skimmer head is equipped with devices for the safety of all swimmers.

FOOT BLOCKS

Every pool is supplied with a complete set of foot blocks that replace the need for any support under the pool legs by providing a solid base.
Foot blocks come in white color to match the structure and the top of the Liners.

Laghetto pipes

Safety ladder

Vacuum cleaner

PIPINGS

The pipes of the filtration systems are another of the high quality components that characterize Piscine Laghetto products. Pipes for POP pools are made of highly resistant and durable white corrugated PVC, with one - and - a half inch fittings, pressure mounted and glued together (factory assembled to ensure the best possible seal over time). The pipes, with threaded connectors and gaskets, are screwed to the wall fittings of the pool and to nipples of the filtering system, without using any type of cable tie.

LAGHETTO SAFETY LADDER

Introduced already back in year 2000, Piscine Laghetto safety ladder is the most stable and secure aboveground pool ladder on the market.
It's connected directly to the pool structure to avoid overturning and the outside steps can be lifted to avoid the entrance of the kids when the pool is unattended or unused.

VACUUM CLEANER

Every POP Pool kit also include a vacuum cleaner (pipe length varies according to the pool size and the number of skimmers).

AstralPool sand filters

BOA filter

SAND FILTRATION SYSTEMS

The technical partnership between Piscine Laghetto and AstralPool introduces the 6, 10 and 15 mc/h sand filters in all swimming pool kits.

LAGHETTO BOA FILTER

The practical stocking filtration has been a specialty of Laghetto for over 30 years, with tens of thousands of satisfied customers.

INOXPOOL

Inoxpool

Pool manufactured in one piece in satin-finish, **AISI-316L stainless steel**.

With a 2 mm thickness wall and with skimmers. It includes a non-slip bottom.

- Hydraulic pre-installation included.
- Ready to connect.
- Easy installation, without building work.
- Total security and quality.

2 Differents models:

OPTIMAL

Optimal model is a residential pool made in one piece in satin-finish stainless steel, AISI-316L including skimmers. It includes a ladder.

WELLNESS

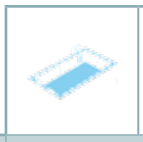

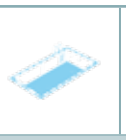

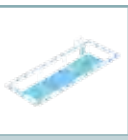

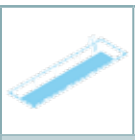

Wellness model is a residential pool made in one piece in satin-finish stainless steel, AISI-316L including skimmers. Including:

- Steps
- Hydromassage bench
- Hydromassage cascade
- Hydromassage water jet
- Cover

OUR RANGE OF SPAS

Ocean Dreams range

A range of spas intended for the most demanding users. Ergonomic spas, with numerous features and configuration settings.

Swimspa range

Swimspas are small residential pools.

Versatile, powerful and compact. A health and wellness centre available all year round.

Essential range

The Essential range seeks to strike a balance between functionality, performance and cost.

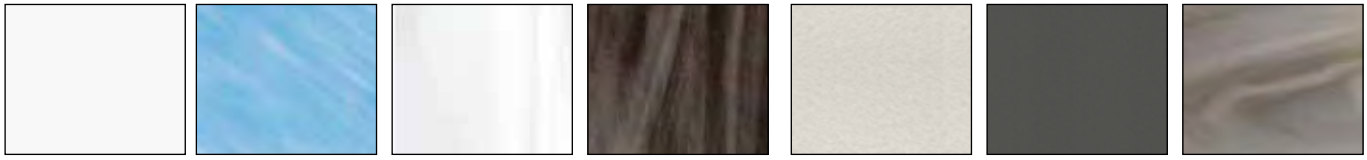

Commercial range

Spas designed for commercial spaces, wellness centres, hotels... A wide range of options and finishes that cover all needs. Spas with both an acrylic and mosaic tile finish.

We reserve the right to change, wholly or partially, the features of our products and the contents of this document, without prior notice

CODING STRUCTURE FOR PRIVATE SPAS WITH CABINET

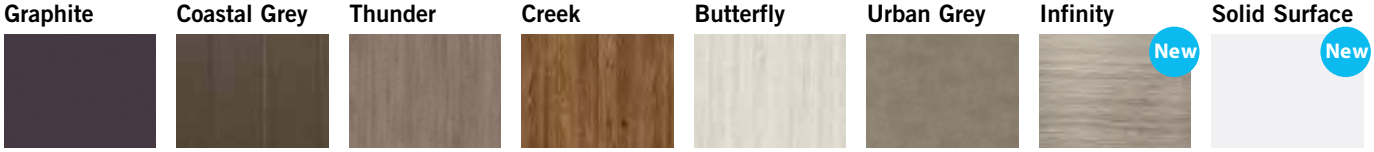

The coding structure for the wood cabinet spas is made up of 10 digits. The first 5 digits refer to the Spa model and the following ones indicate the range, coating and the colour of the accessories as it is also necessary to specify the colour.

This coding system will be structured in the following way:

X X X X X	X	X	X	XX	CL	XX
Spa Model	Range	Coating type	Accessory colour	Accessories	Variation	Colour

Position 1 to 5: Standard code 5 figure code	
Position 6: Product range definition

TYPES OF COATINGS

While stocks last

OPTIONAL EQUIPMENT

EcoSpa thermal insulation

EcoSpa is one of the best thermal insulation systems currently available in the market. This comprehensive system manages to minimize heat loss by convection and conduction, and to use the heat generated by the heater and pumps found in the spa. The walls have an exclusive 30 mm thick layer of polyurethane foam insulation. A strong ABS substructure of insulating plastic at the bottom of the spa ensures total water tightness. Finally, an isothermal cover of between 100 and 130 cm thick gives extra insulation.

All of these features reduce heat loss to a minimum and maximize the recovery of the heat generated by the spa's components, thus reducing energy consumption by up to 67%. With ECOSpa, consumption to maintain the water at 38º with a room temperature of 20º is 6.48 kW/h, while without this system it is 19.52 kW/h.

EcoSpa option

Nordic Insulation System

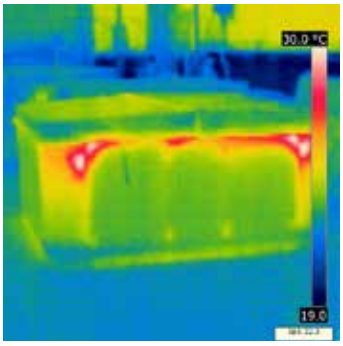

NORDIC INSULATION SYSTEM is designed for cold environments and can enhance your spa's energy efficiency.

The Nordic insulation system comprises a 10mm insulating material composed of five layers. This insulation layer is positioned in the sides and curves of the spa to create an insulating air chamber inside. The five layers are made from:

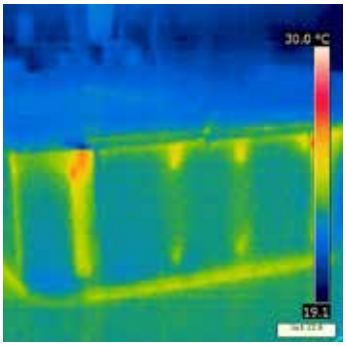

- Aluminium.
- RC9 bubble + low-density polyethylene (double layer).
- FONPEX non-crosslinked polyethylene foam (20 kg/m^3).
- RC9 bubble + low-density polyethylene (double layer).
- Aluminium.

This system is an improvement over the EcoSpa class as it minimizes temperature leak zones and optimizes spa energy performance in extreme temperature situations.

Difference between the EcoSpa and Nordic insulation systems in thermal imaging:

Spa with EcoSpa

Spa with Nordic insulation system

Wi-Fi Touch panel

The Balboa Wi-Fi control panel is an app for your smart device (Android™ or iPhone®) which lets you access your spa over the internet from anywhere, home or away. All you need is a 3G, 4G or Wi-Fi connection to access and control your spa over your mobile phone or tablet.

By using the Wi-Fi control panel, you can make sure that your spa is ready for use every time you want to take a dip. Instead of having to go outside and fiddle around with the buttons on the control panel, this app will enable you to change your spa's settings from your mobile phone or tablet.
The app has a full control interface so you can set the water temperature, run the massage pumps and even control the filtration cycle.

OPTIONAL EQUIPMENT

LumiPlus + Bluetooth Audio System, only available for fully skirted portable spas

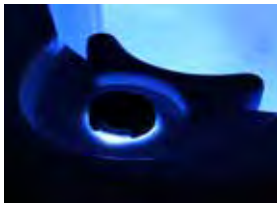

Natural treatments are one of the main sources of health provided by a spa. Chromotherapy and music therapy are the perfect accompaniment to any hot tub.

Chromotherapy is the natural technique based on the use of colours to help your mind and body find their natural physical, mental and emotional balance. By choosing the LumiPlus option, 5 LED spotlights are added to your spa so that you can enjoy a spectacular ambient lighting system. Thanks to the 5 LED spotlights, you can choose the colours that match your mood at any given time.

The Bluetooth Audio System enables music to be played from any mobile phone, MP4 Player or audio equipment via a simple Bluetooth connection, without the need for any cables and with coverage of up to 7 metres. Now you can truly make your spa a centre of relaxation, health and beauty.

The Advance range has a 4.1 Bluetooth Audio system made up of 4 external loudspeakers, an internal subwoofer and a Bluetooth receiver.

The Essential range has a 2.1 Bluetooth Audio system made up of 2 external loudspeakers, an internal subwoofer and a Bluetooth receiver.

LumiPlus + Bluetooth Audio System option

Blue Connect Plus

Enjoy your Hot Tub with peace of mind

Blue Connect analyzes the quality of the water and shows you the needed chemicals for the maintenance of your Hot Tub.

Advanced technology connected to your smartphone

Blue Connect Plus is a smart hot tub water analyser that controls the quality of your water and informs you about the number of products available for your hot tub. All from your smartphone.

Sit back and relax. Thanks to Blue Connect, your Hot Tub is at your fingertips

Monitor your Hot Tub wherever you are with the connected Hot Tub water analyzer and the free Blue Connect app.

STANDARD EQUIPMENT

Balboa Electronics, standard in all spas

AstralPool only uses new generation control systems made by BALBOA, a leading supplier of electronic controls for hydromassage tubs and spas.

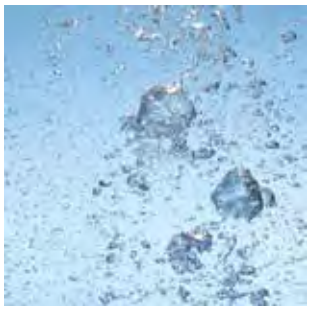

With the continual improvement made to its designs and its innovative solutions to increase the quality and reliability of its systems, the Balboa EL/GL and VS/GS family of control systems has been designed using patented M7 technology for temperature and flow sensors, and its new universal control system increases the flexibility of its functions and reduces installation and configuration problems.

These characteristics make the controls even more reliable, easier to install and easier to use.

STANDARD EQUIPMENT

Ozone disinfection system

Ozone is "active oxygen", a special element found in nature. Ozone is a powerful oxidising agent and, unlike traditional chemical products, it does not leave toxic waste behind, and when it has done its work it simply turns back into oxygen. Moreover, tests have proved that it effectively kills bacteria and mould.

AstralPool manufactures spas that give high quality performance and supplies an integrated ozone generator as a standard feature in all of its portable spas. The ozonator has numerous benefits: the water in spas will be safer, cleaner, purer, free of chloramines, trihalomethane and other chlorine by-products, with a high redox potential. Greater water clarity and algae control are obtained using lower concentrations of chemical substances.

A spa with water purified with ozone is one of the most pleasant relaxation and hydrotherapy experiences.

Ultraviolet disinfection system

Spas equipped with the ultraviolet system are disinfected using UV technology. Thanks to a UV lamp, all bacteria in the water are destroyed. The advantages of the ultraviolet system can be summarized as follows:

- It ensures water remains fresh, clean and clear.
- It is an efficient and safe way of disinfecting the water.
- Its UV-C light breaks down combined chlorine.
- It protects the water from germs.
- It keeps the formation of mould, bacteria and algae under control.
- It can reduce the amount of chlorine and other chemical products used by up to 80%.
- It prevents the smell of chlorine and irritation to the skin and eyes (bloodshot eyes).
- It is more environmentally friendly than traditional methods.

Using this system, all bacteria, mould and algae will automatically be removed from your spa, and it will be protected from germs without the need for any kind of maintenance.

Aroma, only available for spas with a blower

Aromatherapy offers the therapeutic properties of pure aromas for a natural treatment and makes a significant contribution in helping to restore your natural state of balance and harmony.

Nobody is indifferent to smells. They bring to mind emotions, memories and ideas. Increase the relaxing effect of your tub by adding a fragrance!

10 outlet air distributor

10 outlet air distributor to attach to pipes with a 10 mm inner diameter and glue to 50 mm pipes.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
35346	25	8.5	0.028

4 water outlet manifold

Manifold for gluing to 50 mm pipe, 4 outlets for clamping a hosepipe of 20 mm inner diameter.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
33934	25	8.5	0.028

8 water outlet manifold

Manifold for gluing to 50 mm pipe, 8 outlets for clamping a hosepipe of 20 mm inner diameter.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
33935	25	8.5	0.028

Threaded blower nozzle

For air distribution into the SPA from the blowers. Flow rate 5.4 to 7.5 m^3/h.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
White plastic front panel	**27602**	80	1.6	0.03
Stainless steel front panel	**43440**	80	1.6	0.03

LINER ACCESSORIES

Blower nozzle for gluing

For air distribution into the SPA from the blowers. Flow rate 5.4 to 7.5 m³/h.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
White plastic front panel	**28460**	80	1.6	0.03
Stainless steel front panel	**43441**	80	1.6	0.03

Blower nozzle lateral outlet 3/8"

For air distribution into the SPA from the blowers. Flow rate 5.4 to 7.5 m³/h.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
White plastic front panel	**34318**	80	1.6	0.03
Stainless steel front panel	**43442**	80	1.6	0.03

2" return unit

For return line and massage.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
04034	25	5.0	0.028

Adjustable air impulsion inlet

For air distribution by means of the blowers. Maximum flow rate 18 m³/h.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
49818	12	4.24	0.021

09667 **04047**

04048

Pneumatic push button

For starting and stopping massage and hydromassage functions.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
For max. 15 m	**04047**	20	0.5	0.028
For max. 7 m simple	**04048**	40	1.6	0.028
For max. 7 m simple, with thread	**09667**	20	0.5	0.028

Plastic tube

For pneumatic signal from press button to switch. Inner Ø 3.5 mm.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³

Jet housing for linear pool

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
63144	12	3.33	0.028

Moveable tube jet nozzle to install in substitution of a fixed one

Compatible with codes 20295 and 20299. Flow rate 2 to 2.5 m³/h.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
20298	1	0.8	0.001

2 ½" wall conduit for rotating jet

Made up of: The jet body, 20 cm wall conduit, niche, threaded fitting, front body. Jet not included.
Flow rate 5 m³/h at 1 bar.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
20295	4	4	0.018

Stainless steel accessories should not be used in pools with salt electrolysis systems

POOL JET ACCESSORIES

Pool Jet accessories are designed for pools that have a hydromassage section .

Pool Jet 1 Directional Jet

Flow rate 2.4 to 3.6 m³/h. Accessories compatible with 2½" handrail for Pool Jet.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Stainless steel finish*	**63148**	25	3.83	0.028
White finish	**63149**	25	3.83	0.028

Pool Jet 1 Rotating Jet

Flow rate 2.4 to 3.6 m³/h. Accessories compatible with 2½" handrail for Pool Jet.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Stainless steel finish*	**63150**	25	3.83	0.028
White finish	**63151**	25	3.83	0.028

Pool Jet 2 Rotating Jets

Flow rate 2.4 to 3.6 m³/h. Accessories compatible with 2½" handrail for Pool Jet.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Stainless steel finish*	**63152**	25	3.83	0.028
White finish	**63153**	25	3.83	0.028

Pool Jet Rotating Beehive

Flow rate 2.4 to 3.6 m³/h. Accessories compatible with 2½" handrail for Pool Jet.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Stainless steel finish*	**63154**	25	3.83	0.028
White finish	**63155**	25	3.83	0.028

Wall conduit for Pool Jet

Made up of: The jet Straight body (20 mm Air x 32 mm Water), 20 cm wall conduit, niche, front body. Jet not included.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
63146	4	4	0.018

Chrome accessories only suitable for tubs that do not use any chemical treatment. Not suitable for pools.

ACCESSORIES FOR MINISPAS

1 ½" main drain

With elbow for gluing Ø 50 mm pipe.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Chrome-plated bronze front panel	**04104**	3	7.5	0.028

Adjustable air inlet

¾" to control air massage to Venturi system for jet function

AIR BLOWERS

Continuous operation lateral turbo blower pump

Air pump designed for spas, hydromassage tubs and similar which produces a constant stream of air bubbles at medium and high air volume levels. It can also be used to stir up the filter bed, for example in backwash cycles where a low intensity air current is required. The filter casing and impeller are made from an injected aluminium alloy whilst the motor spindle is manufactured from stainless steel, with the impeller dynamically balanced and directly adapted to the spindle. The motors, 2 single phase or 3 phase for continuous use, are made from steel in compliance with CEI 2/3 1988 regulations, and feature IP54 external protection and class-F insulation. The pumps can be mounted horizontally or vertically. Moreover, since there is no contact between the mobile parts and the pump static discharges, neither lubrication nor maintenance is necessary and it also doesn't cause wear on the parts.

The turbines have a maximum working temperature of 40ºC. Do not use in conjunction with aggressive, inflammable or explosive gases.

Cala Pump

Centrifugal pump for spas, backwashes and other applications.

- Pump body manufactured in polypropylene reinforced with fibreglass, resistant to pool chemical products thus guaranteeing long and excellent duration.
- Turbine in Noryl.
- Graphite and ceramic mechanical seal.
- AISI 316L stainless steel motor spindle.
- Enclosed motor, completely silent, with IP-55 protection at 2850 r.p.m. Single phase power voltage at 230V-50Hz or triphase at 230/400-50Hz.
- Versions from 1.5 to 4.5 HP.
- Suction and return connections for gluing hoses included with the pump.
- Suction and return at Ø63.

The sauna pictures do not show the standard product (some accessories can be included from table **Accessories Summary**).

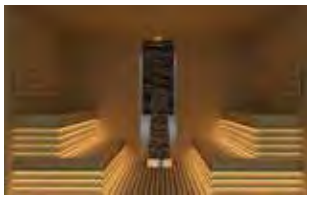

Please note the codes of the accessories when ordering.

SAUNAS

The benefits of an AstralPool sauna range from muscle relaxation to sweat stimulation thanks to their hot and dry environment (relative humidity between 20% and 50%). AstralPool saunas are made from prefabricated panels with interior insulation in mineral wool and aluminium. The wall coating is covered with pre-treated wood that has been fired and dried to last for many years.

2 seats, code 70470-70471

4 seats, code 70439-70442

The Miramonte sauna can be made to order in the following woods: spruce, thermo Aspen, Canadian spruce and red cedar.

Miramonte sauna

Miramonte sauna reflects the excellence of a Finnish sauna formed of high-quality white pinewood vertical panels and abachi timber flooring. The entire front panel of the Miramonte sauna is glazed to showcase the LED lighting inside. Also includes 2 benches with abachi headrests and a heater adapted to each size.

SAUNAS

The Bella sauna can be made to order in the following woods:
- Standard wood: Hemlock Playwood
- Bench wood: Thermo Aspen

Bella sauna

- Hemlock playwood panels 14 mm.
- Curved decorative elements of Thermo Aspen 21 mm.
- Benches of thermos Aspen 21 mm.
- Secured transparent glass 8 mm.
- Harvia design sauna heater.
- Outdoor touch control panel.
- Aromatherapy/Salt Metal Bowl.
- Led light warm white 3000 K.
- Option for glass ceiling.

Code	Dimensions (cm)	Light	Control Unit	Heater

Xenio Control

New

Harvia Xenio is a control unit with a touch control panel. Xenio provides a modern and subtly stylish user interface for controlling the heart of the sauna, the heater. The stylishly small yet clear touch control panel is easy to install where you want it: in the sauna, the shower room, the dressing room, or even the living room. The control panel enables you to see with just one look when your sauna is at the right temperature for you.

- **XENIO 110 máx. for 11kW electric heathers**
- **XENIO 170 for up to 17 kW heaters**

SWIMMING POOL HEATING SOLUTIONS

Equipping a pool with a heating solution means freedom from the vagaries of the weather and extending its use period. Heat pumps, electric heaters, heat exchangers - the AstralPool® product range allows everyone to enjoy water at a constant ideal temperature.

Parameters for choosing a heating system

To define a system suitable for a pool, you need to know its volume (in m^3), the desired use period and estimate the temperature (in °C) the water in the pool should reach.

These simple parameters will enable you to size the heating system correctly and will guarantee you maximum comfort at a lower cost.

The choice of heating equipment also depends on the energy source that will be used.

COMPARATIVE TABLE OF RANGES

	Heat pumps	Electric heaters	Heat exchangers
			
SOLUTION	Stand-alone, dedicated to the pool	Stand-alone, dedicated to the pool	Coupled to the domestic heating
ENERGY USED	Renewable	Electricity	Domestic heating source (gas, oil, electricity, renewable, etc.)
RUNNING COST	€	€€€	€ to €€€
INVESTMENT	€€	€	€
ADVANTAGES	Energy efficient Low operating cost	Simple installation Rapid temperature increase	Rapid temperature increase (if gas/oil boiler) Compatible with all heating systems
USES	All open air or indoor pools	Spas and pools used at weekends or holiday homes	Indoor and outdoor pools close to the boiler in the house

What type of defrosting?

When the outside temperature is low, the evaporator will tend to ice up, which reduces its efficiency: this ice must therefore be removed. There are 2 types of defrosting:

- **Defrosting by ventilation or economical defrosting**

  The cooling circuit is stopped for a few minutes. Only the fan operates, forcing outside air to defrost naturally.
  This type of defrosting will work well for a seasonal use.

- **Defrosting by cycle inversion or intensive defrosting**

  The cooling circuit is reversed: calories from the pool water are used to defrost the evaporator. This defrost type allows operation at lower temperatures.

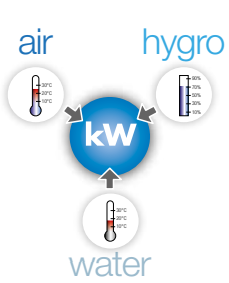

SWIMMING POOL HEATING SOLUTIONS

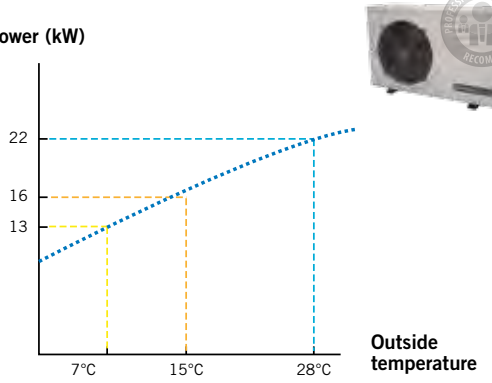

How is the performance of heat pumps compared?

To compare the performance of different heat pumps, it is essential to compare power supplied and performance coefficient.
Two main values characterise the performance of heat pumps: their power and their performance coefficient.

- **Power**, expressed in kW, indicates the quantity of heat transferred to the water.

  It varies depending on three conditions to which the heat pump is exposed during use: temperature of the outside air, humidity of the outside air and temperature of the water in the pool.

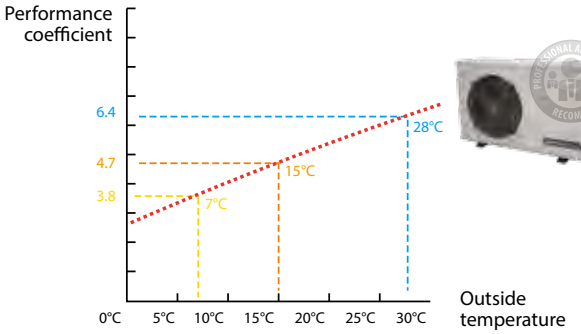

- **The coefficient of performance (COP)** is the ratio between the power supplied to the water in the pool and the power consumption of the heat pump.

  As an example, a performance coefficient of 4 means that for 1 kWh consumed at the electricity meter, the heat supplies 4 times more energy to the water in the pool, or 4 kWh.

  So the higher the performance coefficient, the more efficient the system.

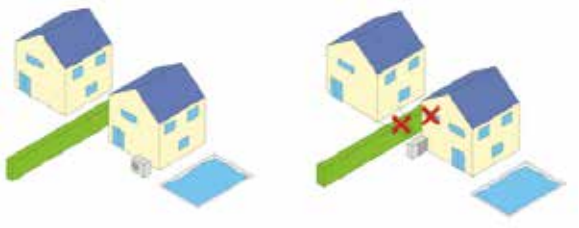

Recommendations for installing a swimming pool heat pump

A heat pump system includes 'moving' parts (compressor, fan, etc.), vibrations from which can spread and build up.

To avoid or reduce disturbances, a few installation rules should be followed:

- Favour open spaces (avoid corners or interior courtyards), because sound waves coming from all sides of the system are reflected by the surfaces facing them.
- Do not install the system below or facing a window.
- Relative to neighbouring properties:
  - Install the system as far as possible from property boundaries.
  - The fan should not point towards neighbouring properties.

SWIMMING POOL HEATING SOLUTIONS

Full Inverter technology

Inverter technology enables a heat pump to change its power mode depending on the temperature of the pool water and the weather conditions. It therefore runs to achieve the best energy efficiency at the lowest noise level.

3 operating modes:

1. Silent: **Ideal to maintain the temperature or at night time**

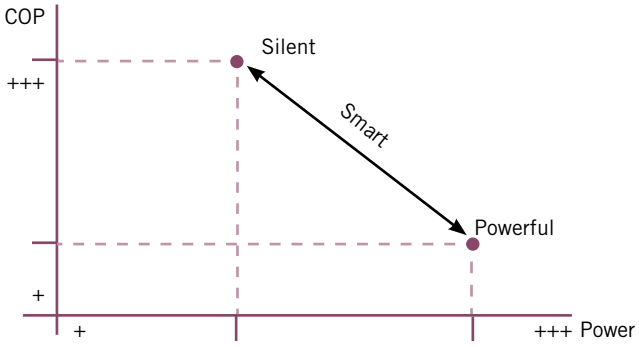

- Heat Pump runs at low power setting
- Compressor operates on low speed ranges to minimize energy consumption
- Lowest noise and highest COP

2. Smart: **Normal use**

- Compressor operates smartly from low to high speed ranges
- Reduced noise and energy consumption

3. Powerful: **Ideal to begin the season or to operate in cold conditions**

- Heat Pump runs at high power setting
- Compressor operates on high speed ranges to heat the pool faster
- Maximum heating power

Vertical blowing

Vertical air blowing is typically suitable for small spaces as a reduced free area is required around the unit.

Automatic heat / cool mode

The heat pump will switch automatically from heat to cool mode to stabilize the temperature at the desired target.

Soft starter

When no inverter, for high power units, the soft starter will prevent peak currents when the Heat Pump starts, thus avoiding the main fuse/breaker to trip and ensuring the viability of components.

SWIMMING POOL HEATING SOLUTIONS

Heat pumps

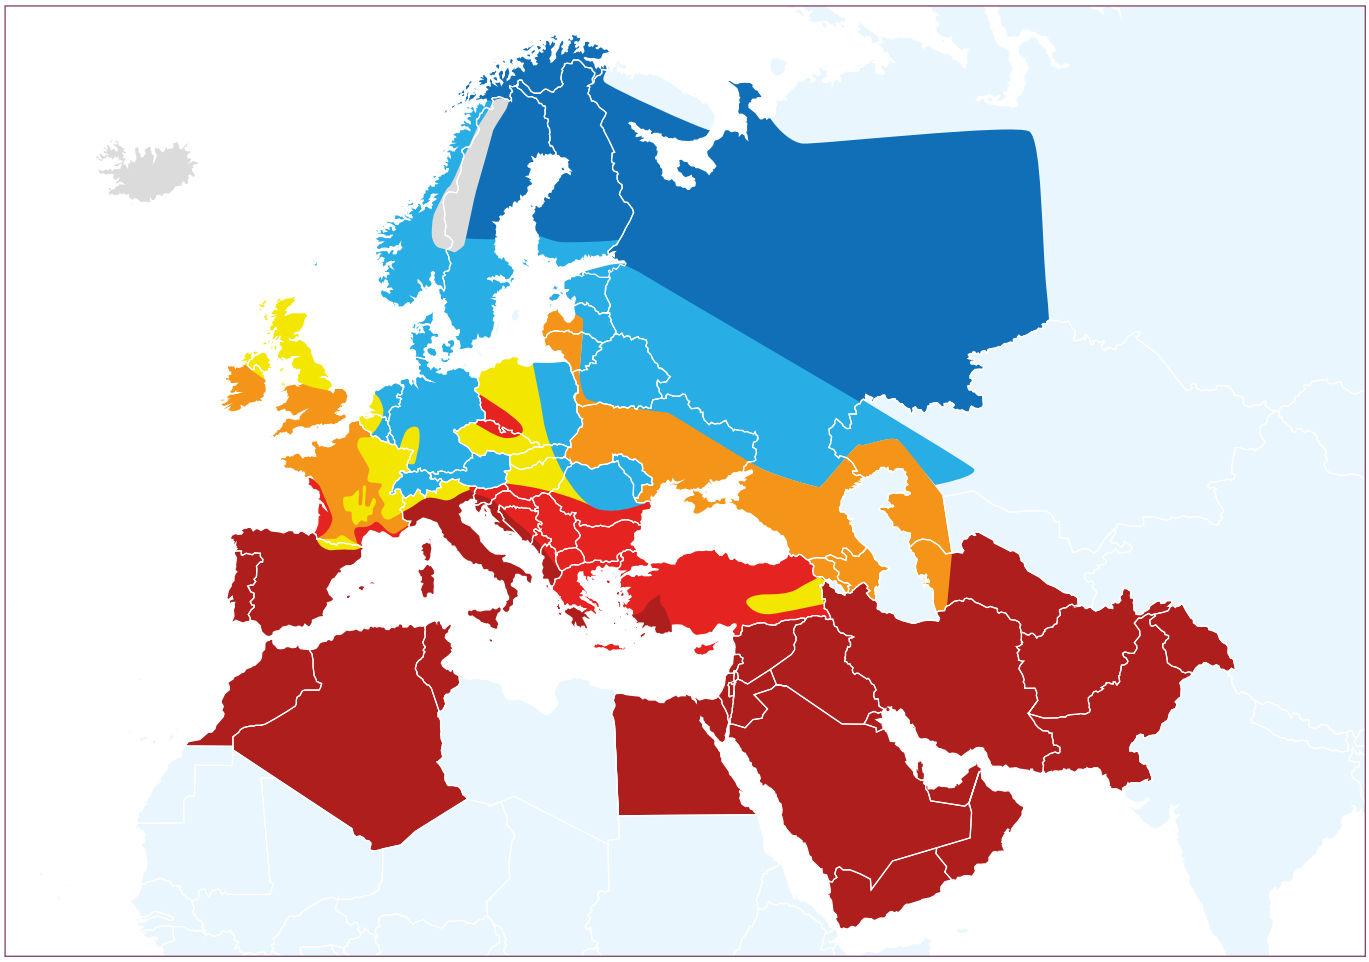

Heat pumps offer a solution that is both ecological and easy to install, all with highly competitive running costs.
As thermodynamic devices, they transfer the calories (heat) present in the air to the pool water, for reduced energy consumption.
AstralPool® range is available in several models to suit all types of pool.

Heat Pumps for private pools and public pools.

HEATING SIZING HELP TABLES

How to select a heating system adapted to pool environments?

Fluidra has built the below sizing tables to quickly and easily select the convenient heating system.

They are quick sizing tables, given for a private pool, from 15 may to 15 september, depth 1,5m, with a maximum temperature rise time of 4 days to heat the pool from 15°C to 28°C, 14h filtration time.

To get a customized sizing, please consult the web configurators:

NEW CONFIGURATORS ARE AVAILABLE FOR MORE ACCURATE SIZINGS!

For professional use, visit our configurator on **www.pro.fluidra.com**

For public use, visit our simplified configurator on **www.astralpool.com**

How to read them?

Within APH3 range, the appropriate model for a pool of 35 m³ located in zone 2 is APH3-17kW.

AIR-WATER HEAT PUMPS FOR OUTDOOR INSTALLATION

AstralPool Heat 3

- **Full inverter technology:** silent and energy saving.
- **Vertical air blowing** for increased comfort.
- **-20°C** lowest outdoor air working temperature.

Technical features:

- Detachable display.
- Digital touchscreen.
- Heating priority mode (filtration pump control).
- ABS plastic housing.
- DC, variable speed fan.
- Automatic cooling mode.
- Automatic defrosting.
- HP & LP safety pressure switch.
- Water flow switch.
- Titanium water exchanger condenser.
- Inverter Rotary compressor.
- Electronic expansion valve.

Accessories included:

- 1 x Winter Cover.
- 4 x Anti-vibration feet.
- Condensate drainage kit.
- 1 x remote display kit (including 10m extension cable).
- 1 x 10m Modbus Signal wire (to connect the Heat Pump to the Connect Box).
- 2 x PVC fittings ½ union Ø 50.

Fluidra Connect compatible

(1) For a maximum length of 20 meters.
(2) Power, expressed in kW, indicates the quantity of heat transferred to the water. It varies depending on 3 conditions: temperature of the outside air, humidity of the outside air and temperature of the water in the pool. To compare the performances of different heat pumps, it is a must to compare Power and COP under the same conditions.
(3) Product available until stocks last.
(4) Available during 2021 season, once R410 equivalents are sold out.

AIR-WATER HEAT PUMPS FOR OUTDOOR INSTALLATION

ProHeat II

- 0°C minimum outdoor air temperature.
- 2 models: Standard and Chiller.
- Digital display.
- Heating priority mode (filtration pump control).
- Robust, lightweight casing made from corrosion-resistant magnesium coated aluminium.
- Axial ventilator.
- Automatic cooling mode for chiller model.
- Automatic defrosting.
- HP & LP safety pressure switch.
- Water flow switch.
- G2 Titanium water exchanger condensers. Guaranteed against corrosion.
- Scroll compressor.
- Thermostatic expansion valve, with external balancing unit.
- High performance evaporator battery in an inner corrugated copper tube with lacquered aluminium fins, especially for corrosive environments.
- Control of purifying system.
- Automatic electrical protections.

AIR-WATER HEAT PUMPS FOR INDOOR INSTALLATION

ProHeat II

- 0°C minimum outdoor air temperature.
- Digital display, easy-to-use control panel, with display of current temperature, setpoint and alarm messages.
- Heating priority mode (filtration pump control).
- Robust, lightweight casing made from corrosion-resistant magnesium coated aluminium.
- Axial ventilator.
- Automatic cooling mode (chiller model).
- Automatic defrosting.
- HP & LP safety pressure switch.
- Water flow switch.
- G2 Titanium water exchanger condensers. Guaranteed against corrosion.
- Scroll compressor.
- Thermostatic expansion valve, with external balancing unit.
- High performance evaporator battery in an inner corrugated copper tube with lacquered aluminium fins, especially for corrosive environments.
- Control of purifying system.
- Automatic electrical protections.
- Centrifugal fans so the unit will be installed in a technical room, using air ducting.

AIR-WATER HEAT PUMPS FOR INDOOR INSTALLATION

Includes Modbus connection

Maya

- +5°C minimum outdoor air temperature.
- Compact design for installation in a pump room.
- Made of non-corrosive magnesium coated aluminium.
- Direct transmission centrifugal ventilator.
- Scroll compressor.
- Titanium condensers with PVC shells and in G2 titanium coil according to ASTM B 338.99 standard. Guaranteed against corrosion.

AIR-WATER HEAT PUMPS FOR OUTDOOR INSTALLATION

Includes Modbus connection

Optima

- +5°C minimum outdoor air temperature.
- Robust, lightweight ABS casing made from magnesium coated aluminium.
- Standard: Operating as a heat pump with reverse cycle defrosting.
- Chiller: Providing heat or cold to maintain the temperature of the pool with reverse cycle defrosting.
- Scroll compressor.
- Titanium condensers made of PVC casing and TITANIUM G2 coil. Guaranteed against corrosion. It includes drainage for care in the winter.

WATER-AIR CHILLERS FOR INDOOR OR OUTDOOR INSTALLATION

ALASKA

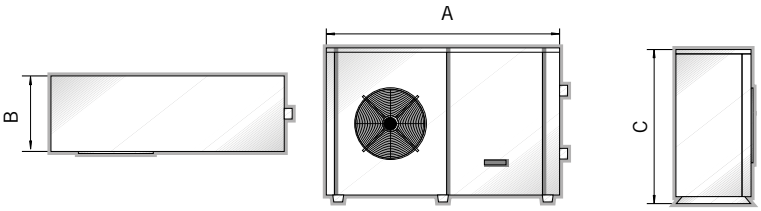

SIBERIA

Includes Modbus connection

The fan is fitted vertically in the Alaska 10, 15 and 17 models

Alaska - Siberia

- +5°C minimum outdoor air temperature.
- 2 compact models: For outdoor (Alaska) or indoor (Siberia) installation.
- Digital display.
- Heating priority (filtration pump control).
- Made of non-corrosive magnesium coated aluminium.
- Helicoidal ventilators with direct coupling motor for the Alaska model, centrifugal for the Siberia model.
- Defrosting thermostat in evaporator for enhanced performance.
- HP & LP safety pressure switch.
- Water flow switch.
- Condensor made of copper pipe with coated aluminium fins (special for corrosive environments).
- Scroll compressor with carter resistance and deoxidized copper.
- Thermostatic expansion valve.
- Titanium evaporator with PVC shell and in G2 titanium coil according to ASTM B 338.99 standard. Guaranteed against corrosion.
- Anti-acid dehydrating filter.

ELECTRIC HEATERS

ELECTRIC VERSION

MANUAL VERSION (ECO)

ELECTRIC VERSION

MANUAL VERSION (ECO)

COMPATIBLE NN thing

Fluidra Connect compatible

Titanium models only

Compact ElectricHeat: Versions in Titanium and Fluidra Connect compatible

EXTERNALLY:

- Linear configuration that offers ease of installation.
- Compact and simple "all in one" design. Simple and elegant lines.
- User-friendly interface. It has a state-of-the-art touch sensor and OLED display (not available for the ECO version).
- Intuitive fashion information for the user.
- Simple and fast electrical connection system.

INTERNALLY:

- Simplicity of components: the internal components have been simplified and reduced.
- Replaceable parts: the internal components are easy to access and replace.
- Accurate and secure electronic adjustment (manual adjustment in the Eco version).
- Hardware and software able to detect failures in a pool facility and its units (not available for the ECO version).
- Standard model with Incoloy resistance, Titanium model with resistances in titanium.
- Model specifically for Fluidra Connect (not available for the INCOLOY version).

WATER-WATER EXCHANGER

Waterheat EVO

Heat exchanger suitable for warming the water temperature of pools and SPAS, thanks to the heat exchange between the primary circuit (warm area) and a secondary one (cold area that we want to warm).

- Titanium housing (secondary, pool water).
- Titanium coil (primary, water for boiler).
- Primary working pressure of 10 bar.
- Secondary working pressure of 3 bar.

WATER-WATER EXCHANGER

Equipped Waterheat

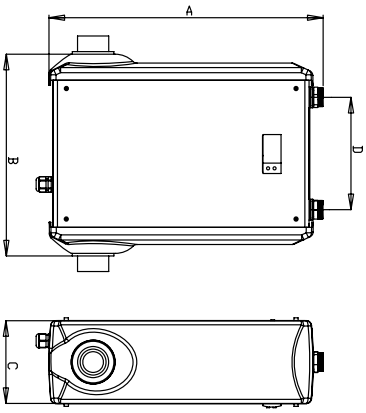

Heat exchanger suitable for warming the water temperature of pools and SPAS, thanks to the heat exchange between the primary circuit (warm area) and a secondary one (cold area that we want to warm).

- Regulator with secondary pump control, voltage free contact and timer.
- Casing built in Alucoil and ABS plastic.
- Body made in Titanium (secondary, water from pool).
- Coils made in titanium alloy (primary, water from boiler).
- Fully fitted, anti-return valve, primary recirculation pump and control thermostat with immersion probe.
- Primary work pressure 10 bars and secondary work pressure 3 bars.

CONNECTIONS:

- Primary (heating): 1".
- Secondary (pool): D-50 three piece link.

WATER-WATER PLATE HEAT EXCHANGER

Etna

- Corrugated plates in AISI-316 or titanium.
- EPDM gaskets.
- Housing in epoxy painted carbon steel.
- In non-equipped heat exchangers, AISI-316 stainless steel connections in ISO G2 direct thread.
- In equipped heat exchangers, primary connections in copper, and secondary in PVC.
- In equipped heat exchangers, full regulation, with control of the filtering pump. Double display (setpoint and current reading).
- Simple recirculating pump in the primary circuit is optional.

CDP LINE 2 Dehumidifier

The new CPD LINE v2 dehumidifier console is used in installations where individual humidity and temperature control of small pools and spas is required.

- Evaporation and condensation battery made out of copper pipes with lacquered aluminium fins (specially designed for corrosive environments).
- New generation of rotative compressors, more efficient, reliable and quieter.
- Electric heating or hot water coil option.

The new innovations this equipment introduces include the expanded polypropylene structure (EPP) which reduces its weight and noise level and the front panel with a picture the customer can personalize as an optional extra.

Smart Commercial Pools

Connectivity for automation and monitoring all types of commercial pools

24/7 Water Quality

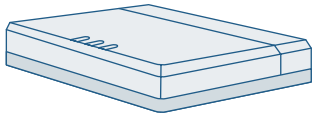

Water quality controlled and monitored thanks to the pool equipments synchronized all together in a smart way. Alarm system for real-time corrective maintenance.

Energy Savings

With a combination of connected products and data assisted preventative maintenance actions to reach optimum energy efficiency.

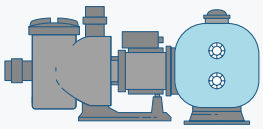

Smart Pool Assistants for all type of pools

Control, diagnose and manage your pool through the fluidraconnect.com platform

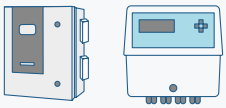

Through the Connect Box from your Connect & Go you will be able to control all types of products, compatible NN as well as the standard ones.

Filtration

Set-up and control of pumps for energy-efficient programs and optimum filter cleanliness status.

Water treatment

Integral water treatment strategy between all the pool systems. Recording all the measures as per local legislation requirements.

Lighting

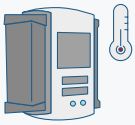

Synchronization with other equipments to generate smart ambient.

Surround & Garden Equipment

Control all the pool and garden accessories easily: Covers, fountains, IP Cams, even irrigation systems.

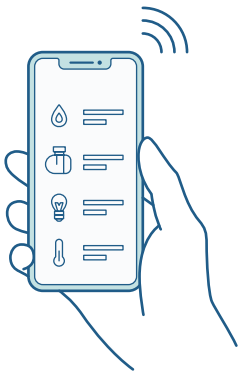

Heating and Dehumidification

Smart heating strategy for energy optimization together with the filtration and the water treatment equipment.

Control the pools under your supervision from anyplace, whenever you want with our pool assistants platform Fluidra Connect.

FLUIDRA CONNECT

FLUIDRA CONNECT

Fluidra Connect automation and NN Products for Commercial Pools

Fluidra Connect is a smart automation solution that allows both users and pool professionals to control pools remotely.

Different levels of remote control are offered depending on user profile:

- **End user:**
  - User friendly NN app to remotely monitor and control the pool
- **Pool professional:**
  - Intuitive and versatile NN PRO app to set up each pool and allows to monitor all installed pool sites.
  - Advanced remote control of all installed pool sites using the dedicated pool professional website www.fluidraconnect.com.

All product platforms below are NN compatible to allow a smart control & exchange with Fluidra Connect and associated smartphone apps and website.

User(s) can see more operating data and be able to access to more settings compared to standard products.

THE FUTURE IS HERE

CONNECT & GO COMMERCIAL PRODUCTS

Convenience & easy installation

A range of Connect & Go power center cabinets is offered to suit most commercial pools configurations.

Connect & Go Commercial power center cabinets contain all electrical protections and switches to manage pool equipment. Everything is pre-wired to ease installation process so it is the perfect solution for new pools, while also being adapted to retrofit situation (simply replace the whole cabinet with Connect & Go Commercial).

Fluidra Connect is a smart solution that enables end users and pool dealers to control a pool remotely. This makes it possible for pool dealers to check out, manage and control all the pools they have installed from a PC.

Connect & Go Commercial – EASY

Control and power devices for up to 3 pump sets with direct start and control devices for balancing tank. The panel includes control devices for lightning.

- 3 Filtration Pumps (3-phase).
- 1 Lighting Control.
- Balancing tank minimum level.
- Balancing tank filling level.
- Balancing tank maximum level.
- Transformer 24VAC filling valve.
- 3 Control pump switches M-0-A.
- 1 Lighting switch M-0-A.
- 1 Filling switch 0-A.
- 1 Digital input to monitor the filtration status.
- 1 Digital inputs to monitor the motor circuit breakers.
- 2 Digital inputs to monitor maximum and minimum balancing tank level.

Connect & Go Commercial – DIRECT

Control and power devices for up to 3 pump sets with direct start and control devices for balancing tank. The panel includes analog inputs, control of motorized valves in suction manifold and control devices for lightning.

- 3 Filtration Pumps (3-phase).
- 1 Lighting Control.
- 1 Aux. Output (max 10A).
- Balancing tank minimum level.
- Balancing tank filling level.
- Balancing tank maximum level.
- Transformer 24VAC filling valve.
- 3 Control valves inlet pumps.
- 3 Control pump switches M-0-A.
- 1 Lighting switch M-0-A.
- 1 Filling switch 0-A.
- Real energy / Reactive energy / Apparent energy meter.
- 4 Analog inputs (4-20mA).
- 3 Digital inputs to monitor filtration pump status.
- 3 Digital inputs to monitor the motor circuit breakers.
- 3 Digital inputs to monitor end of stroke.
- 2 Digital inputs to monitor maximum and minimum balancing tank level.
- 2 Digital inputs for water-meter by pulses.
- 3 Available digital inputs.
- 4 Available digital outputs (max 2A).

Equipotential anchor

New

The aim of this accessory for ladders is to solve the problem of not having the possibility to connect ground earth cable to ladders that do not have an anchoring on the pool beach.

It is mandatory by norms to connect metallic ladders to ground earth in order to have proper electrical connections. Moreover, it is highly recommended to avoid corrosion.

Equipotential anchor for ladders, manufactured in AISI-304L stainless steel and commercialized for concrete and liner pools. The anchors are composed of a recessed base on the ground, washer, screws and the equipotential bonding.

Each ladder needs to 2 units.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Concrete pools	**73318**	1	0.45	0.002
Liner pools	**73319**	1	0.50	0.002

POOL ACCESS - DISABLED ACCESS

Pal and Pal II portable chairs for disabled

Portable chair for disabled. No assembly required in pool deck area. The rechargeable 24V battery powers a mechanical actuator, ensuring that the chair is already ready for use. 30-Cycle duration once charged. The perfect solution for facilities with multiple pools as it can be set up anywhere along the pool deck and put away when not in use. Waterproof remote control. Easy to use, even for the end user. Just roll the chair to the edge of the pool, lock the wheels, set the stabilizers, and it is ready to use. Structure made of waterproof materials to prevent corrosion. Armrest and footrest included. The Pal makes any pool accessible in seconds. It is truly the easiest way to get everyone into the water.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
PAL II chair. Counterweight in cement blocks.	**69444**	1	-	-

* Ask your AstralPool distributor about infinity pools, spas and other non-standard models.

Splash semi-portable lifting system for disabled people

Semi-portable chair installed on the pool deck for disabled people. Includes a cart to carry the chair in order to install it in different locations. Installation requires a ground anchor. Its 24 V rechargeable battery supplies power to a metallic actuator, ensuring that the device is always ready for use. Duration of 30 cycles once loaded. Waterproof remote control. The Splash is equipped with a water resistant structure to prevent corrosion and it has armrests and a footrest. Its load capacity of 136 kg and its 359° swivel makes it one of the most practical solutions for disabled access to the pool.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Splash Chair	**53924**	1	390	1.789

Hydraulic lift

It is made up of a structure made of polished Ø 43 mm AISI-316L stainless steel pipes to which the hydraulic mechanism supporting the chair is fitted. For the hydraulic mechanism to work there needs to be a water supply with a minimum pressure of 3.5 kg/cm^2.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Fully equipped lift				
with a 650-mm-long handrail	**71657**	1	-	-
with a 1000-mm-long handrail	**71658**	1	-	-
Optional:				
Headrest	**71185**	1	-	-
Foot rests	**71186**	1	-	-

INSTALLATION: The external attachment is by means of two fixed metallic anchors (supplied with the device) and two adjustable front supports, which make it possible to adjust the lift to the finishes of different swimming pools.

To make it easier for people that require a hydraulic lift chair to get in and out of leisure or hydrotherapy pools. Easy to assemble.

Min. swimming pool depth: 1 m

All products must be installed at a depth of 30–40 cm. See the technical specifications on the following pages.

WATER GAMES AND ORNAMENTAL WATER FEATURES

Water features help to create a leisure space where you can enjoy water activities in a fun, safe and physically active environment with your family.

Hydra

Body of polyester reinforced with fiberglass.
Outlet nozzles made of stainless steel AISI-304L.
Hardware made of S.S. AISI-304L.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Hydra	**66450**	1	-	-

Crux

Body of polyester reinforced with fiberglass.
Outlet nozzles are made of stainless steel AISI-304L and polyacetal.
Hardware made of S.S. AISI-304L.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Crux	**66449**	1	-	-

Corvus

Body of polyester reinforced with fiberglass.
Outlet nozzles made of polyacetal (POM).
Hardware made of S.S. AISI-304L.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Corvus	**66451**	1	-	-

Rainbow Sunshade

Bodywork in polyester reinforced with fibreglass. AISI-304L stainless steel shaft.
Outlet nozzles made of stainless steel AISI-304L.
Hardware made of S.S. AISI-304L.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Rainbow Sunshade	**66452**	1	-	-

Palm

Shape made of polyester reinforced with fiberglass.
Body made of stainless steel AISI-304L.
Outlet nozzles made of polyacetal (POM).
Hardware made of S.S. AISI-304L.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Palm	**66453**	1	-	-

Bow

Body made of stainless steel AISI-304L.
Polyacetal sprinklers.
Hardware made of stainless steel.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Bow	**66456**	1	-	-

All products must be installed at a depth of 30–40 cm. See the technical specifications on the following pages.

WATER GAMES AND ORNAMENTAL WATER FEATURES

Lamppost

Baskets made of fibreglass.
Body made of stainless steel AISI-304L.
Outlet nozzles are made of stainless steel AISI-304L.
Hardware made of stainless steel AISI-304L.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Lamppost	**66454**	1	-	-

Streetlight

Shape made of polyester reinforced with fiberglass.
Body made of stainless steel AISI-304L.
Outlet nozzles made of stainless steel AISI-304L.
Hardware made of stainless steel AISI-304L.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Streetlight	**66455**	1	-	-

Rainbow Mini Slide

Slide made of polyester reinforced with fiberglass.
Panels made of 20 mm high density polythene.
Hardware made of stainless steel AISI-304L.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Rainbow Mini Slide	**66457**	1	-	-

Whale Mini Slide

Slide made of polyester reinforced with fiberglass.
Panels made of 20 mm high density polythene.
Hardware made of stainless steel AISI-304L.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Whale Mini Slide	**66458**	1	-	-

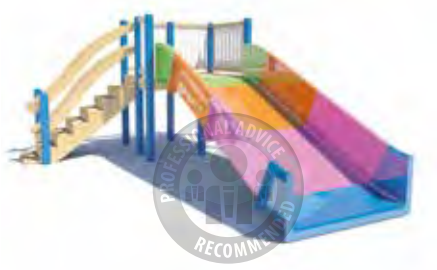

Atlantic

Slide made of polyester reinforced with fiberglass.
Posts made of AISI-304L stainless steel, coated in polyester paint.
High-density 15 mm polyethylene panels.
Outlet nozzles are made of stainless steel AISI-304L and polyacetal.
Hardware made of stainless steel AISI-304L.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Atlantic	**66459**	1	-	-

WATER GAMES AND ORNAMENTAL WATER FEATURES

Wave Splash bucket

Designed and manufactured according to the standards EN-1176. It has nozzles embedded and rotating parts that avoid grips and entrapments in order to ensure maximum safety.

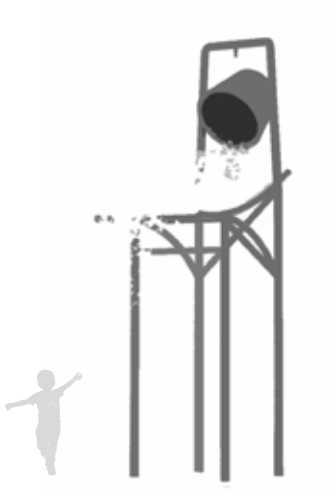

Used materials:

- AISI-304L stainless steel painted with powder coating of polyester, matt finish and treaty against the heat.
- Drive nozzles made of synthetic polymer POM.
- AISI-304L stainless steel hardware vandal-proof.
- Feet protection to prevent children from damage.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Lamppost	**IS-30A47**	1	-	-

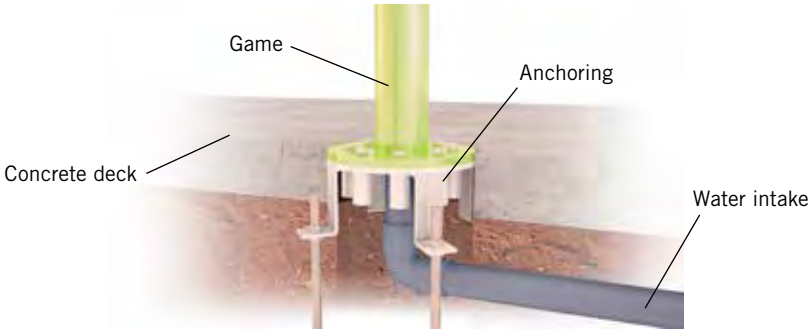

READY FOR FUN?

It is a game whose main feature is the surprise factor. Children do not know when the cube is filled and overturn on them all the water it contains. It is specially designed for older children or young people.

How is it installed ?

It is necessary to soak it into the concrete anchor and connect it to a water intake.

TECHNICAL FEATURES

Code	**IS-30A47**
Measurements	195 X 140 X 455 cm
Age range	4 - 15 years
Users	8 users
Water outlets	1 unit
Pool depth	From 0 to 35 cm
Pressure	10^5 Pa
Water flow	200 lpm

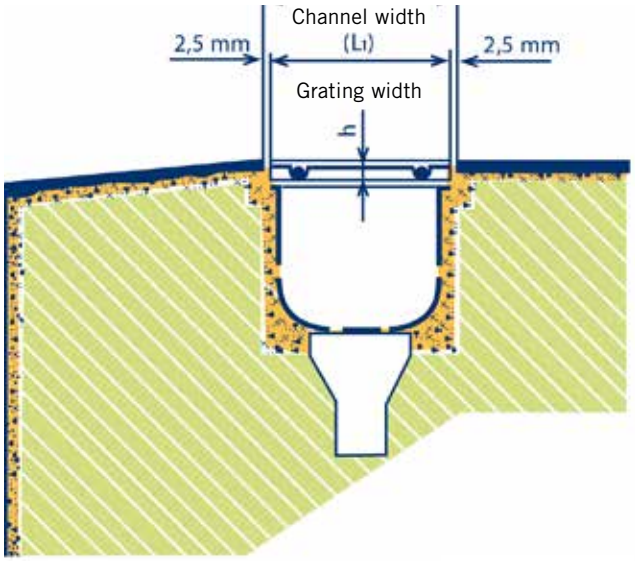

GRILLES FOR OVERFLOW

GENERAL NOTE FOR ALL MODELS

Made of PP stabilized against UV rays. The whole range comes in white. Ask your dealer about other colours.

Made up of tiles in modules for straight and curved sections (outer radius of 1 or 2 m), they click into place (male-female fitting), which gives certain leeway in assembling them, as well as absorbing their potential expansion due to the temperature changes to which they are exposed.

For all models of grating, a channel 5 mm wider than the grating must be built so that it easily fits into place and any potential expansion is prevented.

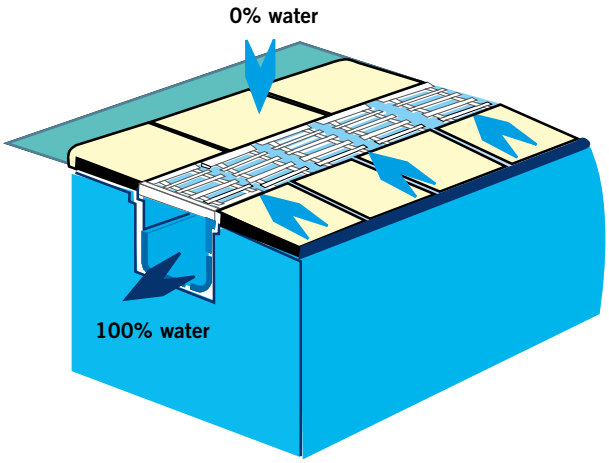

Channel width	Grating width
200	195
250	245
300	295
350	345

The height (h) of the grating varies depending on the model.

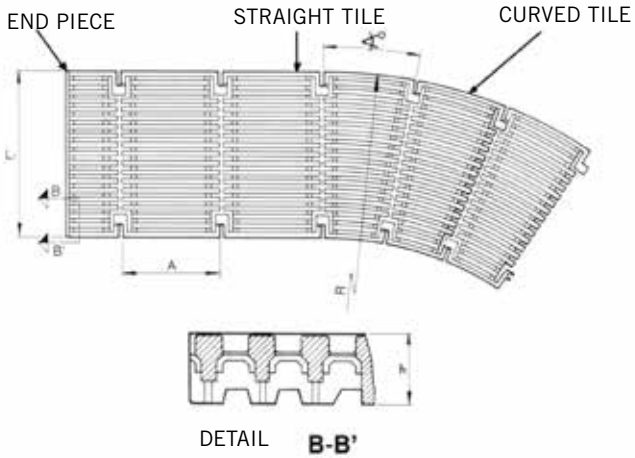

– Longitudinal model h = 24 mm

– Transversal model h = 22 mm and h = 35 mm

LONGITUDINAL MODEL

The longitudinal design of this model ensures that any excess water from the pool is not allowed to overflow onto the pool deck, thus maintaining it practically dry.

	Model	L	L1	h	A	∢°r.1m.	∢°r.2m.

GRILLES FOR OVERFLOW

Longitudinal grating tile

Made of PP stabilized against UV rays. Grating fastened together using male-female hooks (5 units = 1,024 meters). The flexible properties of the grating means a radius of up to 5 m can be covered.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Height 24 mm, width 195 mm	**05581**	45	16.2	0.080
Height 24 mm, width 245 mm	**05582**	29	13.4	0.080
Height 24 mm, width 291 mm	**05583**	28	15.6	0.080
Height 24 mm, width 345 mm	**05584**	19	13.2	0.080

Curved grating tile

Made of PP stabilized against UV rays. Grating fastened together using male-female hooks.

Height	L	L1	Radius	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
24 mm	200 mm	195 mm	1 m	**08001**	60	17.2	0.079
24 mm	300 mm	295 mm	1 m	**08002**	32	14.6	0.079
24 mm	250 mm	245 mm	1 m	**07565**	42	17.2	0.079
24 mm	350 mm	345 mm	1 m	**07566**	24	13.4	0.079
24 mm	200 mm	195 mm	2 m	**05585**	48	17.2	0.079
24 mm	250 mm	245 mm	2 m	**05586**	30	14.2	0.079

End piece kit for parallel grating

Made of AISI-304L stainless steel plate, with end piece and longitudinal grating made of PP stabilized against UV rays. Made so that the grating in the end piece can be cut to fit in place.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Height 24 mm, width 195 mm	**16064**	15	5.11	0.002
Height 24 mm, width 245 mm	**16065**	12	5.17	0.002

Stainless steel longitudinal grating

Longitudinal grating made of stainless steel. A channel 5 mm wider than the grating must be dug so that it is easy to fit.

It is made up of straight sections of AISI-316L stainless steel, 500 mm in length. Straight sections can be made to measure in order to fit the length of any pool.

There are 4 different models depending on the grating used. Height 35 mm

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3

POOL MAIN DRAINS INFORMATION

How affects UNE-EN 13451-3:2012+A3:2016 main drains in commercial pools

	NEW POOL		POOL RENOVATION	
	Suction rate: insure a maximum of 0.5 m/s paragraph 4.6.1			
	ANTI-VORTEX COVER	**NON ANTI-VORTEX COVER**	**WITH MAIN DRAIN BODY CHANGE**	**UNCHANGED MAIN DRAIN BODY**
RISK OF ENTRAPMENT **How to prevent it?**	Number of main drains per pool: **1** According to paragraph 4.6.1b (1,2 and 3)	Number of main drains per pool: **2** balanced main drains, **distanced at minimum 2 meters.** And if any of the **2 main drain** is blocked the remaining one **should be able to absorb 100%** of the installation flow. According to paragraph 4.6.1a (1,2 and 3)	Applies **new pool rules**	Install an **anti-vortex grille** on pre-installed main drain According to paragraph 4.6.1b (1,2 and 3) or one or more additional main drain shall be installed as paragraph 4.6.1a (1,2 and 3)
	Another possibility is to install a compensating tank.			
CAVITY DIMENSION	Main drain should respect a certain cavity dimensions according to a mathematical rule.			
	In addition to the main drain requirements a vacuum system may be provided.			
OTHERS	Other requisites are considered to define that a main drain in compliant with EN, like design. e.g. the design of the grill to avoid human body parts or hair entrapment.			

Only with the fulfillment of all requisites of the standard, a Compliance Certification can be delivered!

*Anti-vortex plate is a special component installed in the suction line to control the turbulence in a flowing fluid. These plates allows to control the velocity of the fluid thus preventing cavitation in the fluid according to UNE-EN 13451-3.

CONCRETE POOL - DRAINS

All main drains in the range are supplied with UV protection.
To prevent the risk of suction, install the main drains according to local regulations.

Recommended use:

- Maximum suction rate of 0.5 m/s.
- Install at least 2 main drains, each with a suction capacity able to handle the pool's full flow rate.

LINER AND PREFABRICATED POOL - DRAINS

All main drains in the range are supplied with UV protection.
To prevent the risk of suction, install the main drains according to local regulations.

Recommended use:

- Maximum suction rate of 0.5 m/s.
- Install at least 2 main drains, each with a suction capacity able to handle the pool's full flow rate.

ASTRALPOOL

MODULAR PREFABRICATED POOLS

Freestanding modules for pools and spas, with a reinforced, waterproof composite, ready for the final coating.

Prefabricated modules with all accessories and wall conduits to ensure watertightness in the event of vibrations and water hammer.

The thermal expansion coefficient of our prefabricated modules is far superior to that of concrete, as a result of which they do not crack over time because structural movement due to expansion and contraction are absorbed.

Ideal for refurbishments, roof tops, basements, etc. Their modular design makes them extremely easy to transport and work freely on the building site.

Exclusive designs without any restrictions, thanks to our computer-controlled systems that enable our clients to come up with their own designs without the need for casts, thus avoiding manual errors.

The prefabricated component parts make it possible to build and refurbish pools to the designers exact specifications, as well as enabling a pool to have exactly the same finish as a traditional one.

- Installation on complex sites
- Modular and freestanding
- Energy savings
- Resistant to water load
  Lightweight framework
- Prefabricated system

MODULAR PREFABRICATED POOLS

The top finish can be directly applied to the insulation material, which protects it from potential condensation between gaps that give rise to the proliferation of micro-organisms organisms that are a health hazard for humans.

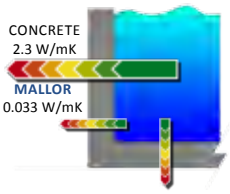

Hardly any power loss (λ= 0,033 W/mK) in comparison with concrete (λ= 2,30 W/mK), which means it pays for itself in a very short space of time.

INOXPOOL

Installation

PREPARATION OF THE GROUND

The base the spa or pool must be prepared.

TRANSFER TO LOCATION

Manufactured in one piece, your transfer must be made by an authorized mode of transport.

The transfer must be made in a reinforced trailer or truck so that it arrives at its destination in perfect condition.

TRANSFER BY CRANE

Facilities must have easy access (outside) to be able to install the crane that will help to unload the Spa or Pool and put it in place.

UNLOADING THE POOL

The installation must be checked and secured so that everything is in perfect order.

LEVELING AND ADJUSTMENTS

Assembling the connections and putting it into operation is the last step before you can enjoy a relaxing and dreamed of space of well-being.

SKYPOOL COMMERCIAL POOLS

ABOUT SKYPOOL

PANEL POOLS, THE VERY LATEST TECHNOLOGY THAT ENSURES PRECISION AND ACCURACY

The easiest, quickest and surest way of building any required residential and commercial pool. SkyPool is AstralPool's range of prefabricated panel pools that can be adapted to fit existing infrastructures or new ones.

The use of these totally prefabricated panels that are easy to fasten and assemble together means that an in-ground or above-ground pool can be built in record time.

The steel panels undergo hot-dip galvanisation in a bath of zinc, which gives them excellent protection against rusting so that they last longer and their safety is guaranteed throughout their service life.

SkyPool, experts in end-to-end solutions

Thanks to SkyPool, AstralPool is the undisputed world leader in prefabricated pools made of galvanized steel panels. Our flexibility and drive, in addition to the way we adapt to the needs and regulations of each market have led us to build pools in more than 60 countries, which has made us one of the companies with the greatest international outreach in the sector.

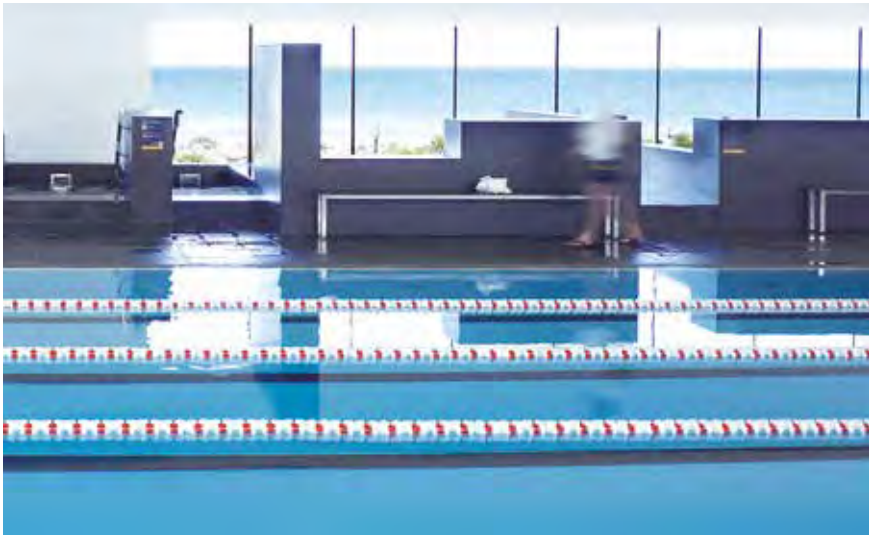

Award-winning competition pools.

As leaders in this sector, we have longstanding experience in the development of solutions for the world of competition. We make pools of any size including the required by FINA standards and regulations.

End-to-end solutions.

AstralPool has a multidisciplinary team able to give you support in the development of your project from beginning to end, as well as the degree of experience and know-how expected of a world leader:

· Project analysis.
· Preliminary design study and quote.
· Advice and water treatment.
· Manufacture.
· Worksite management.
· Installation of complete solutions.

SKYPOOL COMMERCIAL POOLS

SkyPool is the best choice for many reasons.

Quick

The use of completed prefabricated components together with the easy assembly system considerably reduces the time required to build a pool.

Versatile

This system can be used for any design, whatever a pool's shape.

Long-lasting

New design and manufacturing systems are used to obtain maximum quality, functionality and durability of all pool components. The metal structure has a 20-year warranty.

Lightweight

Choose a place and we'll build a pool there! The advantage of the lightweight structure that is easily adaptable is that pools can be built even in awkward conditions. Small spaces, rooftops, stadiums, etc.

Inexpensive

As no complex infrastructure has to be built, a high performance pool can be obtained at a lower cost.

Reliable

The use of the very best components, together with a totally safe construction system, delivers the reliability required in this type of facility.

Sustainable

All components can be recycled, are non-contaminating and are manufactured using processes with a low environmental impact.

Advantages of SkyPool

1. Technology

Thanks to the technology used in the construction of SkyPool panels, they are fully compliant with FINA regulations. There is an extremely easy and efficient system for adjusting the level and angles of a pool. The access through the system's manholes enables all adjustment to be made.

2. Watertight. No leaks.

There are no cracks. The perfect fit of the assembled SkyPool panels covered by the liner ensure the pool shell is completely watertight. Furthermore, the system has been designed to withstand land movements and subsidence, in addition to the pressure exerted when a pool is emptied or filled.

3. High resistance finishes.

The PVC-P reinforced liner used by SkyPool is watertight, which gives these pools a high level of safety, protection, robustness and durability. Furthermore, it is resistant to chlorinated water and aging caused by external agents. The liner ensures elasticity and is available with a wide range of optional features (colours, etc.).

4. Quicker installation time.

It can take as much as two months off the time to manufacture and install an Olympic SkyPool (50 x 25 x 2 m) in comparison with a concrete pool. This considerably reduces indirect and opportunity costs.

5. Low maintenance.

As there is access to the pool perimeter, any problems are more quickly located, so repair and maintenance work is easier and costs less.

6. Earthquakes resistant.

Build earthquake-resistant pools. The team of Skypool engineers calculates and adapts the system according to the seismic regulations of each country. Under request.

SKYPOOL COMMERCIAL POOLS

SkyPool panel models

BARCELONA PANEL

Freestanding galvanized steel panel suitable for pools of up to 2.5 m. Fastenings are only required at the bottom.

CAR PANEL

Freestanding galvanized steel panel suitable for pools of up to 3 m. Fastenings are required at the top and on the bottom.

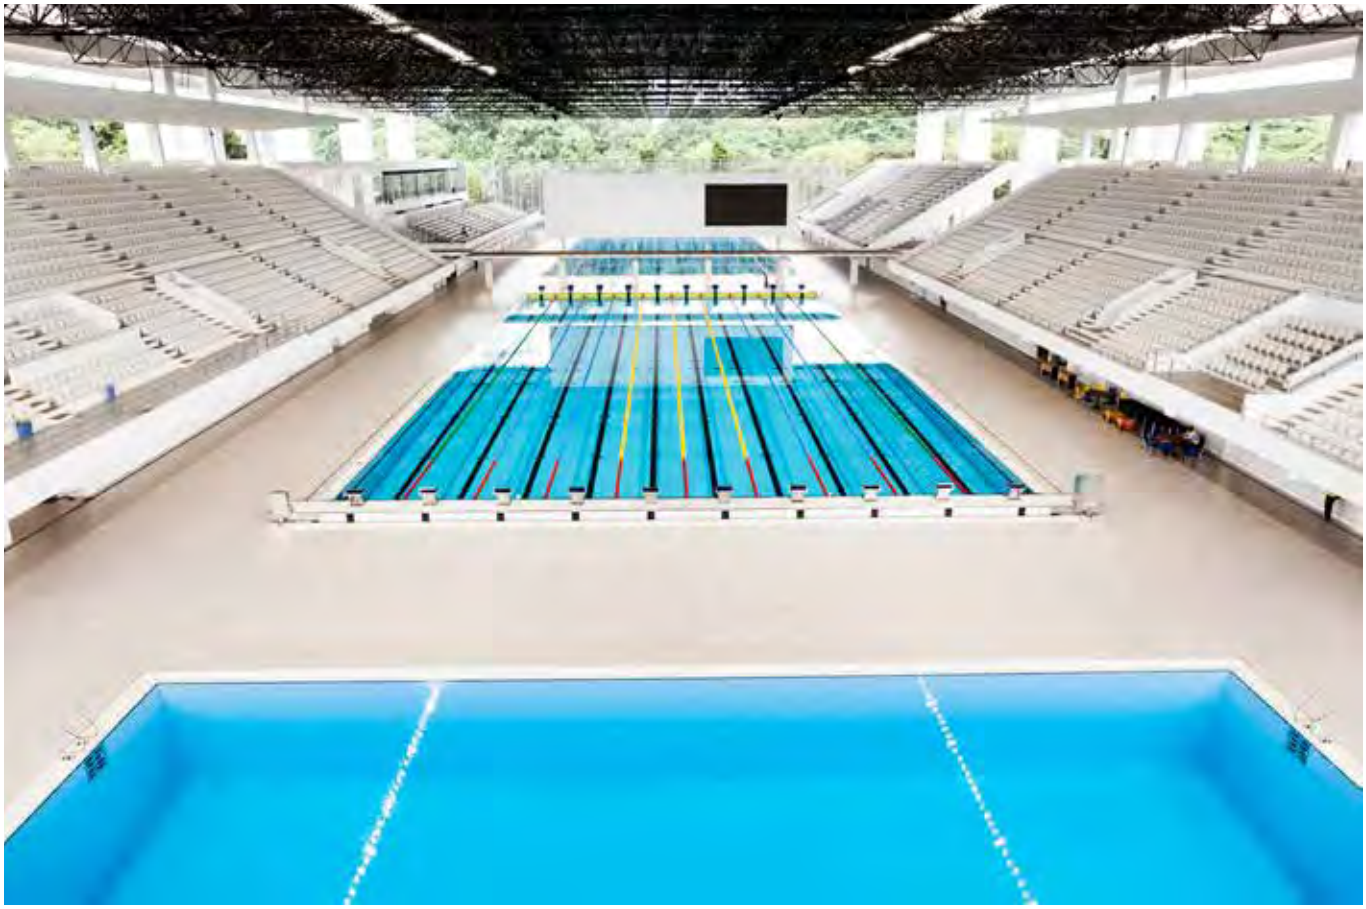

RENOVATION PANEL

Freestanding galvanized steel panel suitable for pools of up to 2.5 m. Fastenings are only required at the bottom.

MELBOURNE PANEL

Freestanding galvanized steel panel suitable for pools of up to 3 m with structure to install the surround of the pool.

BLUESPRING

Bluespring

When the sides of the overflow blend with the sky and with the surrounding atmosphere, the fulfillment of the perfect pool is realized, the time when the pool disappears and binds to the infinite lines.

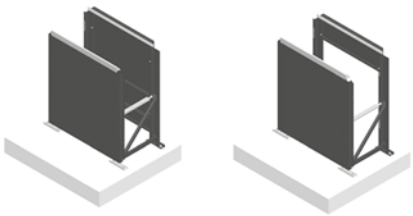

Bluespring is designed to give space to the architectural interventions to harness the magic of the different types of overflow available. The structure has been designed to maintain the integrity of the performances over the years, getting its point of excellence in the reliability using. The best technology at the service of demanding customers who believe in the beauty of their own water space.

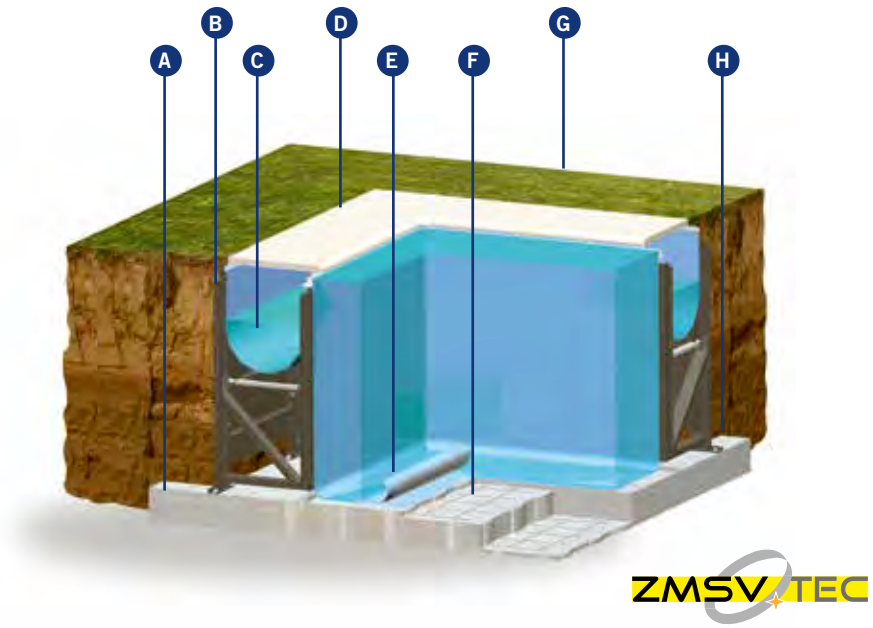

A Reinforced concrete slab
B Steel structure
C Compensation channel
D Perimetric flooring
E Reinforced membrane
F Concrete reinforcement
G Terrapieno
H Fasteners

POOL WARRANTY: 5 YEARS

ACCESSORIES WARRANTY: 2 YEARS

The Bluespring structure technology is made of galvanized and passivated steel with low-carbon Z275 coverage, treated with the exclusive protective Laghetto ZMSV-TEC coating.

All the ground supports, the threaded rods anchors, the moving parts and the nuts and bolts are made of stainless steel.

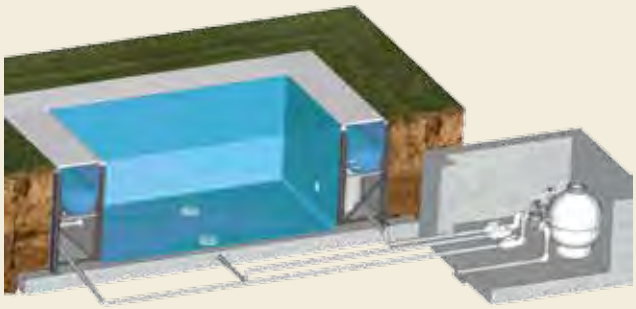

The Bluespring ZMSV-TEC structure provides a full height ground retaining panel if used as a classical inground pool, or is equipped with a shortened panel in case it is mounted in above ground situations.

Bluespring offers two standard heights for the pool panel: **130 and 152 centimeters**.

Higher or variable water depth can be obtained directly by varying the design of the bottom slab.

Bluespring compensation system

With Bluespring balance tank is not necessary, thanks to the use of big and capacious overflow duct, which allows to avoid the construction of the external compensation tank, with consequent and evident of space and cost savings.

PUBLIC POOL FILTRATION CODING

Coding

The filter code is composed of eight digits. The first five digits correspond to the filter code and the last three digits correspond to the model – this information is given in the tables below.

This codification system is used for the Praga, Oslo, Olot, Ampuria, Rodas, Vic, Europe, Vesubio and Delta filters.

Position	1	2	3	4	5	–	6	7	8

Position 1 to 5: Five digit code of the standard product.

Position 6 Specifies the nozzle plate and vinyester options	
0	Filter without nozzle plate
1	Filter with nozzle plate
2	Vinylester finish
3	With plate and vinylester

Position 7 Specifies side opening options	
0	Without nozzle plates
1	1 Ø 225 mm manhole
2	1 Ø 400 mm manhole
3	2 Ø 225 mm manholes
4	2 Ø 400 mm manholes
5	1 Ø 500 mm manhole
6	1 Ø 600 mm manhole

Position 8 Specifies sightglass options	
0	Without sightglasses
1	1 sightglass for laminated filter
2	1 Ø 135 mm sightglass
3	2 Ø 135 mm sightglasses
4	2 Ø 225 mm manholes

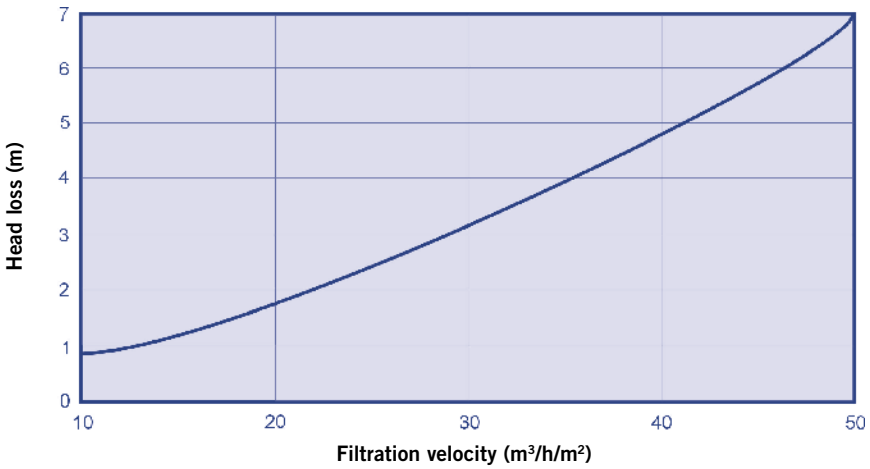

Notes: Rodas filters with nozzle plates are not available.
Ø 500 mm side opening for filters as of Ø 1050 mm.
Ø 600 mm side opening for filters as of Ø 1800 mm.
Maximum vinylester option of 0.5 ppm.

Please enquire pricing for various options:

- Vinylester finish
- Ø 225 mm and Ø 400 mm manhole
- Sightglass
- Plate

Head loss curve

Filters from Ø 1050 mm to Ø 3000 mm

Filtration bed 1 m

Optional:
Standard American sizes

LAMINATED FILTERS

Vesubio filters - Commercial pool series

Made of polyester resin and fibreglass. Equipped with pressure gauge, and manual air and water purge valves. Ø 400 mm cover Suitable for filtration speeds of 20, 30, 40 and 50 $m^3/h/m^2$. Please ask your dealer for other speeds. All filters can be assembled with valve manifolds. 2½" sand discharge outlet.

Maximum pressure: 2.5 kg/cm².

Filtration bed 1.2 m

LAMINATED FILTERS

DIN filters

Laminated filter made of polyester resin and fibreglass. According to standard DIN 19643/19605. Ral 5015 colour code.

It is characterised by:

- Bolts in 316 AISI.
- Outlet clear water above nozzle plate in Europe.
- Nozzle plate system 65 units / m².
- 5 years warranty in tank.
- Maximum pressure: 2.5 bar.
- Maximum temperature 50º C.
- Sight glass 50 x 300 mm (one or two sight glasses, depending on model).
- Filter bed height 1,2 m.
- Freeboard 0,5 m.
- Connections in polyester.
- Lateral manhole d.400 in all models except Norma DIN 650 with d.200 mm.
- Top manhole d.400 mm in all models except Norma DIN 650 and 800 with d.200 mm.

OPTIONAL FEATURES

- Maximum pressure 4 bar.
- Ozone resistance 10mg/l (DIN 18820).

Filtration bed 1 m

DOES NOT INCLUDE VALVE MANIFOLD

For filters with nozzle plates, a side opening (Ø 400 mm or Ø 225 mm) should be made for emptying the filter medium.

Optional: Standard American sizes

Filter base

Collector arms

BOBBIN WOUND FILTERS

Vic filters

Industrial bobbin wound filters with diameters from 1050 mm to 3000 mm, with the corresponding flange connections for different filtration velocities. Replaces the Atenas model. New top cover system with quick closing system 400 x 500 mm opening. The air relief valve is fitted into the cover in order to help eliminate air from the filter. 1½" collector arms injected in ABS at the necessary lengths for each of the filters and without joints. Lengths from 90 mm to 525 mm. A reduced head loss is achieved thanks to the greater diameter of the arms.

The 90 mm diameter collector tubing is injected in PVC. Water purge and air relief are faster due to a 1" connection. The distance between the top sand layer and the diffusor head ("freeboard") has been increased to ensure greater water distribution during filtration and to prevent sand entering into the laterals during the backwashing.

In the case of filters with diameters of 2350 mm, 2500 mm and 3000 mm, the top cover is Ø 400 mm that screws into place and has a PRFV high resistance neck ring. The 200 mm, 225 mm and 250 mm connections are in PVC and the foot is plain, both of which are features very similar to the Oslo and Prague models.

Maximum pressure: 2.5 kg/cm².

DOES NOT INCLUDE VALVE MANIFOLD

OTHER SPECIFIC DEPTHS MAY BE MADE TO ORDER.

THE Ø 3000 mm FILTERS WILL BE SHIPPED BY SPECIAL DELIVERY. ASK YOUR DEALER ABOUT ADDITIONAL COSTS.

For filters with nozzle plates, a side opening (Ø 400 mm or Ø 225 mm) should be made for emptying the filter medium.

Optional: Standard American sizes

BOBBIN WOUND FILTERS

Praga filters

Polyester and fibreglass single-layer filter Ø400mm lid. Equipped with pressure gauge panel, manual air and water bleed valves and drain plug. Suitable for filtration speeds of 20, 30, 40 and 50 $m^3/h/m^2$.
For other filtration velocities, please enquire.

Maximum pressure: 2.5 kg/cm^2.

Filtration bed 1 m

BOBBIN WOUND FILTERS

2.5 bar OC-1 Praga filters

Filters manufactured with a resin and fibreglass bobbin.

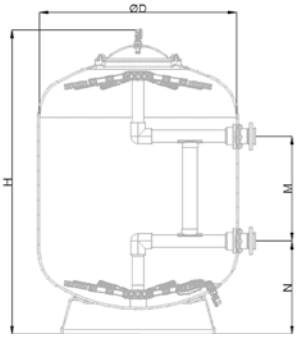

- Maximum working pressure: 2.5 bar
- Maximum temperature: 50ºC.
- Height of filter bed: 1 m or 1.2 m
- Colour: RAL 6027.
- Ø400 mm plastic lid.
- Ø¾" manual air bleed valve.
- Special interiors with 3mm slot arms.
- PVC connections.
- Average discharge of Ø90 mm in models Ø1050 to Ø1400 and Ø140 mm in models Ø1600 to Ø3000.
- Ø¾" manual water bleed valve.
- **Filter suitable for OC-1 medium only. Not suitable for sand, glass or other type of filtration media.**

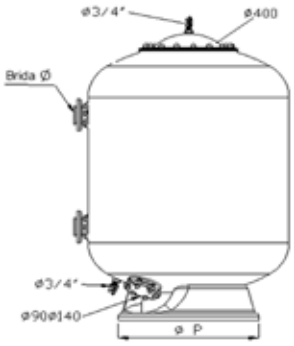

OC-1 filtration medium

Maximum pressure: 2.5 kg/cm².

THIS TABLE ONLY COVERS HIGH PERFORMANCE OSLO AND OLOT BOBBIN WOUND FILTERS

Oslo Olot

DOES NOT INCLUDE VALVE MANIFOLD

BOBBIN WOUND FILTERS

Vertical high performance bobbin wound filters

General features:
- 100% resistant to corrosion unlike conventional steel filters
- Maximum operating temperature 50º C
- Comply with European standards for pressure vessels 97/23/CE included in section 3 of article 3
- Hydraulic pressure test 1.5 times the maximum admissible pressure

Technical features of internal components:
- Internal components and pipe in PVC
- Laterals and nozzles in PP
- Airwash connection in models with underdrain nozzle plates
- Bolts, nuts and washers in AISI-316
- EPDM seals and gaskets.

Advantages of using an underdrain nozzle plate system over the conventional lateral system:
- There are no areas beneath the nozzles for water to stagnate as could occur in a lateral system
- Optimum filter bed back wash with an uniform water distribution
- Possibility of air wash with consequent saving of clean water
- The lateral manhole is recommended for sand discharge

The characteristics of liquids to be filtered should be indicated clearly when requesting ozone or other chemical resistant coatings for the filter interior.

(1) 100 mm above laterals

Filtration bed 1.2 m

DOES NOT INCLUDE VALVE MANIFOLD

OTHER SPECIFIC DEPTHS MAY BE MADE TO ORDER.

THE Ø 3000 mm FILTERS WILL BE SHIPPED BY SPECIAL DELIVERY. ASK YOUR DEALER ABOUT ADDITIONAL COSTS.

Optional:
Standard American sizes

Lateral manhole Ø 400 mm

Nozzle plate

Sightglass

BOBBIN WOUND FILTERS

Oslo filters

Characteristics:
Vertical high performance bobbin wound filters

Collector system:
A - Conventional collector system using laterals with 0.3 mm slots.
For working pressure of 2.5 and 4 bars.
B - Nozzle plate with 0.5 mm slots. For working pressure of 2.5 and 4 bars.

Fitted with:
- Pressure gauge panel
- Manual air vent and water purge

Options:
- Positioning of water connections flanges, sightglasses and manhole covers are provided according to customer specification.
- Diameters of connections and purges depend on customer specifications
- For other variations such as height, chemical resistant internal coating, pressure rating, etc., please enquire.

Maximum pressure: 2.5 kg/cm².

BOBBIN WOUND FILTERS

Construction features of the filter according to DIN 18820:

- (1) Chemical protective gel-coat barrier isoneopenliglical type CSS-UP3.
Superior hardness and resistance to the abrasion of sand and salt water. Complies with German standard KTW recommendations and certified by LVHT.
The optional vinylester layer for protection against ozone is of the CCS-PHAS class.
- (2) Polyester reinforced laminated resin with randomly orientated fibreglass filament GF-UP1type.
- Reinforced in MW areas under greater stress with an additional woven matting, alternating non-aligned (4) with aligned fibres (3).
- A set of radial bobbin layers (5) (7) on the cylindrical part and a set of polar layers (6) along the entire filter body with type GF-UP1 made with numeric control machinery. The most essential feature of these filters is their mechanical resistance which enables them to withstand greater internal pressures.
- All filters are submitted to a seasoning process at a temperature of 60°C.

Ø 1050 mm and Ø 1200 mm Rodas filters

Ø 1050 mm
Ø 1200 mm

General features:
- 100% resistant to corrosion unlike conventional steel filters
- Excellent relation between filter weight and its mechanical characteristics
- Maximum operating temperature 50º C
- Comply with European standards for pressure vessels 97/23/CE included in section 3 of article 3
- Hydraulic pressure test 1.5 times the maximum admissible pressure
- Resistance and thickness calculations are based on norms BS-4994 and AD Merkblatt N1

Fitted with:
- Pressure gauge panel
- Manual air vent and water purge
- Ø 400 mm lateral manhole and Ø 140 mm top port

Characteristics of internal components:
- Internal components and pipe in PVC
- PP laterals with 0.3 slots
- Bolts, nuts and washers in AISI-316
- EPDM seals and gaskets.

Filter bed depth 0.6 m

BOBBIN WOUND FILTERS

Ø 1400 mm and Ø 1600 mm Rodas filters

General features:
- 100% resistant to corrosion unlike conventional steel filters
- Maximum operating temperature 50º C
- Comply with European standards for pressure vessels 97/23/CE included in section 3 of article 3
- Hydraulic pressure test 1.5 times the maximum admissible pressure

Fitted with:
- Pressure gauge panel
- Manual air vent and water purge
- Ø 400 mm lateral manhole

Characteristics of internal components:
- Internal components and pipe in PVC
- PP laterals with 0.3 slots
- Bolts, nuts and washers in AISI-316
- EPDM seals and gaskets.

Maximum pressure: 2.5 kg/cm².

MEDIA RECOMMENDATIONS - Sand = 1.4 Kg/dm³ - Gravel = 1.5 Kg/dm³

Filtration bed
1 and 1.2 m

DOES NOT INCLUDE
VALVE MANIFOLD

Ø 2000 mm
Ø 2350 mm

Optional:
Standard American sizes

BOBBIN WOUND FILTERS

Ø 2000 mm and Ø 2350 mm Rodas filters

General features:
- 100% resistant to corrosion unlike conventional steel filters
- Maximum operating temperature 50º C
- Comply with European standards for pressure vessels 97/23/CE included in section 3 of article 3
- Hydraulic pressure test 1.5 times the maximum admissible pressure

Fitted with:
- Pressure gauge panel
- Manual air vent and water purge
- Ø 400 mm lateral manhole

Characteristics of internal components:
- Internal components and pipe in PVC
- PP laterals with 0.3 slots
- Bolts, nuts and washers in AISI-316
- EPDM seals and gaskets.

Maximum pressure: 2.5 kg/cm².

MEDIA RECOMMENDATIONS : Hydroanthracite = 0.8 Kg/dm³ - Sand = 1.4 Kg/dm³ - Gravel = 1.5 Kg/dm³

*With lengths (dimension L) of 4000 mm or more, an additional central support is provided.

Filtration bed 1 and 1.2 m

DOES NOT INCLUDE VALVE MANIFOLD

Ø 2500 mm

Optional:
Standard American sizes

LARGE FILTERS OF MORE THAN 3000 mm WILL BE SHIPPED BY SPECIAL DELIVERY. ASK YOUR DEALER ABOUT ADDITIONAL COSTS. ABOUT ADDITIONAL COSTS.

BOBBIN WOUND FILTERS

Ø 2500 mm Rodas filters

General features:
- 100% resistant to corrosion unlike conventional steel filters
- Maximum operating temperature 50º C
- Comply with European standards for pressure vessels 97/23/CE included in section 3 of article 3
- Hydraulic pressure test 1.5 times the maximum admissible pressure

Fitted with:
- Pressure gauge panel
- Manual air vent and water purge
- Ø 400 mm lateral manhole

Characteristics of internal components:
- Internal components and pipe in PVC
- PP laterals with 0.3 slots
- Bolts, nuts and washers in AISI-316
- EPDM seals and gaskets.

Maximum pressure: 2.5 kg/cm². **Filters Ø 2500 mm**

VALVE MANIFOLDS

Valve manifold - Coding

All manifolds are supplied disassembled
All manfiolds have to be supported correctly
(See brackets on page 560)

Manual or automatically driven valve manifolds made of PVC (PN-10) with flanges for connection to filters as per DIN-2501 standard.

PVC butterfly valves and ball valves.

Automatic valve manifolds, driven either by electric power or pneumatically, for carrying out filtration, backwashing, rinsing and shut down of the filters. Fitted with two valves without safety blocks (electric) or dual action (pneumatic), and the remaining valves with safety blocks (electric) or spring return (pneumatic), to avoid accidentally emptying a pool.

* Ask Cepex Catalogue for automatic ball valves and butterfly valves codes.

Assembly with control box
See page 559

A: Electric driven without safety block
B: Pneumatic driven spring return

In order to facilitate sales and prices, a new code system for filter manifolds has been introduced to Catalogues. It consists in assigning a code to each model of manifold as shown in these tables. There is a total of 60 codes and subsequently, in order to determine exactly which filter is being referred to, a system of variations is used, given that the retail price does not vary.
To work out the variation the type and diameter of the filter must be identified, as the output diameters match the manifold code.
For manifolds with more than one filter please consult.

CONTROL BOXES

Control panel for valve manifolds

Control panel for electrically or pneumatically actuated manifolds of 4 or 5 valves. For automatic filtration, backwashing, rinsing and shut-down operations. Fitted with automatic programming installation that enables the execution of all the required operations and can be personalized to suit your requirements. Quick and easy installation with numbered terminal connection strip. Voltage 230 V single phase. Does not include valve manifold.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
For 4 valves				
2 valves without block, 2 valves with block. Electric actuator	**41005**	1	6	0.04
2 valves double acting, 2 valves spring return. Pneumatic actuator	**41009**	1	6	0.04
For 5 valves				
2 valves without block, 3 valves with block. Electric actuator	**41007**	1	6	0.04
2 valves double acting, 3 valves spring return. Pneumatic actuator	**41011**	1	6	0.04

Overhead PVC pressure pipes should be mounted on supports. The distance between them should be as shown in the table.
Distance between supports in m (according to UNE 53.399).

These distances are based on a maximum temperature of 20 ºC.
In the case of higher temperatures, the values shown should be multiplied by the following reduction coefficients:

- Between 20 and 30 ºC, coefficient of 0.9

- Between 35 and 45 ºC, coefficient of 0.85

In vertical installations, the distance between supports may be as shown in the table multiplied by 1.3.

SUPPORTS FOR VALVE MANIFOLDS

Valve manifold brackets

Easy assembly valve manifold brackets from Ø 63 mm for all filter types. Totally adjustable in height, consisting of vertical support pipes in zinc-plated steel, together with box of accessories.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Zinc-plated steel				
Height 1.85 m	**28690**	1	3.8	-
Height 2.30 m	**28691**	1	4.5	-
Height 3.0 m	**28692**	1	5.9	-
Box of accessories consisting of:				
2 support brackets with anti-vibration clamps,				
and fixing bolts and accessories				
For Ø 63 mm pipe	**42598**	1	1.5	0.011

FILTRATION MEDIA & ACCESSORIES

OC-1 filtration medium

OC-1 filtration load: The future of pool filtration

OC refers to Open Cell and OC-1 is a mechanical filter that uses open-cell filtration technology to filter water with a high quality, increasing the water saving and energy potential. The filtration media is an extruded plastic compound comprising a base of High Density Polyethylene with Calcium Carbonate

- Saves water: exclusive filtration method that reduces water consumption by more than 40%
- Saves power: lets you use a smaller pump or lower the power to get the same flow you would with traditional filtration media.
- Saves time: OC-1 reduces backwash frequency to less than a third of traditional methods, meaning more leisure time for you.
- The OC-1 media has been tested in accordance with current European standard EN16713-1.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
OC-1 50L filtration media bag	**69752**	1	9.0	0.05
OC-1 20L filtration media bag	**69753**	1	3.6	0.02

Active Clear Glass

AstralPool launches the new activated glass filter media Active Clear Glass.

The new product has the following benefits:

- More efficient and environmentally friendly filtration.
- Greater filtration capacity.
- Water and energy savings.
- Cleaner filter bed as bacteria does not remain trapped and fewer chemical products are needed.

Granulomety	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3

Optional:
60 Hz pumps (code XXXX-0810).

SELF-PRIMING PUMPS

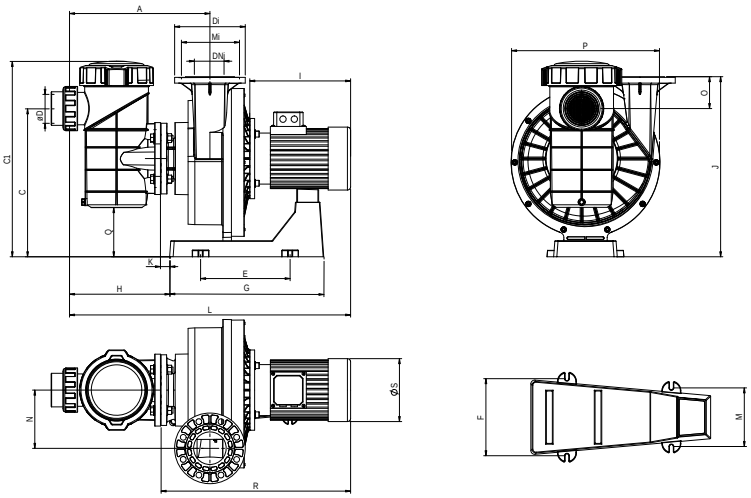

Kivu Pump

High performance plastic self-priming pump for high flow rates (1500 rpm).
- 3 power modes: 3 HP, 4 HP and 5.5 HP.
- Low sound level: as low as 59 dBA.
- Hydraulic efficiency without prefilter 78% (as per ISO 9906 standard).
- High quality mechanical seal for salt water.
- IEC high efficiency motors (IE3).
- Standard motor shaft (compatibility with any pump manufacturer).
- Pump comes with pre-filter (in 2 packages: pump + prefilter).

CENTRIFUGAL PUMPS

Aral C-1500 pump

Made in cast iron. Mechanical seal in stainless steel. IP-54 motor protection. Stainless steel AISI- 316 shaft. With stainless steel (AISI-304 11 L - AISI-316 37 L) strainer basket. Connections PN 16 according to DIN 2501. 1,450 rpm. Connections PN 16 according to DIN 2501. Connections PN 16 according to DIN 2501.
Also available with bronze impeller.

FREEPOOL²

freepool²

Salt chlorinator + UV + CO_2

Freepool² disinfects the water thanks to the slat chlorinator and the UV and corrects pH levels by injecting CO_2 through the reactor

75% reduction
in the concentration of **oxidants** in the atmosphere, improving the quality of the atmosphere and reducing the smell of chlorine.

20% reduction
of **combined chloramines** in the water, reducing skin and eye irritation and respiratory complications.

100% reduction
in the addition of diluted **acids and chlorinated products**; completely avoids the need to add chlorinated products and acids.

66% reduction
in the consumption of new supplies of **water**, with savings in water and energy wherever it is installed.

FREEPOOL²

Pools without chemical products that deliver unbeatable water and air quality

Revolutionary public pool water treatment and disinfection system. Freepool² keeps the quality of water to the highest standards without the need to add chemical products.

Freepool² is a unique product that comes with three water treatment technologies that optimize disinfection and pH levels: a low-salinity salt chlorinator for disinfecting the water, medium-pressure UV for reducing combined chloramines and a CO_2 injection system for adjusting the pH.

The main advantages of Freepool² are:

- **Water quality.** Studies carried out by Universidad Autónoma de Barcelona and Hospital Clínic de Barcelona revealed that swimmers' perception of a "perfectly clean" atmosphere increased significantly.
- **Safety.** There is no need to store, handle or measure out chemicals and it is therefore a safer system.

Technical features:

- Chlorine output of 180 g/h
- Three 90 W UV lamps
- CO_2 injector and pH control kit for dosing and absorption

SALT ELECTROLYSIS AND PH/CL CONTROL

Salt Electrolysis for public pools

Salt water chlorinators for commercial pools are becoming popular because they are efficient, practical, safe and well priced.

Our wide range of industrial electrolysis systems covers self-cleaning equipment of up to 600 grams/hour of Chlorine, which makes it possible to use saline electrolysis to treat the water at any public use facility.

Main advantages:

- **Safety: There is no need to store, handle or dose any chemical products and therefore it is a much safer system. The raw material stored is common salt.**
- **Savings**: The introduction of saline electrolysis systems can bring net savings in operating costs of around 50-60%, with respect to traditional systems.

Peristaltic pump not included.

	Easy Salt	Easy Salt Next	Pro-Chlore Salt	Nature Salt
Self-cleaning electrodes	10,000 - 12,000 h	10,000 - 12,000 h	12,000 - 15,000 h	12,000 - 15,000 h
Salinity range	5–12 g/l (recommended 5–6 g/l)	5–12 g/l (recommended 5–6 g/l)	5–12 g/l (recommended 5–6 g/l)	1.5–3 g/l (recommended: 2–2.5 g/l) (*)
Production (g/h)	50 - 180	75 - 190	50 - 600	50 - 300

(*) Operating range 1.5–5 g/l depending on the temperature (28–35 ºC) and nominal output (80–100%).

Easy Salt

SELF-CLEANING salt electrolysis system for residential and public pool applications of up to 180 g chlorine/hour. Easy Salt is a compact and cost-competitive piece of equipment. To control more than one unit for the same pool you will need an AP PR-200 external control or Smart Control and the TRI multiple control kit (code 70338).

Easy Salt Next

New

Easy Salt Next is the next generarion of salt electrolysis system for residential and public pool applications of up to 190 g chlorine/hour. Easy Salt Next has a compact and cost-competitive equipment design. Made with high-pressure (polypropylene) cells equipped with Premium+ grade electrodes (up to 12.000 hours). The device includes a display LED screen to improve the user interface. Expandable functions with AP PR-200 controllers series.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Easy Salt Next 75	**72663**	1	25	0.29
Easy Salt Next 100	**72665**	1	25	0.29

SALT ELECTROLYSIS AND PH/CL CONTROL

Pro-Chlore Salt

Our Pro-Chlore Salt range includes EX electrodes that provide the highest level of durability in self-cleaning systems. The Pro-Chlore Salt range with its integrated EXTENSION options (EXT-1, EXT-1E, EXT-2) or external control options (AP PR200, Smart Control) includes a control and regulation system for ORP values (Redox) or ppm, as well as pH, allowing improved management of the equipment and an excellent water quality at all times. The Pro-Chlore range can be manufactured, on request, for seawater (Pro Chlore Salt AM Series). To control more than one unit for the same pool you will need an AP PR-200 external control or Smart Control and the TRI multiple control kit (code 70338).

NEOLYSIS FOR PUBLIC POOLS

Neolysis, the most advanced water treatment by AstralPool: + Sustainability + Innovation + Disinfection + Healthy.

Advantages:
- Unbeatable water quality.
- Dual disinfection based on UV and electrolysis.

Characteristics:
- Two options: low salinity of 2–3 g/l (Neo LS) and standard salinity of 6 g/l (Neo S).
- The ultimate in chloramine reduction capacity (UV LP + Electrolysis).
- Self-cleaning electrodes that last 12,000–15,000 hours (NeoLS and Neo S).
- LP HO UV lamp (13,000 hours)
- Patented process.
- To control more than one unit for the same pool you will need an AP PR-200 external control or Smart Control and the TRI multiple control kit (code 70338).

AUTOMATIC UV DISINFECTION

AstralPool presents Heliox UV, a new automatic UVC light system, which guarantees double disinfection through a significant reduction in the amount of chloramines (bound chlorine) along with the neutralisation of bacteria, viruses and other microorganisms present in water by impeding their reproduction. The range comprises the Heliox UV LP model for private pools, the Heliox UV MP for public pools.

The advantages of UV-C technology:
UV ray treatment systems are completely automatic, with very low maintenance and running costs. They also have considerable advantages over other systems:

- 100% of pool water is treated.
- The disinfected water is free of unpleasant smells and does not irritate the eyes, thanks to a drastic reduction in the amount of chloramines.
- They save money as fewer chemical products are required.
- They are environmentally friendly because:
  Less fresh water is needed (daily water renewal is reduced).
  Fewer waste by-products are formed, resulting in a reduction in subsequent water treatment.
  The UV-C equipment does not add any chemical products to the water.

Heliox-UV operation
UV-C disinfection is a local treatment (UV chamber), which takes place as the water in the pool circulates through the chamber that contains the UV-C lamps. The accurate delivery of radiation (W UV-C) and residence time in the system ensure the effective neutralisation of 99.9% of microorganisms, as well as the reduction of chloramines to safe levels (<0.6 ppm).

Heliox UV MP for public pools

Heliox UV MP (medium pressure) systems are designed to be used in public pools. These lamps operate over a wide spectrum to cover the whole of the UV region (see graph), which makes possible the effective eradication of chloramines (<0.6 ppm) in the pool water and its efficient disinfection due to the neutralisation of microorganisms (99.9%), including those resistant to chlorine treatment.

NEW

- More compact design (UV reactor in AISI-316).
- Adjustable to between 70 and 100% of rated power, in 1% increments, by means of a self-cooling electronic ballast.
- Fluidra technology (design and manufacturing).
- Calibrated UV-C radiation sensor (mW/cm^2). Precise dose control. Instant power adjustment to process conditions. Saves energy and extends the lamp's lifetime.
- Advanced colour touch screen. System menu for browsing process parameters and log files.
- All UV MP 50-->450 and UV MP 50AWP -> 450AWP models are built in compliance with UL NSF.

Advanced versions:

- Embedded web

The control architecture used in Heliox UV PM systems has a number of features that make them reliable, energy-efficient and scalable to the highest possible level.

The Heliox UV MP systems use two parameters for adjusting the power setting: average radiation and flow. All models have a rated radiation profile that ensures a dose of 60mJ/cm^2. If the flow is lower than the rated value, the same will apply to the required radiation level and the system reduces the power input, thus optimising power consumption and the lamp's lifetime. Likewise, if radiation drops due to losses caused by cloudy water, scaling or lamp emission efficiency, the system will adjust the power so that the right dose is supplied.

Heliox UV LP system for public pools

UV LP Inox and UV LP PE (LP = low pressure) systems are designed to be used in public pools. They act at a wavelength of 254 nm, which is ideal for eliminating microorganisms. They will enable you to benefit from the latest ultraviolet light technology in the field of water treatment.

New features of LP S.S. & LP PE:

Stainless steel and polyethylene versions.
Multi-lamp version.
Fluidra technology (design and manufacturing).
Lamp "ON" indicator.
Electronic counter for working time and ignitions (lamp lifetime control).
Flow switch included as standard.

DOSING PUMPS FOR COMMERCIAL POOLS

Exactus membrane dosing pumps

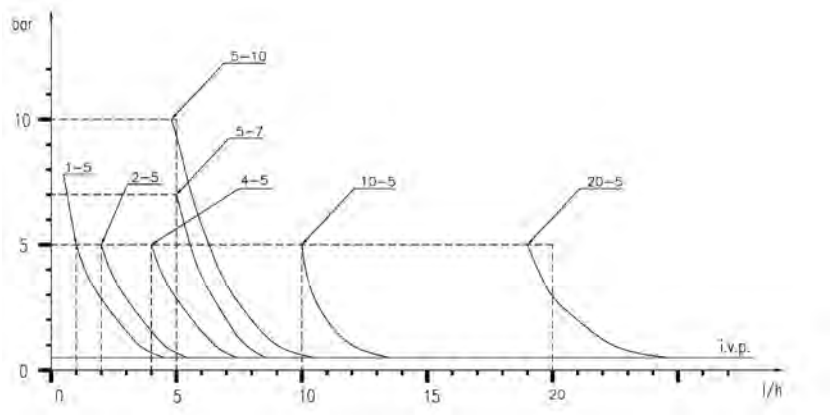

All systems comply with EC regulations. IP-65 protection. Electrical connection: 220/240 V 50/60 Hz. Materials in contact with the liquid: Polypropylene, Viton, Teflon and PVC. Other valve models in different materials available on request. Includes anti-acid plastic housing. Touch sensitive moisture resistant indicator. Drainage valve included. Lubrication-free, minimal maintenance. On request, the unit can be supplied with outlet, level sensor or other operating voltages.

Available materials:

Pump head: PP, and available in PVDF and PTFE to order
Diaphragm: PTFE
Valves: FPM lip valve (Viton) and other elastomers such as EPDM (Dutral), NBR (nitrile) and silicone available to order. Ceramic ball valves available.
Connections: 4 x 6 mm

Installation kit included with all pumps: full suction filter (PP-FPM by Viton), injection valve (PP-FPM by Viton), suction/return piping 2 m + 2 m PVC, 2-m PE distribution hose.

EXACTUS PUMP PERFORMANCE CURVE

Exactus manual analogue model

Electronic dosing pump for wall mounting or horizontal base. Manually regulated flow rate. Regulation range: 0-100% and 0-20%. Acid resistant plastic housing.

		Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Manual Analog	2 l/h - 5 bar	**57153**	1	4	0.005

DOSING PUMPS FOR COMMERCIAL POOLS

Exactus manual digital model

Electronic dosing pump for wall mounting or horizontal base. Manually regulated flow rate with digital control for injection frequency. 3 digit display. Regulation range: 0-100%, with a scale of 1%. Product ready to incorporate level sensor (not included). Acid resistant plastic housing.

		Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Manual Digital	2 l/h - 5 bar	**57159**	1	4	0.005
Manual Digital	5 l/h - 7 bar	**57160**	1	4	0.005
Manual Digital	5 l/h - 10 bar	**57161**	1	4	0.005
Manual Digital	10 l/h - 5 bar	**57162**	1	4	0.005
Manual Digital	20 l/h - 5 bar	**57163**	1	4	0.005

Exactus Proportional model

Proportional pump controlled by the mA signal. The pump may be connected to a transmitter/indicator instrument or to another device that feeds in an intensity-modulated signal of 0 to 20mA. The frequency drive of the pump will be proportional to the mA signal received, i.e. the higher the signal, the greater the pump flow rate. The pump can be set to work in reverse mode, i.e. the higher the signal, the lower the flow rate. This model can be adapted for other mA rates (0-20mA, 4-20mA, 20-4mA). Product can incorporate a level sensor (sold separately)

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Proportional (4-20mA) 5 l/h- 7 bar	**57164**	1	4	0.005
Proportional (4-20mA) 5 l/h- 10 bar	**57165**	1	4	0.005
Proportional (4-20mA) 10 l/h- 5 bar	**57166**	1	4	0.005
Proportional (4-20mA) 20 l/h- 5 bar	**57167**	1	4	0.005

Exactus pH / Rx model

Backlit LCD screen, ON / OFF or proportional operating modes, 0 ÷ 14 pH; -1000 ÷ 1400 mV, pH, RX (ORP) electrode inlet (10 Tera Ohm) (electrode not included), screen resolution: 0.01 pH; ± 1mV. Product can include a level sensor (not included).

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
pH / Rx 5 l/h - 7 bar	**57892**	1	4	0.005
pH / Rx 5 l/h - 10 bar	**57893**	1	4	0.005
pH / Rx 10 l/h - 5 bar	**57894**	1	4	0.005

Exactus Volumetric VFT model

Electronic dosing pump for mounting on base or wall. Proportional volumetric dosing pump that works from signals received from a flow meter. Can be operated in manual or automatic mode depending on the signals received. Product can incorporate a level sensor (sold separately)

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Volumetric VFT 5 l/h - 7 bar	**57174**	1	4	0.005
Volumetric VFT 5 l/h - 10 bar	**57175**	1	4	0.005
Volumetric VFT 10 l/h - 5 bar	**57176**	1	4	0.005
Volumetric VFT 20 l/h - 5 bar	**57177**	1	4	0.005

DOSING PUMPS FOR COMMERCIAL POOLS

pH sensor

5-metre pH sensor with plastic BNC connector.

DOSING PUMPS FOR COMMERCIAL POOLS

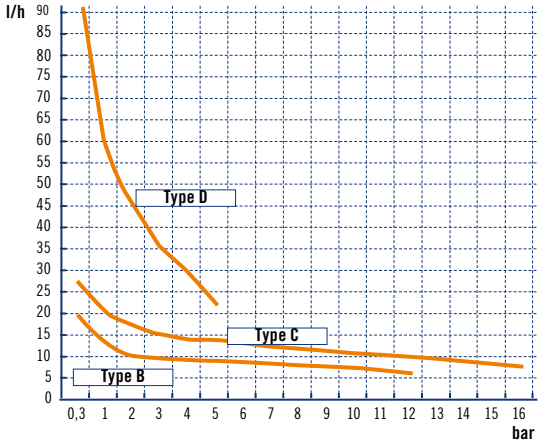

OPTIMA dosing pump

The OPTIMA dosing pump represents the development of more than 30 years of experience in the automatic dosing field. This new series reduces the number of pumps required to meet the various dosing needs.

The OPTIMA dosing pump series, with its new power supply technology from 90, VCA to 265 VCA and at 50-60 Hz, ensures a precision and reliability never seen before.

Integration of many functions due to its simple programming, an alphanumeric display, the possibility of multilingual programming of the menu and a new technology which permit controlled flow rate and back pressure. Allows to use the same model for various applications providing a great versatility.

Systems manufactured in compliance with EC standards. IP5 protection. 90-265V AC 50/60 Hz power supply. Components in contact with chemicals are made of polypropylene, Viton, Teflon and PVC. (Other materials are available if made to order.) Acid-resistant casing. Moisture-resistant membrane push buttons. Built-in purge valve. No lubrication and little maintenance work required. Sensors and calibration solutions not included. Also available with a peristaltic pump (see page 594).

Sensors				
pH sensor with calibration solutions (Code: 36004)	●		●	
Redox sensor with calibration solutions (Code: 36005)		●		●

OPTIMA constant flow rate analogue dosing pump

In OPTIMA constant flow rate analogue dosing pumps, the flow rate can be set as a percentage using the potentiometer under the front panel, which modifies the pump's operation frequency.
The pumps in this range have an level inlet sensor.

Double scale adjustment: the maximum dosing frequency can be divided into 5. This double scale allows users to have two pumps with a single unit.

Power supply from 90 to 230 VCA at 50-60 Hz with plug and switch.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Adjustable manual Optima pump				
B-type pump of5–10 bar and 2–5 l/h	**57132**	1	3.5	0.01
C-type pump of 5 bar and 10 l/h	**57133**	1	4.5	0.01
D-type pump of 5 bar and 120 l/h	**57135**	1	4.5	0.01

OPTIMA NEXT constant flow rate analogue dosing pump

The flow rate is fully adjustable from the flow meter. Power supply from 90 to 230 VCA at 50-60 Hz without plug.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Adjustable Optima manual pump at 8 bar and 5 l/h	**66164**	1	-	-

DOSING PUMPS FOR COMMERCIAL POOLS

OPTIMA proportional and volumetric dosing pump

OPTIMA pumps provide all the functions of proportional dosing in a single model.

Features:
- Proportional with analogue signals 4 - 20 mA.
- Proportional with digital signals and the possibility of:
  - Multiplying the input impulses (1:n)
  - Dividing the input impulses (n:1)
  - Function in ppm
  - The pump has a memory function for processing input impulses dosing
- Level alarm with pump disconnection.
- Maximum dosing flow rate to prevent overdosing.
- Password for protecting programmed data
- Possibility of alarm connection
- Power supply from 90 to 265 VCA at 50-60 Hz with plug

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Type B Model 7-10 bar and 5 litres	**57136**	1	3.5	0.01
Type C Model 5 bar and 10 litres	**57137**	1	4.5	0.01
Type D Model 5 bar and 20 litres	**57138**	1	4.5	0.01

OPTIMA NEXT proportional and volumetric dosing pump

OPTIMA pumps provide all the functions of proportional dosing in a single model.

Features:
- Proportional with analogue signals 4 - 20 mA.
- Reading of pulses/minute.
- Chemical product minimum level inlet.
- pulse entry for dosing proportional from pulse emitter counter
- Remote start/stop
- Power supply from 90 to 265 VCA at 50-60 Hz without plug

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Model 8 bar and 5 litres	**66165**	1	-	-

OPTIMA PLUS dosing pump with pH or redox tester

OPTIMA dosing pump with built-in pH/Redox control. pH/Redox instrument.
Automatic calibration: Calibration by simply pressing a button, with the possibility of controlling the level of sensor efficiency.

Features:
- 90-265 VAC 50/60 Hz power supply
- Manual temperature compensation for pH or optionally automatic via Pt100.
- 4...20mA output for printed register or transmission of the reading.
- Level alarm with pump disconnection or simple warning of lack of product by means of the alarm relay.
- Alarm notifying deactivation of the programmable setpoint across whole of the measurement range.
- Dosing delay time to stop the dosing pump from injecting product in event of poor sensor operation.
- Maximum dosing pump flow rate for preventing overdosing.
- Password for protecting programmed data
- Possibility of alarm connection

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Type C Optima Redox/pH control dosing pump (10 bar and 5 l/h and 5 bar and 10 l/h)	**66179**	1	4.5	0.01
Optional				
PT100 sensor	**66758**	-	-	-
Flange for PT100	**66759**	-	-	-

COMPATIBLE NN thing

Fluidra Connect compatible

Sensor not included. Sensor holder not included (code 01306)

DOSING PUMPS FOR COMMERCIAL POOLS

Sensor not included. Sensor holder not included (code 01306)

OPTIMA NEXT dosing pump with pH or redox tester

OPTIMA dosing pump with built-in pH/Redox control instrument.
Automatic calibration by simply pressing a button, with the possibility of controlling the degree of sensor efficiency.

Features:
- Power supply from 90 to 265 VCA at 50-60 Hz without plug
- Manual temperature adjustment for pH or optional automatic adjustment with PT100 (sensor not included).
- Level control input.
- Remote off control.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Optima Next dosing pump redox control/pH control at 8 bar and 5 l/h	**66166**	1	-	-

Bracket for mounting above tank

Optional bracket for mounting the OPTIMA series and pH Basic Plus in a horizontal position, for example on top of a chemical products tank.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
36830	1	0.1	0.002

Peristaltic dosing pumps

90/260V 50/60 Hz electrical connection.

The installation kit includes:
- Transparent glass-type flexible 2-m PVC suction pipe.
- Semi-rigid white polyethylene 2-m return pipe.
- 3/8" BSP m. injection valve.
- Pool floor filter.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Peristaltic pump 4 l/h (3 bar)	**57179**	1	-	-
Peristaltic pump 12 l/h (1 bar)	**57178**	1	-	-

Polyethylene cylindrical tanks

To hold chemicals for dosage pumps.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Capacity: 125 l	**01314**	1	4.5	0.120

AP PR-200 - Compatible Electrolysis

The expert's choice for dosing control. The built-in panels based on Series AP PR controllers provide the best solution for the plug & play devices pre-assembled on the panel. There are several versions for the control of the water's pH, ORP and FREE CHLORINE levels.

AP PR-200 equipment is compatible with the Easy Salt, ProChlore Salt and Neolysis ranges

This is also the recommended solution for experts whenever several chlorination systems must be controlled at the same time from a single control and regulation panel (multiple control through the TIP kit).

Pool Patrol

The Colorimetric controller unit gives a reply to the demand of the Swimming Pool Market requiring compact, easy and low maintenance device, with IP65 enclosure. The available measures are: Free Chlorine (DPD1), pH, Redox (ORP), Temperature. Thanks to its internal graphic display it is possible to have all measures displayed at the same time. The Plastic Cover assures an easy accessibility to the hydraulic part. Includes: Measuring instrument, flow detector by temperature, pH sensor, ORP sensor, pH calibration solutions, ORP calibration solutions and DPD2 bottle.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Pool Patrol	**54527**	1	-	-

Controller

Fluidra Connect compatible

The panels in the CONTROLLER range are fully equipped and assembled systems. They are therefore ideal for use in water treatment.
Their simple, compact design makes installation and start-up extremely easy.
They come with all of the components and accessories required for rapid assembly. All assemblies are made of PVC sheets, in various sizes depending on the model.

General technical features

- Range of available sizes depending of the sensor selected.
- Range available for free chlorine: 0-2, 0-5 0-10, 0-20 and 0-200 ppm.
- pH range: 0–14.
- ORP range: +/-1500 mV.
- Temperature range: 0–50ºC.
- Measurement of stable chlorine with low pH dependence.
- Self-calibration of all sizes.
- Alarm signal if water flow is insufficient.
- Instrument with IP65 protection rating.
- 250 V-10 A relays for connecting dosing pumps or salt chlorinators.
- 4-20 mA analogue outlets with repeat signal or manifold for proportional pumps.
- Power supply: 230 V / 50 Hz.
- Setpoints and programmable alarms.
- Pump pause function during calibration and for stopping flow.
- Temperature readings and readjustment (automatic with PT100 sensor included).
- Three types of setpoint settings. On/Off, Proportional in Time and Proportional by Pulses.
- RS485 communications port.

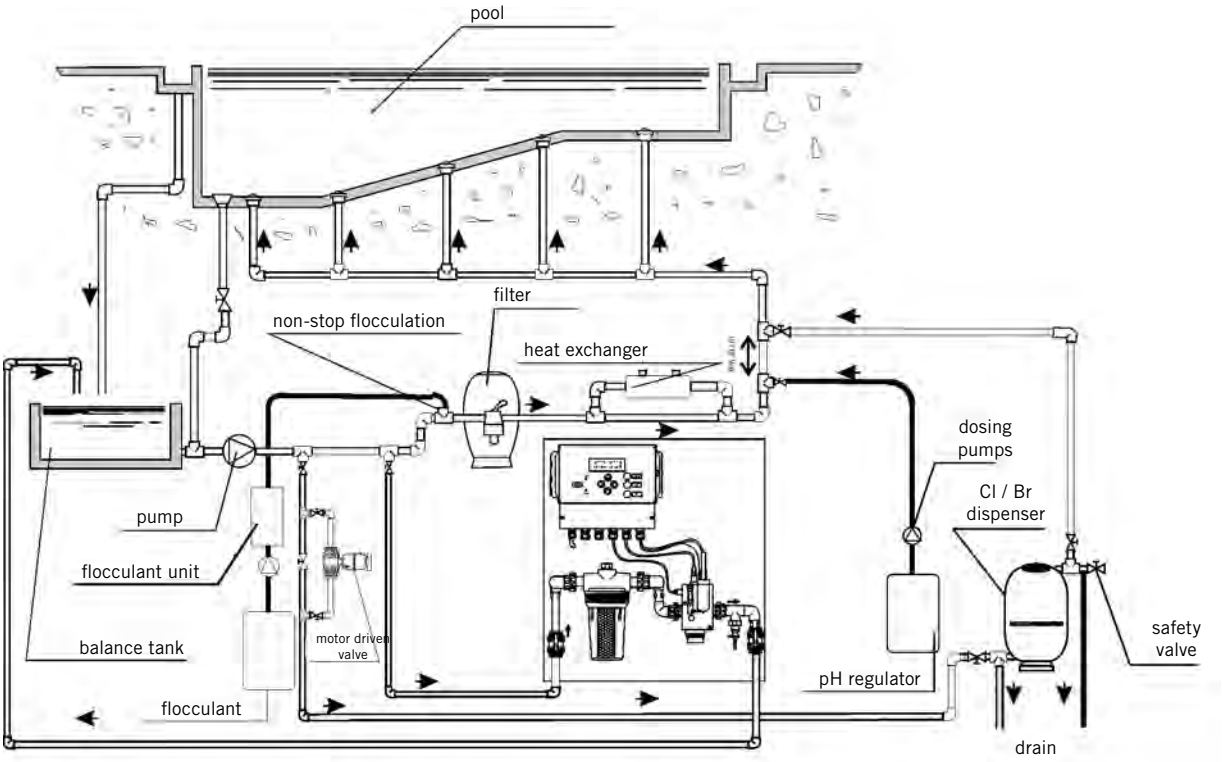

Components included in the assembly:

- Methacrylate sensor holder, with flow regulator, sample taking valve and flow sensor.
- Filter holder and 80 micron filter cartridge for water inlet.
- DPD calibration standard solutions.
- Assembly accessories, and instruction and installation manual.
- Sensors depending on version.

OPTIONAL EQUIPMENT

Chromotherapy LED spotlight, for public spas only

The Mini LED spotlight is the best option for lighting public spas. Thanks to the high intensity LEDs, lighting is similar to that attained with conventional lamps.

The range of LumiPlus Mini 2.0 projectors has a multitude of possible colour combinations and sequences with higher light intensity and better energy efficiency, which result in an 80% saving on electricity consumption compared with conventional projectors, as well as 100,000 hours of useful life time without the need for maintenance.

Chromotherapy LED spotlight option

Adjustable air inlet

1"for air regulation to Venturi system for jet function.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
04045	25	6.0	0.028

Adjustable silent air inlet

Silent venturi for jet air flow control. Air intake is through embedded part. Attaches to air distributor code 33937.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
33938	25	8.5	0.028

LINER ACCESSORIES

5 outlet air distributor for venturi

5 outlet air distributor for gluing to venturi with code 33938. Outlets for clamping a flexible hosepipe of 10 mm inner diameter.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
33937	25	8.5	0.028

6 outlet air distributor for venturi

6 outlet air distributor to attach to pipes with a 10 mm inner diameter and glue to 15 mm pipes.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
33936	25	8.5	0.028

10 outlet air distributor

10 outlet air distributor to attach to pipes with a 10 mm inner diameter and glue to 50 mm pipes.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
35346	25	8.5	0.028

4 water outlet manifold

Manifold for gluing to 50 mm pipe, 4 outlets for clamping a hosepipe of 20 mm inner diameter.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
33934	25	8.5	0.028

8 water outlet manifold

Manifold for gluing to 50 mm pipe, 8 outlets for clamping a hosepipe of 20 mm inner diameter.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
33935	25	8.5	0.028

Threaded blower nozzle

For air distribution into the SPA from the blowers. Flow rate 5.4 to 7.5 m^3/h.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
White plastic front panel	**27602**	80	1.6	0.03
Stainless steel front panel	**43440**	80	1.6	0.03

LINER ACCESSORIES

Blower nozzle for gluing

For air distribution into the SPA from the blowers. Flow rate 5.4 to 7.5 m³/h.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
White plastic front panel	**28460**	80	1.6	0.03
Stainless steel front panel	**43441**	80	1.6	0.03

Blower nozzle lateral outlet 3/8"

For air distribution into the SPA from the blowers. Flow rate 5.4 to 7.5 m³/h.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
White plastic front panel	**34318**	80	1.6	0.03
Stainless steel front panel	**43442**	80	1.6	0.03

2" return unit

For return line and massage.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
04034	25	5.0	0.028

Adjustable air impulsion inlet

For air distribution by means of the blowers. Maximum flow rate 18 m³/h.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
49818	12	4.24	0.021

09667 **04047**

04048

Pneumatic push button

For starting and stopping massage and hydromassage functions.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
For max. 15 m	**04047**	20	0.5	0.028
For max. 7 m simple	**04048**	40	1.6	0.028
For max. 7 m simple, with thread	**09667**	20	0.5	0.028

Plastic tube

For pneumatic signal from press button to switch. Inner Ø 3.5 mm.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
04054	50	3.33	0.006

LINER ACCESSORIES

Rotating jet

Flow rate 2 to 2.5 m³/h.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
20297	25	3.33	0.028

Twin rotating jet

Flow rate 2 to 2.5 m³/h.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
20296	25	3.83	0.028

Rotating jet housing

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
20299	15	3.33	0.028

Jet housing for linear pool

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
63144	12	3.33	0.028

Moveable tube jet nozzle to install in substitution of a fixed one

Compatible with codes 20295 and 20299. Flow rate 2 to 2.5 m³/h.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
20298	1	0.8	0.001

2 ½" wall conduit for rotating jet

Made up of: The jet body, 20 cm wall conduit, niche, threaded fitting, front body. Jet not included.
Flow rate 5 m³/h at 1 bar.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
20295	4	4	0.018

Stainless steel accessories should not be used in pools with salt electrolysis systems

POOL JET ACCESSORIES

Pool Jet accessories are designed for pools that have a hydromassage section .

Pool Jet 1 Directional Jet

Flow rate 2.4 to 3.6 m³/h. Accessories compatible with 2½" handrail for Pool Jet.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Stainless steel finish*	**63148**	25	3.83	0.028
White finish	**63149**	25	3.83	0.028

Pool Jet 1 Rotating Jet

Flow rate 2.4 to 3.6 m³/h. Accessories compatible with 2½" handrail for Pool Jet.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Stainless steel finish*	**63150**	25	3.83	0.028
White finish	**63151**	25	3.83	0.028

Pool Jet 2 Rotating Jets

Flow rate 2.4 to 3.6 m³/h. Accessories compatible with 2½" handrail for Pool Jet.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Stainless steel finish*	**63152**	25	3.83	0.028
White finish	**63153**	25	3.83	0.028

Pool Jet Rotating Beehive

Flow rate 2.4 to 3.6 m³/h. Accessories compatible with 2½" handrail for Pool Jet.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Stainless steel finish*	**63154**	25	3.83	0.028
White finish	**63155**	25	3.83	0.028

Wall conduit for Pool Jet

Made up of: The jet Straight body (20 mm Air x 32 mm Water), 20 cm wall conduit, niche, front body. Jet not included.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Wall conduit for Pool Jet	**63146**	4	4	0.018

Chrome accessories suitable only for baths that use no chemical treatment. Not suitable for pools.

ACCESSORIES FOR MINISPAS

1 ½" main drain

With elbow for gluing Ø 50 mm pipe.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Chrome-plated bronze front panel	**04104**	3	7.5	0.028

Adjustable air inlet

¾" to control air massage to Venturi system for jet function

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Chrome-plated bronze front panel	**04108**	10	9.0	0.028
White plastic front panel	**04110**	10	3.0	0.028

Pneumatic push button

For starting and stopping massage and hydromassage functions.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Chrome-plated bronze front panel	**04111**	10	6.0	0.028
White plastic front panel	**04113**	12	6.0	0.028

Blower Inlet

For minispa air distribution from the blower. 1 ½" thread.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Chrome-plated bronze front panel	**04114**	20	7.5	0.028

1 ¼" jet with adaptor to water return

Jet with adaptor to return water to pipe. Also adaptor to connect to water return and air circulation pipe, solvent for inner Ø 32 mm, directional.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Chrome-plated bronze front panel	**04095**	8	12.0	0.028
White plastic front panel	**04097**	12	12.0	0.028

1¼" jet

With adaptor to connect to return water pipe and Venturi to glue to Ø 32 mm pipe, directional.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Chrome-plated bronze front panel	**04092**	8	10.0	0.028
White plastic front panel	**04094**	24	5.0	0.028

1 ¼" return inlet

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Built in chrome brass	**04100**	4	15.0	0.028
Built in white plastic	**04103**	12	3.5	0.028

ELECTRICAL ACCESSORIES FOR SPAS / MINI SPAS

Programmable digital thermostat

To operate ON/OFF contactor.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
11288	20	0.5	0.003

Electric press button

230 V 50 Hz.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
33387	1	1.5	0.003

Electropneumatic equipment

With two switches. Up to 1.47 kW (2HP).

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
04053	2	4.0	0.028

Pneumatic switch

For starting and stopping massage and hydromassage functions.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
Pneumatic switch	**04050**	25	1.0	0.028
Pneumatic switch and presostat	**11290**	6	0.5	0.028
Pneumatic presostat	**11291**	12	1.0	0.028

AIR BLOWERS

Continuous operation lateral turbo blower pump

Air pump designed for spas, baths, hydromassage installations and similar which produces a constant stream of air bubbles at medium and high air volume levels. It can also be used to stir up the filter bed, for example in back wash cycles where a low intensity air current is required.

The filter casing and impeller are made from an injected aluminium alloy whilst the motor spindle is manufactured from stainless steel, with the impeller dynamically balanced and directly adapted to the spindle. The motors, single phase or 3 phase for continuous use, are made from steel in compliance with CEI 2/3 1988 regulations, and feature IP54 external protection and class-F insulation. The standard voltages are100-120/200-240V for the monophase range and 200-240/380-440V for the triphase models, at 50/60Hz. The pumps can be mounted horizontally or vertically. Moreover, since there is no contact between the mobile parts and the pump static discharges, neither lubrication nor maintenance is necessary and it does not cause wear on the parts.

The turbines have a maximum working temperature of 40ºC. Do not use in conjunction with aggressive, inflammable or explosive gases.

Model	Code	Frequency (Hz)	Power supply (V)	Phase	Flow rate (m^3/h)	Maximum pressure (mbar)	Standard weight (kg)	Standard volume (m^3)

Cala Pump

Centrifugal pump for spas, backwashes and other applications.

- Pump body manufactured in polypropylene reinforced with fibreglass, resistant to pool chemical products thus guaranteeing long and excellent duration.
- Turbine in Noryl.
- Graphite and ceramic mechanical seal.
- AISI 316L stainless steel motor spindle.
- Enclosed motor, completely silent, with IP-55 protection at 2850 r.p.m. Single phase power voltage at 230V-50Hz or triphase at 230/400-50Hz.
- Versions from 1.5 to 4.5 HP.
- Suction and return connections for gluing hoses included with the pump.
- Suction and return at Ø63.

SAUNAS

Essentia sauna

Essentia sauna reflects precise lines, creativity and care of details and exclusive natural woods. It merges perfectly the nordic tradition with the Italian design and accurate balanced proportions. This sauna provides perfect finishing that makes it suitable to fit into luxury wellness areas. This sauna have:

- Wall panels of Thermo Magnolia wood 15 x 170 mm.
- Benches of thermos Magnolia wood 28 mm.
- Exclusive Harvia heater with touch control panel.
- Secured transparent glass 8 mm.
- Monomaterical surfaces.
- LED White/RGB.

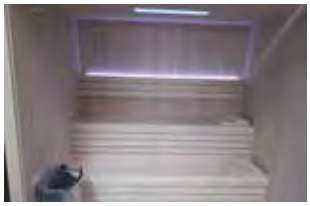

Code	Type	Dimensions (cm)	Heating (kW)	Control unit
72892	Essentia sauna	200 x 200 x 239	7 kW 230/400V 3~	Touchscreen / Exterior
72893	Essentia sauna	250 x 200 x 239	7 kW 230/400V 3~	Touchscreen / Exterior
72894	Essentia sauna	250 x 250 x 239	10.8 kW 230/400V 3~	Touchscreen / Exterior
72895	Essentia sauna	300 x 250 x 239	10.8 kW 230/400V 3~	Touchscreen / Exterior

The Essentia sauna can be made to order in the following Woods:

- Standard wood: Thermo Magnolia.
- Optional: Thermo Aspen.
- Bench wood: Thermo Magnolia (optional: Thermo Aspen).

Salt generator mounted in separated room

The Innsbruck sauna can be made to order in the following woods:

- Standard wood: Red Cedar
- Optional: Nordic spruce / White pine / Thermo Aspen-Alder-Pine
- Bench wood: Abichi

Sanama sauna / Sanama Salt Room*

Sanama shows and exciting design that merge natural wood with salt element from Himalaya. Its perfect finishes and excellent details become this sauna in an essential high quality element that cannot be miss in a wellness area.

Sanama contains:

- Benches and back rests made of Abachi.
- Heater with touch screen control panel (*halogenerator as an option)
- S.S. bowl for salt elements.

Code	Type	Dimensions (cm)	Light	Control unit	Heating (kw)

SAUNAS

The Bella sauna can be made to order in the following woods:
- Standard wood: Hemlock Playwood
- Bench wood: Thermo Aspen

Bella sauna

- Hemlock playwood panels 14 mm.
- Curved decorative elements of Thermo Aspen 21 mm.
- Benches of thermos Aspen 21 mm.
- Secured transparent glass 8 mm.
- Harvia design sauna heater.
- Outdoor touch control panel.
- Aromatherapy/Salt Metal Bowl.
- Led light warm white 3000 K.
- Option for glass ceiling.

FEEL THE PLEASURE OF BEAUTIFUL DESIGNS

Our goal is to take care for people's health and wellbeing. Therefore, our main objective in the wellness sector is to provide global value-add solutions that guarantee the well-being, health and comfort of users, regardless of the type of facility, its location or purpose.

In AstralPool we are artisans of wood. We adapt our designs to the project needs taking care of all kinds of details with the aim of achieving a high quality product.

Our planet is changing and it's changing fast. Manufacturing Saunas we want to protect the world's resources. We guarantee that all wood we use in our products grows back again.

STEAM BATHS

Lighting:
- Spots : 12V White LED
- Under bench: 12V RGB LED
- Ceiling: 12V RGB LED

Connection:
- 400 V III + Neutral + Grounding
- 230 V III + Grounding
- 230 V I + Neutral (9 Kw max.)

Asana steam bath cabin

New

Straight lines, sober and elegant design. AstralPool steam cabins offer the luxury of Italian design adapted to the most advanced technology in the market.

- Wall modules: Manufactured with double high density expanded polystyrene panel on an anodized aluminum structure.
- Ceiling: Vaulted ceiling made in black methacrylate modules of 3 mm, standing on anodized aluminium support, and tightenup with multicoated layers of polyester resin.
- Ceiling & underbench perimetral LED included.
- Diffuser in black lacquered.
- Lower and upper ring: Anodized aluminum.
- Handle: Tubular stainless steel matt black.
- Frontal finishing: laminated glass (5+5) of 10 mm.
- Benches coated with large format porcelain in slate black Sirius (Group 1).
- Walls coated with large format porcelain in marble black Kelya (Group 2).
- 2 puffs are included.
- Door: Made of tempered glass of 8 mm, hinges of anodized aluminium. Width 90 cm*.
- Control panel: Ecotouch
- Steam group included: Power according to model (optional: softener).
- Aromatherapy one essence included (optional up to 4 essences).

*Can vary according to customised design.

Code	Type	Dimensions (cm)	Heating (kW)	Control panel

FROM THE CONCEPT TO REALITY

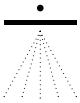

In Fluidra we are aware about every project is unique and every place an experience. For that reason, we want to make it easy for you, manufacturing your ideal steam bath under your project needs.

A complete bespoke solution for te most demanding projects.

EMOTIONAL SHOWERS

Types of jets

	**RAIN** Delicate on the skin, the rain jet tickles it causing a pleasant, stimulating and relaxing sensation.		**NEBULIZED** The nebulized jet slips in the environment, wrapping the body in a cosy and regenerating cloud of water.		**TROPICAL** A constant and powerful jet, with an embracing and revitalizing effect, massaging the body and recharging its energy.
	**WATERFALL** The powerful gesture of the waterfall absorbs us and, through the skin contact, communicates its energizing force to the whole body.		**AERATED** Water and air mix and enhance each other, massaging the body and inducing creativity and dynamism.		**ATOMIZED** By reducing the water into tiny particles, the atomized jet gives a refreshing and relaxing feeling of wellbeing.
	**TROPICAL AERATED** The mix between tropical and aerated jets creates the effect of a dense rain which, descending, relieves and reduces muscular tension.		**LED + NEBULIZED** A mixture of different therapies and effects, the LED light optimizes and enriches the regenerating effects of nebulization.		**LED + ATOMIZED** The fusion of water particles and LED light heat enhances and intensifies the delicate touch of the atomized jet.

Accessories

			
Audio	**Water aromatheraphy**	**Air aromatheraphy**	**Additional external thermostatic**

Controls

		
MANUAL Control (on/off) each shower jets through the keypad (as many buttons as types of jets).	**SEQUENCE** Activate the pre-programmed sequence of the different shower jets pressing only one button.	**MULTI SEQUENCE (SENSE PRO MODEL ONLY)** Activate the programmed sequence you want depending on your needs. Scheduled sequences: RELAX / BALANCE / SPORT / ENERGY

AstralPool Nordic bath offers a unique filtration and treatment technology for Nordic baths to guarantee bacteria-free water.

- Ultra fine 1 micron filtration captures 100% of particles.
- The 18 m^3/h pump have a 6 minutes turnover.
- High radiation UV and Ozone treatments kill bacteria and disinfect the water.
- OZONE CHOC® treatment cleans biofilms and eliminates bacteria (international patent EP2785648).
- The measurement and management of water quality are managed by an integrated computer (ORP reader, pH, T° C).

AIR-WATER HEAT PUMPS FOR OUTDOOR INSTALLATION

ProHeat II

- 0°C minimum outdoor air temperature.
- 2 models: Standard and Chiller.
- Digital display.
- Heating priority mode (filtration pump control).
- Robust, lightweight casing made from corrosion-resistant magnesium coated aluminium.
- Axial ventilator.
- Automatic cooling mode for chiller model.
- Automatic defrosting.
- HP & LP safety pressure switch.
- Water flow switch.
- G2 Titanium water exchanger condensers. Guaranteed against corrosion.
- Scroll compressor.
- Thermostatic expansion valve, with external balancing unit.
- High performance evaporator battery in an inner corrugated copper tube with lacquered aluminium fins, especially for corrosive environments.
- Control of purifying system.
- Automatic electrical protections.

AIR-WATER HEAT PUMPS FOR INDOOR INSTALLATION

ProHeat II

- 0°C minimum outdoor air temperature.
- Digital display, easy-to-use control panel, with display of current temperature, setpoint and alarm messages.
- Heating priority mode (filtration pump control).
- Robust, lightweight casing made from corrosion-resistant magnesium coated aluminium.
- Axial ventilator.
- Automatic cooling mode (chiller model).
- Automatic defrosting.
- HP & LP safety pressure switch.
- Water flow switch.
- G2 Titanium water exchanger condensers. Guaranteed against corrosion.
- Scroll compressor.
- Thermostatic expansion valve, with external balancing unit.
- High performance evaporator battery in an inner corrugated copper tube with lacquered aluminium fins, especially for corrosive environments.
- Control of purifying system.
- Automatic electrical protections.
- Centrifugal fans so the unit will be installed in a technical room, using air ducting.

ELECTRIC HEATERS

Commercial electricheat (incoloy version)

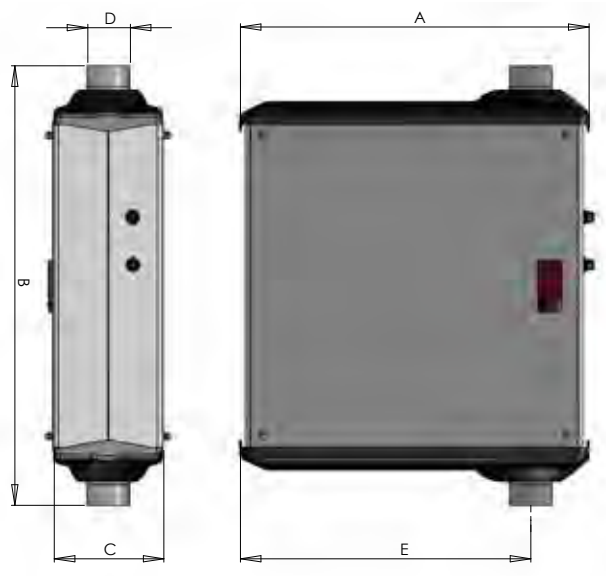

Commercial electricheat is suitable to heat the water temperature from small to large collective pools.

- Positive safety high temperature limiter (60°C).
- Digital display.
- Flow switch.
- Power contactors.
- Temperature control thermostat from 0 to 40°C.
- Precision thermostat: 0.1°C.

WATER-WATER EXCHANGER

Waterheat EVO

Heat exchanger suitable for warming the water temperature of pools and SPAS, thanks to the heat exchange between the primary circuit (warm area) and a secondary one (cold area that we want to warm).

- Titanium housing (secondary, pool water).
- Titanium coil (primary, water for boiler).
- Primary working pressure of 10 bar.
- Secondary working pressure of 3 bar.

WATER-WATER PLATE HEAT EXCHANGER

Equipped Waterheat

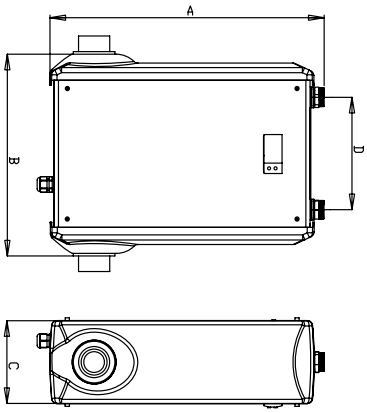

Heat exchanger suitable for warming the water temperature of pools and SPAS, thanks to the heat exchange between the primary circuit (warm area) and a secondary one (cold area that we want to warm).

- Regulator with secondary pump control, voltage free contact and timer.
- Casing built in Alucoil and ABS plastic.
- Body made in Titanium (secondary, water from pool).
- Coils made in titanium alloy (primary, water from boiler).
- Fully fitted, anti-return valve, primary recirculation pump and control thermostat with immersion probe.
- Primary work pressure 10 bars and secondary work pressure 3 bars.

CONNECTIONS:

- Primary (heating): 1".
- Secondary (pool): D-50 three piece link.

DEHUMIDIFIERS

BDP Confort Dehumidifying Unit

The BDP Confort heat pump is used for the dehumidification of indoor pools, using the latent heat of evaporation and the performance of the system itself to heat the pool water and the room air.
The energy savings achieved with these systems compared to traditional heating systems mean that they are virtually essential when you wish to heat an indoor pool.
The wide range of models covers all market requirements.

- Made of non-corrosive magnesium coated aluminium.
- Thermal-acoustic inside insulation.
- Direct transmission single centrifugal ventilator. Radial Ventilator Optional.
- Air filter can be changed for a G4 type filter.
- Condensation collection gutter with drainpipe.
- A copper nitrogen, dehydrated and deoxidized refrigerated circuit. Air condensation.
- Ozone-safe R407C refrigerant gas charge (ecological).
- Evaporation, condensation and hot water batteries made of copper pipes with lacquered aluminium fins (specially designed for corrosive environments).
- Airtight compressor mounted on anti-vibration mounts.
- Pressure balancing expansion valve.
- High and low pressure switch.
- General security switch.
- Power source, compressor and ventilator motor protection mechanisms.
- Full adjustment of all the items included.
- Three-way valves and their regulation when a hot water coil is incorporated.

Optional:

- 1 or 2 stage electric heating option to support air heating.
- Hot water coil to support air heating, with three-way valve, temperature probe and regulation (ask about primary temperatures different to standard equipment).
- Freecooling or mixed chamber and shutter to bring in outside air.
- Optional enthalpic regulation in the case of freecooling.

Generation Operating Conditions
The thermo-hygrometric conditions for these facilities that are considered optimal for materials and people include:

- Air 28ºC - 30ºC
- 65% HR
- Water 2ºC below air temperature.

AirPool

The new AIRPOOL dehumidifier is used to dehumidify covered pools by harnessing the latent heat from vaporisation and the very output of the equipment in heating the basin water and pool ambient air, recovering the energy needed and controlling air temperature and relative humidity.

STRUCTURE

- The structure is made from aluminium profiles with reinforced nylon on the corners.
- The housing is a 25 mm sandwich panel with IDROTEC polyurethane and auto-close handles, classifying the equipment as tightness L1(M) and thermal transmission T2.
- Condensation collection gutter with drainpipe.

COOLING CIRCUIT

- Evaporation and condensation battery made out of copper pipes with lacquered aluminium fins.
- Scroll compressor.
- R-410A refrigerant gas.

AIR CIRCUIT

- G4 filter.
- Free-cooling system made up of three motorized weir flaps, mixing chamber and return fan.

REGULATORS

- Through a programmable electronic regulator.
- Return air and outside air humidity and temperature probes, and a pool water temperature probe.
- Dirty filter pressure switches.
- Control of the pool water circulation pump through a voltage-free contact.
- Free-cooling weir flap servomotors.

OPTIONAL

- Harnesses the energy in the air discharged from the high-performance crossflow recuperator (according to Spain's RITE Regulation for Thermal Installations in Buildings)
- High-performance backup hot water coil manufactured in copper piping and lacquered aluminium fins specially designed for corrosive atmospheres. Includes a 3-way proportional valve. Controls flow temperature as an optional extra.
- Titanium condensers with PVC shell and Titanium coil.
- M6 filter in pool air suction unit and exterior air inlet and F8 filter in flow unit.
- Siemens regulation with touchscreen, enthalpy control and Eco operating mode, reducing fan flow in line with setpoints.
- Electronic radial plug fan with flow rate control.
- Water-water exchanger, assembled with the water condenser as a series feature.
- Increased air and pressure flow available in fans.
- External condenser.
- Weatherproofed.
- Optional CO_2 probes for controlling the quality of the air and adjusting it.
- Remote management.
- AND/OR preventive maintenance.
- AND/OR warranty extension.
- Start-up.

DEHUMIDIFIERS

Only heats air.

Dehumidification through alpha circuit

Dehumidification through alpha circuit with air renewal

Full air renewal.

New

OPTIONAL U.V. DISINFECTION SYSTEM
More info in page 647

AirPool+

The new high performance AIRPOOL + dehumidifier is used for dehumidifying indoor pools. Thanks to its design, in which the cooling circuit components are distributed differently to conventional dehumidifiers, it uses the dehumidified air to recover heat. By optimising its various operating modes, huge savings can be made in running a pool.

STRUCTURE

- The structure is made from aluminium profiles with reinforced nylon on the corners.
- The housing is a 45 mm sandwich panel with IDROTEC polyurethane and auto-close handles, classifying the equipment as tightness L1(M) and thermal transmission T2.
- Condensation collection gutter with drainpipe.
- Equipment interior with painted sheet metal for greater durability against chlorine degradation.

COOLING CIRCUIT

- High-performance evaporation and condensation batteries manufactured in copper piping and lacquered aluminium fins.
- Scroll compressor.
- R-410A refrigerant gas.

AIR CIRCUIT

- M6 filter in pool air suction unit and exterior air inlet and F8 filter in flow unit.
- Radial plug fans with flow rate control
- Free-cooling system made up of three motorized weir flaps, mixing chamber and return fan.
- Harnesses the energy in the air discharged from the crossflow recuperator from 100% of flow
- Back-up water heating battery. With three-way proportional valve and flow-rate temperature control.

REGULATORS

- Siemens regulation with touchscreen, absolute humidity control and Eco operating mode, reducing fan flow in line with setpoints.
- Return air and outside air humidity and temperature probes, and a pool water temperature probe.
- Dirty filter pressure switches.
- Control of the pool water circulation pump through a voltage-free contact.
- Servomotors for free-cooling weirs.

OPTIONAL

- Increase in air flow rate (involves rise in heating battery power)
- Titanium condensers with PVC shell and Titanium coil.
- Water-water exchanger, assembled with the water condenser as a series feature.
- Equipment can be operated in reverse to expel surplus heat from the facility.
- Weatherproofed.
- Optional CO_2 probes for controlling the quality of the air and adjusting it.
- ModBus.
- Remote management.
- AND/OR preventive maintenance.
- AND/OR warranty extension.
- Start-up.

DEHUMIDIFIERS

Optional U.V. disinfection system

Optional U.V. disinfection system, fitted in evaporators or in air treatment system in air ducts to, is a highly effective way to destroy microorganisms including: virus, bacteria, and mold spores.
Short wave UV light (UVC) penetrates the cell structure of the micro-organism and destroys the DNA structure and thereby prevents it from replicating.

This method of purification is ideal for dehumidifiers because it is completely safe, fast and easy with simple use and maintenance.

COMPETITION POOL SYSTEMS

Sparger. Safety on diving boards.

When diving off a diving board, the undisturbed water forms a fairly resistant surface, which if combined with a bad descent can result in serious injury on impact.

AstralPool has added Sparger technology to its pools in the shape of a new safety system for diving pools. Air is released at high pressure from the pool floor, which forms a large amount of bubbles when it mixes with the water to form a cushion for divers. This reduces the risk of injury and divers are more confident when they dive into the water, whether they are beginners or professionals.

Movable wall. Divides pools and multiplies their uses.

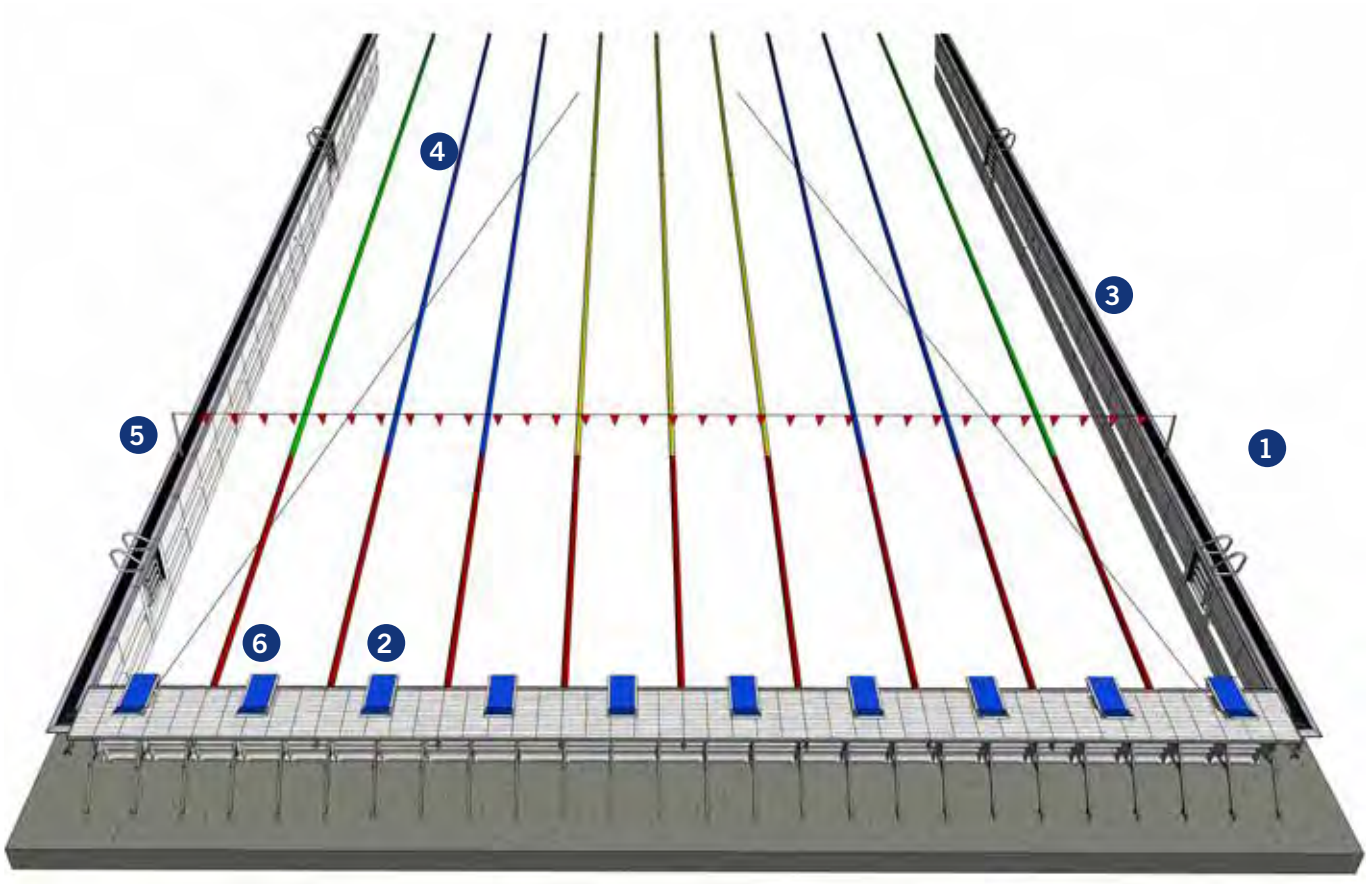

Technology that allows a single pool to be divided into two separate pools for different uses. This therefore makes better use of space and gives swimmers a greater variety of options for a lower overall cost.

The movable wall system is able to adapt to and be used in existing pools or newly built ones.

The movable wall is made of AISI-304 stainless steel and is lined with white plastic non-slip sheeting.

SWIMMING POOL COMPETITION PODIUMS

Starting block

Specially designed for competition events. Available with adjustable footrest to facilitate entry into the water. Its minimalist design in high quality materials gives it an elegant and modern look.
Manufactured in AISI-316 stainless steel. Polished surface finish. Adjustable support (6 positions). Fastening 54460 not included in supply.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Starting block	**53875**	**1**	-	-

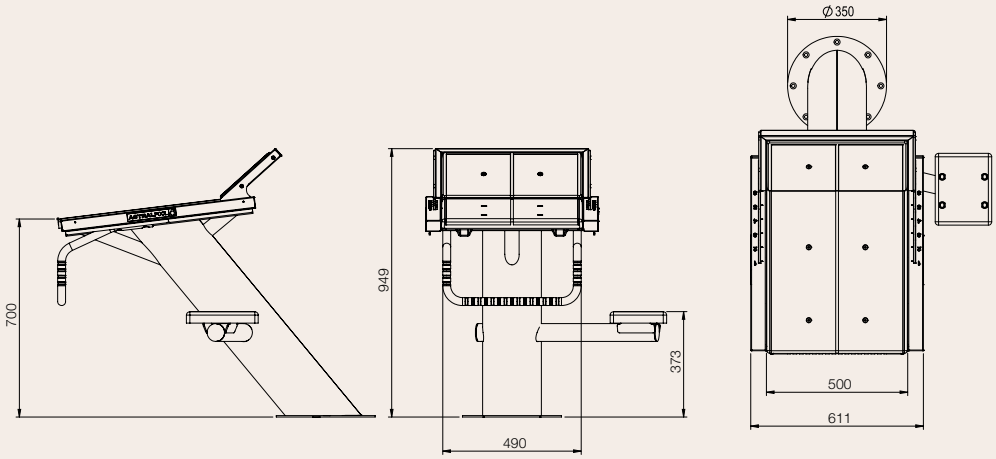

Starting block H-700 mobile support

New

Specially designed for competition FINA compliant and UNE EN 13451-4. It has adjustable support of 6 positions to facilitate the exit to the swimmer. Made of AISI-316 stainless steel and witha height of 700 mm to avoid having to install headwall for podiums in the pool. Installation with anchor 73971 not included in supply.

	Code	Standard Pack	Standard Weight in kg	Standard Volume in m³
Starting block, height 700 mm	**74011**	1	110	-

Starting block H-700 anchorage

New

Anchor designed for the H-700 podium with support, code 74011, to be embedded in concrete. Made in Stainless Steel AISI-316L.

SWIMMING POOL COMPETITION PODIUMS

Headwall for podiums

AstralPool has created a headwall that allows starting blocks to be attached. This addition extends our range of products for competition. The item consists of an AISI-304 Stainless Steel structure and plastic grating. The platform can also be used as a turning panel and includes anchors for float lines.

LANE ROPE STORAGE EQUIPMENT

BCN03 Lane rope storage basket

A new trolley designed to transport and store the BCN03 Lane ropes after use in the swimming pool. The BCN03 lane rope storage basket is manufactured of AISI-316 Stainless Steel and includes a PVC bag for collecting excess water from the float lines. Due to the bag's bottom outlets, it is emptied in a controlled manner with no water spillage. The trolley has four castor wheels for maximum mobility. Two of these fitted with brakes. It can store a lane rope up to 50 m long (or 2 of 25) and can be used for all lane rope models.

Code	Standard Pack	Standard Weight in kg	Standard Volume in m^3
28623	1	55.0	0.389

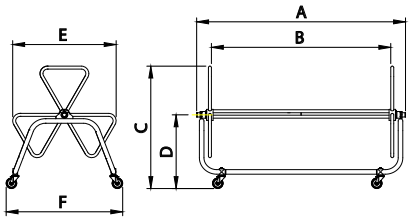

Lane rope roller

Made in Stainless Steel AISI-304, fitted with a large wheel for operation. It is mounted on 4 castor wheels for easy handling. Two of these are fitted with brakes.

Under deck lane rope storage system

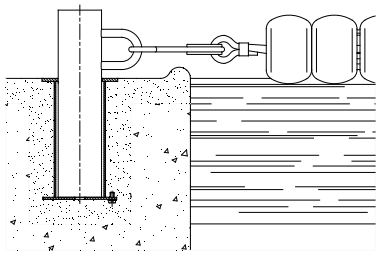

Made of AISI-316, allows the storage of the float lines beneath the deck. The float line box is embedded in the pool surround and holds the retractable reel over which the float line slides into the hole. This unit can be complemented with a lane rope collecting bag if required.

WATER POLO GOAL

Water polo goal

The water polo goal is lightweight, floating and very resistant. It is built entirely from aluminium and is oven-painted white.

Manufacturing and measurements in accordance with FINA international swimming federation standards.

- Floating: Polyurethane foam-filled aluminium floats.
- Goal frame: 80 x 50mm aluminium tube
- Net fastening: 6 mm stainless steel round rod.
- Net side pipe: 23 mm stainless steel round pipe with fastening in frame and float.
- Fastening for goal lines.
- Nets included.

WELLNESS SOLUTIONS

FLUIDRA

ASTRALPOOL

Only Fluidra, with more than 40 years' experience and operations worldwide, could become the new leader in the manufacture of stainless steel swimming pools, with its brand INOX POOL.

Much more than swimming pools, their high quality and beauty will leave you with unforgettable memories. Turnkey solutions are available both for residential and public pools (hotels, sports clubs, spas...).

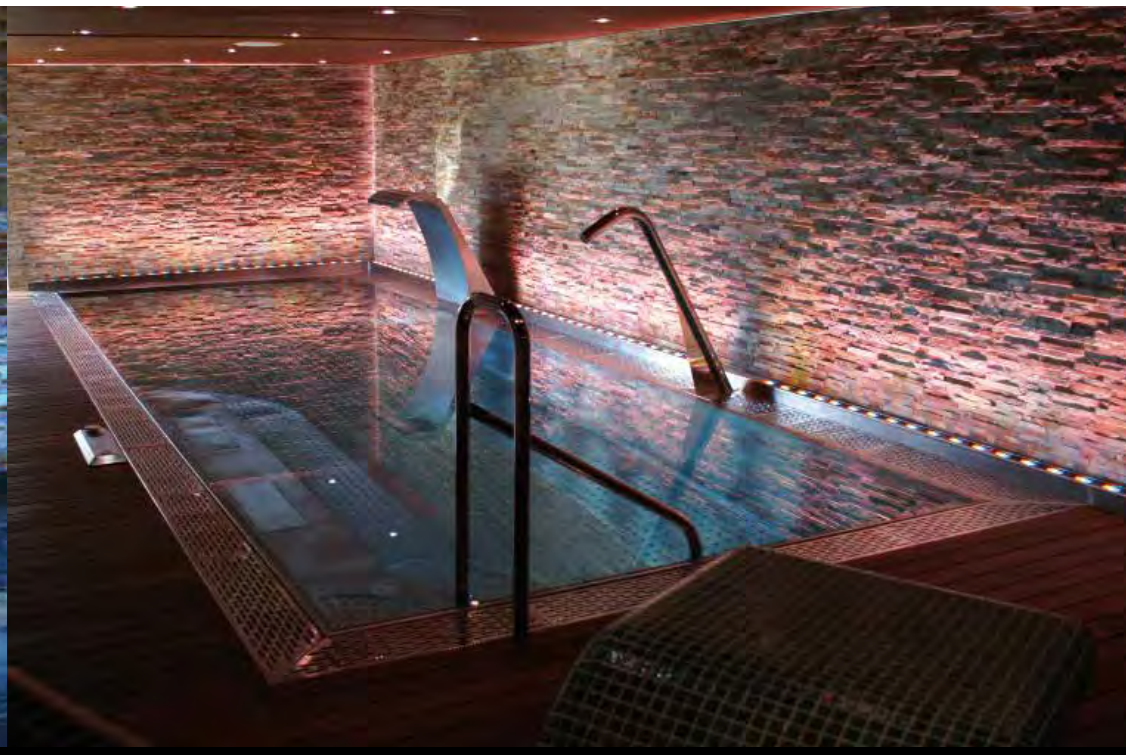

Advantages of an INOX POOL:

- **Durable.** They last a lifetime.
- **Watertight.** They never leak or lose water.
- **Adaptable.** We will design the pool of your dreams, whatever your specifications.
- **Clean.** Dirt does not stick to them.
- **Sustainable.** The stainless steel is fully recyclable.
- **Elegant.** They have unique finishes.

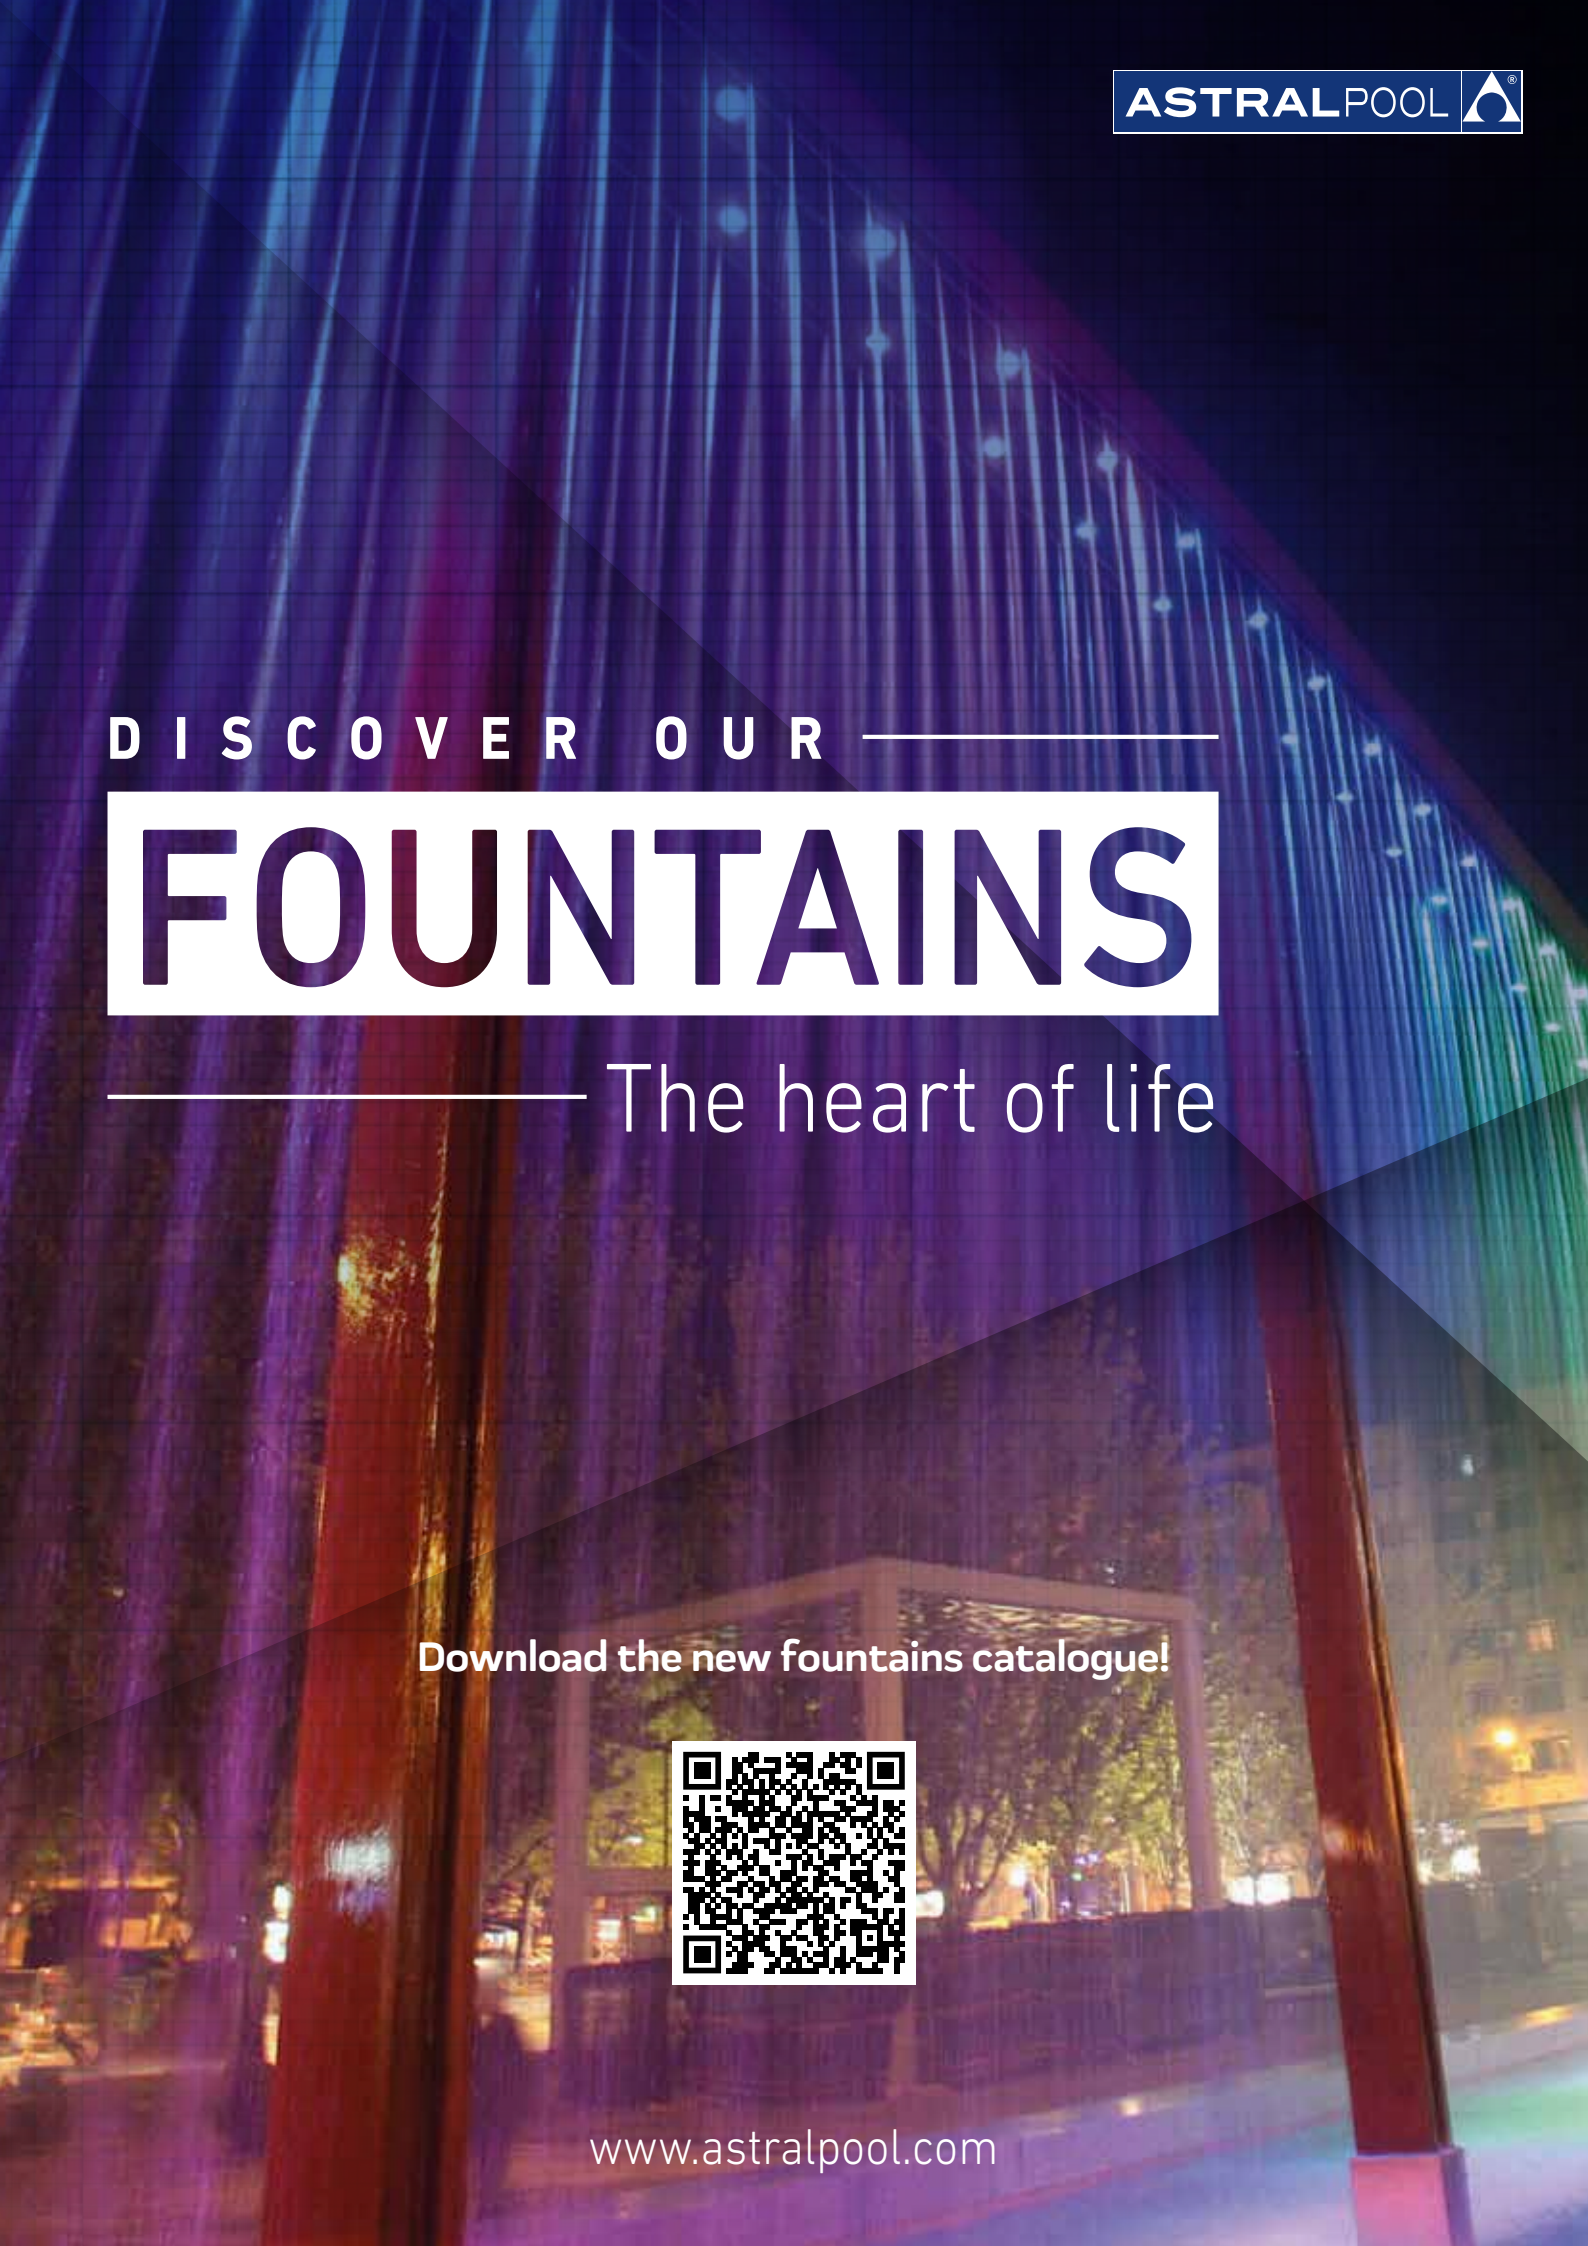

Place your trust in INOX POOL. We will create the pool of your life built to last a lifetime. WARRANTY OF UP TO 20 YEARS.

Customized, integrated solutions adapted to your needs and to your imagination. Hypnotic pools.
